July 1, 2016

Honorable City Council
City of Mountain View

FISCAL YEAR 2016-17 ADOPTED OPERATING BUDGET

Honorable Mayor and Members of the City Council:

This transmittal letter summarizes the structurally balanced Adopted Operating Budget based on Council input from the Narrative Budget Study Session held on April 26, 2016 and the public hearings on June 14, 2016 and June 21, 2016. The budget was formally adopted after the public hearing on June 21, 2016.

INTRODUCTION

The City's revenues are cyclical, and the City is currently in a period of revenue growth after recovering from the greatest recession since the Great Depression. The City weathered those tough economic times while continuing to balance the General Operating Fund (GOF), the single largest fund and provider of core services. During the recession, balancing the GOF was accomplished by strategically reducing expenditures, establishing more efficient operating models, and working closely with employee organizations to contain employee compensation costs, as well as implementing limited revenue enhancements where appropriate. Taking the necessary actions to maintain a structurally balanced budget provided a solid foundation for the economic recovery.

However, the City has continued to operate with fewer resources (primarily staff) than were available prior to the recession. This has the organization strained in continuing to provide the high level of services expected at a time of increasing demands. Over the periods of retrenchment since Fiscal Year 2001-02, the City reduced approximately 70.0 positions or over 14.0 percent of its workforce in the GOF.

The City organization has developed methods to improve efficiencies, to do more with less staff, but this has continued to place a strain on the organization. Therefore, to address some key staffing needs within the City, there are a total of 22.5 positions, primarily limited-term positions, for all funds being added. Only 4.0 of these are ongoing positions in the GOF. The positions being added are for almost all

Return to Previous

departments; however, the focus is on resources being added, or continued, in the Development Services Fund, for Community Development and Public Works Departments, in response to the current high level of private development activity. A summary of the added positions is as follows:

	GF	Other Funds	Total Positions
New Ongoing Regular	2.50	1.00	3.50
Limited-Period to Regular	1.50	2.00	3.50
Continuing Limited-Period	1.05	3.95	5.00[1]
New Limited-Period	8.70	1.80	10.50
Total	13.75	8.75	22.50[1]

[1] Does not include 2.0 FTE limited-period positions reimbursed by Google.

Although the City is currently experiencing strong revenue growth, how long this will continue is unknown. Slowdowns in the economy have occurred between 4 and 9 years in the past five decades, with the longest period of expansion lasting 11 years, from 1990 to 2001. It has been approximately 8.5 years since the beginning of the last recession and will be 11 years if the slowdown occurs in Fiscal Year 2018-19 as it is included in the General Operating Fund Five-Year Financial Forecast (Forecast). The economic recovery is very extensive in the Bay Area, but the recovery is not prevalent elsewhere in California and the rest of the country. Some would say the recovery has been very long and slow and, therefore, the next downturn could occur later. Although it is uncertain when the next economic slowdown will occur, based on history, it is certain there will be another recession sooner or later.

Keeping in mind the next recession could be on the horizon, it is prudent to only conservatively add ongoing positions and provide additional resources on a limited-period basis. A discussion of each recommended position is included in this Adopted Budget.

This document includes the Adopted Budget for all City funds and includes a structurally balanced GOF budget for Fiscal Year 2016-17.

Return to Previous

The Fiscal Year 2016-17 Adopted Budget document is divided into eight sections:

1. Introduction—includes a summary of the City's overall financial plan;

2. City and Community Information—includes the community profile and other information about the City;

3. General Operating Fund Five-Year Forecast—includes the GOF revenue and expenditure forecast;

4. Department Budgets—includes operating plans for all City departments;

5. Fund Schedules—includes adopted budgets for all funds;

6. Capital Improvement Projects—includes the Adopted Five-Year Capital Improvement Program;

7. Miscellaneous Information—includes description of the budget process, position listing, debt administration and payments, and other information; and

8. Shoreline Regional Park Community—includes the adopted budget for the Shoreline Regional Park Community.

This budget has been prepared in accordance with Section 1103 of the City Charter, the State Constitutional limit on the proceeds of taxes, and all applicable regulations.

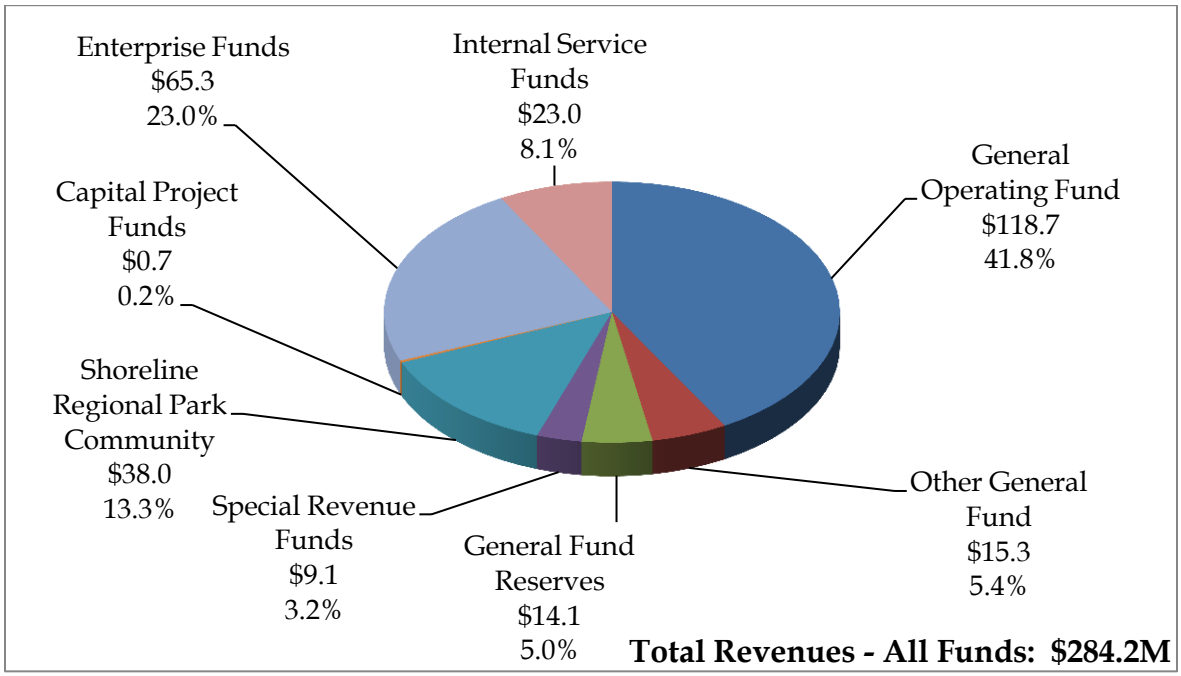
FISCAL YEAR 2016-17 BUDGET OVERVIEW

The Adopted Budget for Fiscal Year 2016-17 totals $284.2 million in revenues and $326.2 million in expenditures. Expenditures are greater than revenues as some expenditures, such as capital projects, are funded from existing available resources. The Fund Schedules Section of this document presents the City's financial picture in detail.

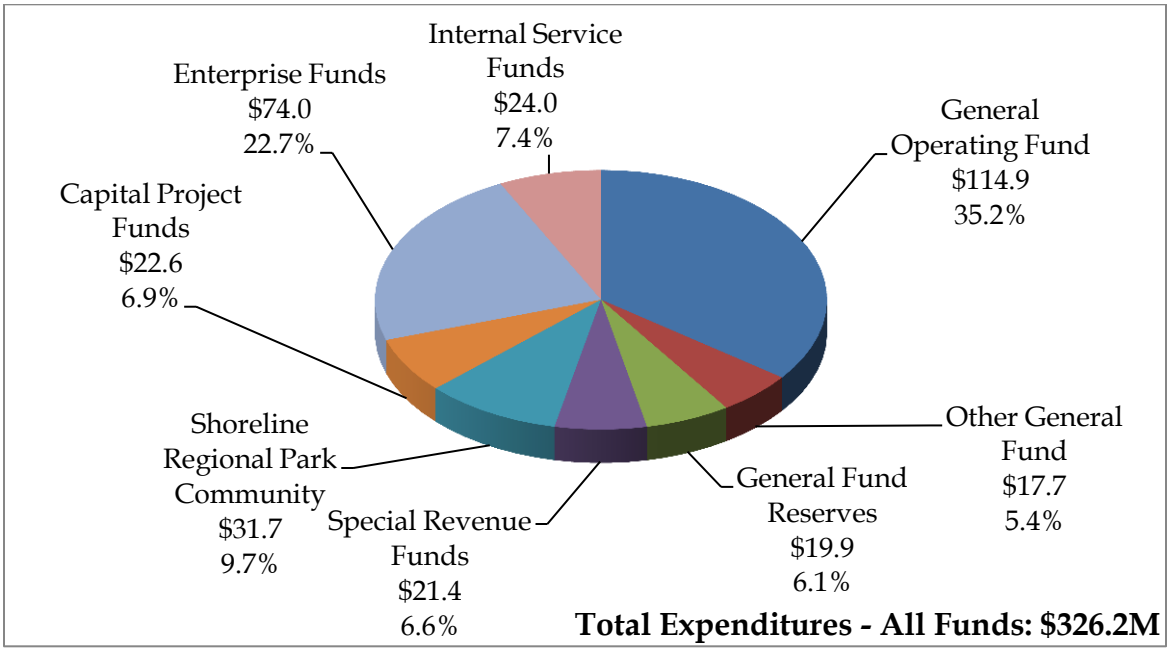
Return to Previous

Total Adopted Revenues and Expenditures by Fund are as follows:

Total Fiscal Year 2016-17 Adopted Revenues – All Funds
(dollars in millions)



Total Fiscal Year 2016-17 Adopted Expenditures – All Funds
(dollars in millions)



Return to Previous

GENERAL OPERATING FUND

The GOF is the single largest City fund and provides funding for the core services provided by the City, including Police, Fire, Parks, Recreation, Library, some Planning, Public Works, and Administration. The City's financial health is shaped in large part by economic forces beyond our control. Revenues fluctuate with the economic climate of the Bay Area. During the dot-com boom, City revenues, especially Sales Tax revenue, increased significantly and just as significantly declined with the dot-com bust. During this past recession, due primarily to drops in Property Taxes, Sales Taxes, and Transient Occupancy Tax revenues, the GOF faced structural deficits (before corrective actions were taken) for four consecutive fiscal years. By addressing these structural deficits on an ongoing basis, the City was able to position itself for revenue growth with the economic recovery. The City's sound fiscal practices and budget discipline have allowed the City to maintain its AAA credit rating, a status few other California cities can claim.

Building on this strong financial foundation and with the continuation of revenue growth, this letter transmits the Adopted GOF budget for Fiscal Year 2016-17. The updated projections indicate continued strength in the economic environment through the next couple of fiscal years, with projected revenue increases in all major revenue categories (e.g., Property Tax, Sales Tax, Transient Occupancy Tax, and Utility Users Tax).

The General Operating Fund Adopted Budget is summarized below (dollars in thousands):

Total Revenues	$118,718
Total Expenditures	(108,433)
Contribution to PERS	(2,000)
Contribution to OPEB	(2,000)
Contribution to SPAR	(2,000)
Transfer to General Non-Operating Fund	(500)
Operating Balance	$ 3,785

It is fortunate the City is once again in an enviable position to be generating operating surpluses. It provides the opportunity to address some infrastructure needs and unfunded liabilities related to employee benefits, which were unable to be addressed during tough economic times. Therefore, the Fiscal Year 2016-17 Adopted Budget

Return to Previous

available operating balance is being focused toward the unfunded liabilities of the California Public Employees' Retirement System (PERS) and Retirees' Health Other Post-Employment Benefits (OPEB). With contributions of $2.0 million each toward the PERS and OPEB liabilities, the transfer of $2.0 million to the Strategic Property Acquisition Reserve (SPAR), and the transfer of $500,000 to the General Non-Operating Fund, there is a projected net balance of $3.8 million.

At the April 26, 2016 Narrative Budget Study Session, the Council requested staff to develop recommendation on various items, including options for utilizing a portion of the then-recommended $2.5 million transfer to the SPAR. At the June 14, 2016 public hearing, the Council indicated support for the City Manager's recommendations. Included in this Adopted Budget is a reduction to the transfer to the SPAR from $2.5 million to $2.0 million, and a transfer to the General Non-Operating Fund (GNOF) of $500,000 to be used for a one-time employee bonus, recruitment strategies and employee engagement activities, and a new limited-term Communications Training Supervisor.

Although the PERS liability is 71.7 percent funded as of the June 30, 2015 actuarial, prior to the Great Recession, it was PERS' policy to maintain a minimum funding level of 80.0 percent. PERS continues to work toward raising the funding level of pension benefits; this, however, generally translates into higher rates for agencies.

The City's OPEB liability is 73.8 percent funded as of June 30, 2016, the most recent actuarial valuation update. Although there have been changes made to reduce the cost of current health benefits, the overall OPEB liability has increased with this most recent valuation. The City continues to make progress toward the funding of this liability with additional contributions.

The City has successfully leveraged City-owned property for ongoing revenues in the past, and setting aside available resources in the SPAR would assist in obtaining future strategic properties with the intent of revenue generation for ongoing or new services.

Details of the Adopted General Operating Fund revenues and expenditures are included on Page 5-4 and in the General Operating Fund 5-Year Forecast section of this document. A summary of the Fiscal Year 2016-17 General Operating Fund Adopted Budget is discussed below.

General Operating Fund 5-Year Forecast

Included in this Adopted Budget document is the General Operating Fund 5-Year Forecast (Forecast). Forecasting is an important part of a city's financial planning process. While it is challenging to accurately predict local government revenues due to

Return to Previous

the variable nature of the revenue sources and their connection to regional, State, national, and international economic conditions, it is possible to identify reasonable financial trends and provide a conceptual financial picture for a multi-year period which is useful to the policy makers' decision-making. The Forecast demonstrates the projected fiscal outlook for the GOF (including changes for the Fiscal Year 2016-17 Adopted Budget).

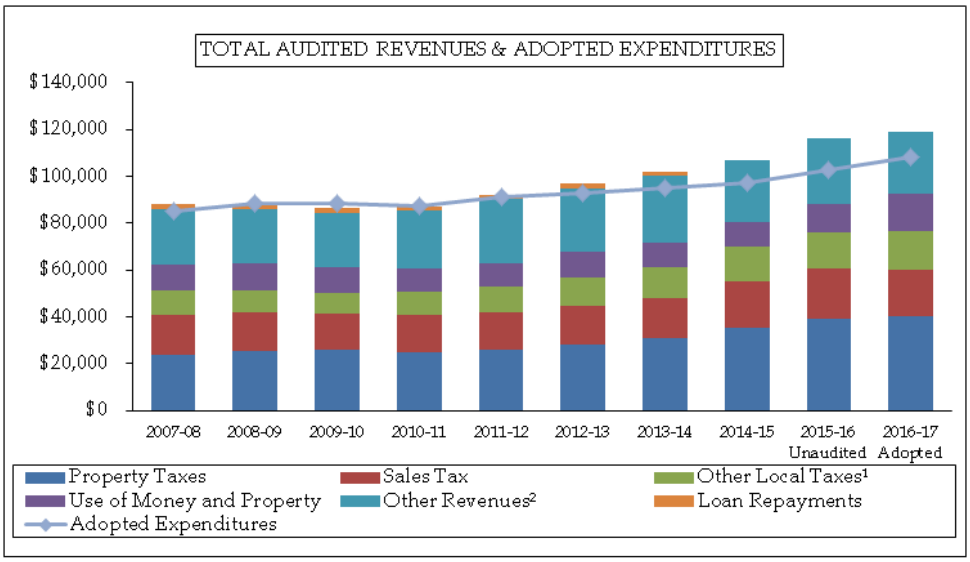
In summary, revenues are projected to continue growing for the next few years; however, the Forecast assumes a recession will occur during the five-year period. It is unknown exactly when a recession will occur, but staff has included the impact of a recession beginning in Fiscal Year 2018-19 as that would match the longest economic expansion in decades. At that point, the projected operating balance declines and deficits are projected in Fiscal Years 2019-20 and 2020-21 (without corrective action).

Fiscal Year 2016-17 General Operating Fund

Revenues

For Fiscal Year 2016-17, GOF revenues are projected to grow by 10.8 percent, to $118.7 million. All major categories of revenues (e.g., Property Tax, Sales Tax, and Other Local Taxes, etc.), except Fines and Forfeitures, Miscellaneous Revenue and Interfund Transfers, are projected to increase compared to the current fiscal year adopted revenues. Details on each revenue source can be found in the Forecast.

The City's recent revenue history, unaudited revenues for Fiscal Year 2015-16 and projected revenues for Fiscal Year 2016-17 are as follows (dollars in thousands):



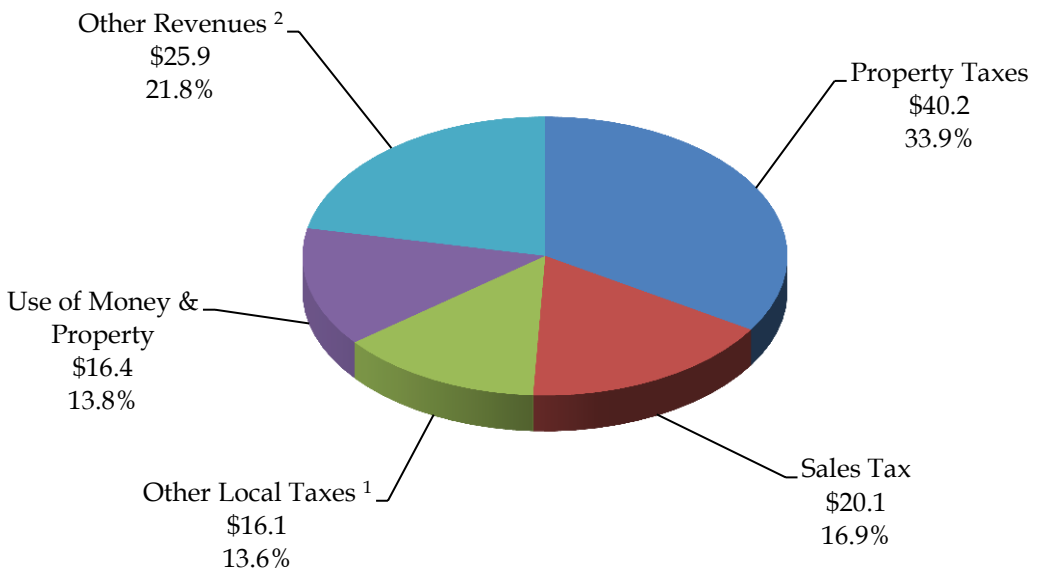
[1] Other Local Taxes is comprised of Transient Occupancy Tax (TOT), Utility Users Tax (UUT), and Business Licenses.
[2] Other Revenues is comprised of Licenses, Permits and Fees, Fines and Forfeitures, Intergovernmental, Charges for Services, Miscellaneous, and Interfund Revenues/Transfers.

Return to Previous

This chart demonstrates the cyclical nature of the City's balance between revenues and expenditures. In recessionary years, small margins exist between GOF revenues and expenditures, while the gap widens during higher-revenue-growth years as we are currently experiencing. The adopted expenditures in the chart are net of the budget savings adopted; however, for Fiscal Years 2009-10 through 2010-11, the actual budget saving results were greater than adopted and were necessary to maintain a positive operating balance due to revenue shortfalls compared to budget. In comparison, Fiscal Years 2011-12 through 2014-15 actual budget savings declined, but revenues have been greater than adopted.

A summary of the major categories of GOF Revenues for the Fiscal Year 2016-17 Adopted Budget is as follows:

Fiscal Year 2016-17 General Operating Fund Adopted Revenues
(dollars in millions)



Total General Operating Fund Revenues: $118.7M

[1] Other Local Taxes is comprised of Transient Occupancy Tax (TOT), Utility Users Tax (UUT), and Business Licenses.

[2] Other Revenues is comprised of Licenses, Permits and Fees, Fines and Forfeitures, Intergovernmental, Charges for Services, Miscellaneous, and Interfund Revenues/Transfers.

Return to Previous

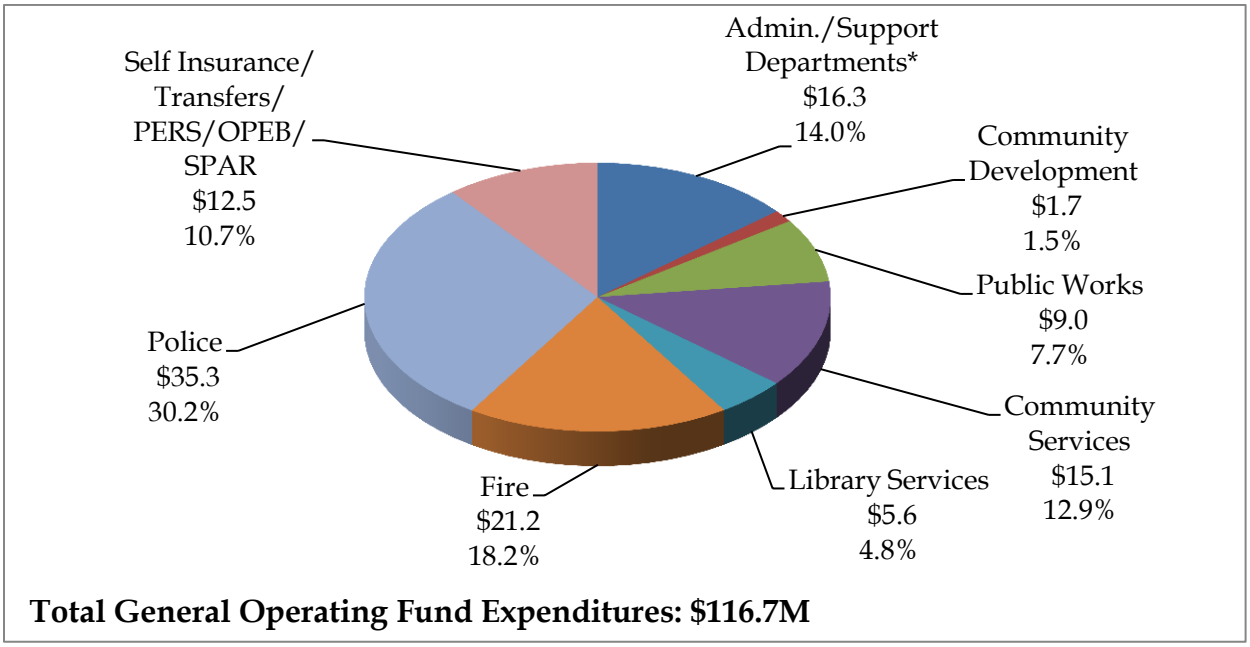
Expenditures

The adopted expenditures for Fiscal Year 2016-17 include the addition of $244,700 non-discretionary increases, which preserves current service levels, and $1.5 million discretionary additions for resources to meet demands and lessen some of the strain on the organization. In total, including increases for personnel costs, there is a 5.7 percent increase in expenditures from the Fiscal Year 2015-16 Adopted Budget.

Several new expenditure requests by departments are included to ease some of the stress on staff resources in the organization. However, as can be seen in the Forecast and summarized below, although more expenditures could be afforded in the budget for Fiscal Year 2016-17, it would be prudent to contain ongoing expenditure growth due to the anticipation of the next economic recession, when it is projected the GOF will be once again facing an operating deficit. In recognition of heavy workloads, many current demands for resources are being addressed through limited-period funding.

The major components of GOF adopted expenditures by department are as follows:

Fiscal Year 2016-17 General Operating Fund Adopted Expenditures (dollars in millions)



* Admin./Support Departments include: City Council, City Clerk, City Attorney, City Manager, Information Technology, and Finance and Administrative Services.

Note: Does not include the $1.8 million budget savings, but does include the $2.0 million toward the PERS Liability, $2.0 million toward the Retirees' Health Liability, $2.0 million to the SPAR, and $500,000 to the GNOF.

Return to Previous

Fiscal Year 2016-17 Adopted Budget Changes

The City Council reviewed and adopted the following non-discretionary and discretionary expenditure increases.

Non-Discretionary Increases

Non-discretionary increases include items that are unavoidable—for example, contractual obligations and utilities. For Fiscal Year 2016-17, a total of $244,700 is added to fund such increases in existing and new required operational costs. These new expenditures are offset by $25,000 in new revenue for a net impact of $219,700. A complete listing of non-discretionary items is included in the Miscellaneous Information section (see Page 7-6). Items $25,000 and over are as follows:

- PG&E Cost Increase: $119,500
  Provides increased funding for PG&E's annual rate increase. (The total PG&E cost increase for all funds Citywide is $152,500).

- Contract Services: $33,700
  Provides increased funding for professional contract services to assist the City with environmental issues, website programming and training for staff, and the renewal and disengagement of PEG (Public, Education, and Government) funding to pay for the KMVT Community Television agreement.

Discretionary Increases

New expenditures totaling $1.5 million are for high-priority ongoing programs. These new expenditures are offset by $174,500 in new revenue for a net impact of $1.4 million. A complete listing of discretionary items is included in the Miscellaneous Information Section (see Page 7-11). Items $25,000 and over are as follows:

- IT Analyst I/II—Applications Support Position: $169,600
  Provides funding for an IT Analyst I/II position. This position will support the increase in technology initiatives, including managing of some technology systems in the Police Department and other departments.

- Senior Management Analyst Position: $169,500
  Provides funding for a Senior Management Analyst position. This position will perform a variety of duties to support the increased demand for financial analysis of the Finance and Administrative Services Department and Citywide.

Return to Previous

- Senior Management Analyst Position: $169,500
  Converts a limited-term Senior Management Analyst position to ongoing to assist with the monitoring of prevailing wage compliance, implementation of purchasing process improvements, and other workload demands.

- Rental Housing Dispute Resolution Program: $110,000 (offset by $110,000 in fees)
  Provides funding for contracting services to administer the City's Rental Housing Dispute Resolution Program adopted on April 26, 2016.

- Referral Incentive and Signing Bonus Programs: $100,000
  Updates the City's recruitment strategies. This will provide funding to support successful recruitments for positions that are especially difficult to fill and includes enhancing the existing referral bonus offered to current employees who are instrumental in attracting candidates (to include a choice of either a cash bonus or vacation hours) and also the introduction of a signing bonus to be offered when necessary to successfully hire top talent in difficult-to-fill positions.

- Online Payment Processing: $99,000
  Provides funding for payment processing costs to implement accepting payments online for business licenses, multi-family housing, and miscellaneous accounts receivable.

- Communications Coordinator Position (0.50): $92,700
  Converts a limited-term 0.50 FTE Communications Coordinator position to ongoing to support the current and projected workload for the City's Community Information Program.

- Wireless Data/South Bay Information Sharing System/CopLink: $71,800
  Provides increased funding for services related to the regional crime information system and wireless data services for Police and Fire Department users. The Santa Clara County Office of the Sheriff is passing the cost of supporting the regional "CopLink" information sharing system to the constituent agencies that use the system.

- Office Assistant III Position (0.50): $58,600
  Provides funding for a 0.50 FTE Office Assistant III Position in the Police Department. The position will provide needed support that is currently being performed by the Senior Management Analyst.

Return to Previous

- Housing Trust Boomerang Funds: $51,000
  Provides funding for the 20.0 percent of the net ongoing Boomerang Funds (former Revitalization Authority funds). These funds are appropriated for low- and moderate-income housing but are not designated for a specific project or program. Funds will be transferred to the Housing Fund annually.

- Geographic Information System (GIS) Data Conversion Services: $50,000 (offset by $50,000 in fees)
  Provides funding for contracting services to convert developer's plans to GIS data to maintain the City's GIS up-to-date.

- Generator Maintenance: $45,000
  Provides increased funding for generator maintenance at multiple locations throughout the City. Generator maintenance requires a specialized skill and, due to personnel changes and an increased number of generators, the department is unable to adequately perform this crucial function with existing resources. The total cost of $91,000 is allocated between GOF, Water ($25,000), and Wastewater ($21,000) Funds.

- Librarian I/II Position (0.25): $40,400
  Provides increased funding for 0.25 FTE of a Librarian I/II position, adding to an existing 0.75 FTE position. The increase in additional staff will support the increased demand for children's programs.

- Library Materials: $40,000
  Provides increased funding for books and Library materials loaned to the public. The preliminary data indicated that Mountain View's material budget is approximately 15.0 percent below certain benchmark libraries.

- Parks Maintenance Worker I/II Position—Roadway Crew (0.25): $29,200
  Provides funding for a 0.25 FTE Park Maintenance Worker I/II position, adding to an existing 0.75 FTE position. The additional resources will help to maintain the 121 acres of median landscaping and irrigation throughout the City. The Roadway Crew also assists with the Permanente and Steven Creek Trails, and special City events (e.g., concerts and Thursday Night Live).

- Parks Maintenance Worker I/II Position—South Parks (0.25): $29,200
  Provides funding for a 0.25 FTE Park Maintenance Worker I/II position, adding to an existing 0.75 FTE position. The additional resource will help to address the increased workload from the addition of several City parks in recent years.

Return to Previous

Limited-Period Expenditures

Funding of $2.5 million (excluding rebudgeted items), for limited-period items is included in the Adopted Budget. These are for important, short-term needs. All items are detailed in the Miscellaneous Information Section (see Page 7-21) and the items $25,000 and over are as follows:

- One-Time Employee Bonus: $261,300
  Provides funding for a one-time flat dollar cash payment for all regular employees.

- Communications Training Supervisor Position: $188,700
  Provides funding for a Communications Training Supervisor position in the Police Department. The position will work in conjunction with the Communications Operations Supervisor to plan, coordinate, implement, and direct all training programs for Emergency Communications staff.

- Public Safety Dispatch Overhire Position: $169,300
  Provides funding for a Public Safety Dispatch Overhire position. The position is requested due to anticipated vacancies and the lengthy selection and training process.

- Two Police Officer Trainee Positions: $155,700
  Provides funding for two Police Officer Trainee positions at 50 percent funding. Police Officer Trainees provide flexibility for current and anticipated vacancies. There are currently two vacant Police Officer positions and four to seven additional vacancies anticipated in the next 12 months. Includes $10,000 for hiring background, training, and uniform costs.

- Human Resources Analyst I/II Position: $147,000
  Provides funding to continue a Human Resources Analyst I/II position. This position will assist with the high volume of recruitments, provide support in administering the benefits program, and special event planning.

- ICMA Fellow: $135,700
  Provides funding for a Management Fellow position in the City Manager's Office. The objective of this position is to provide an increased level of analytical rigor and effectiveness for important City issues. The position will develop tools and training that promote high-quality analysis and will provide direct analytical support in the development of critical department and Citywide projects.

Return to Previous

- November 2016 Election: $110,000
  Provides funding for the November 8, 2016 General Municipal Election, including four Council seats, the nomination process, candidate statements, and ballot title reviews. This does not include the cost of a possible Charter amendment initiative.

- Fire Department Overtime Training: $100,000
  Provides increased funding for overtime related to attending training or completing required certified courses.

- Employee Transportation Program: $80,000
  Provides funding for a pilot program to provide incentives to reduce drive-alone rates to aid congestion management and reduce employee commute costs and stress.

- Associate Civil Engineer—Traffic Position (0.45): $78,300
  Provides funding for an Associate Civil Engineer position (the other 0.55 FTE is funded from the Development Services and the Shoreline Community Funds). The position will support the increased workload in the Traffic Engineering Section due to high levels of development activity, inquiries from the *Ask Mountain View* system, and an increased emphasis on improving the pedestrian and bicycle environment in the City.

- Legal Services: $75,000
  Provides funding for additional legal services. This funding will provide additional legal resources to address fluctuations in workload by assisting with pending high-priority projects (e.g., litigation support, public records requests, research projects, drafting of ordinances and specialized agreements) requiring legal review and subject matter expertise.

- Performing Arts Supervisor Position (0.5): $71,000
  Provides increased funding for 0.50 FTE of a Performing Arts Supervisor position to add to an existing half-time positon. The additional resources will help to maximize ticket sales and revenue at the Center for the Performing Arts.

- Secretary Position (0.50): $66,800
  Provides funding for a half-time Secretary position to provide administrative support to the IT Department. Currently, IT and the Purchasing Division in the Finance and Administrative Services Department share a Secretary position. This position will assume administrative functions from other IT Analyst staff that currently is not accommodated by the shared Secretary position.

Return to Previous

- Labor Negotiations: $60,000
  Provides funding for a Labor Negotiations Attorney and other costs to assist with contract negotiations and strategies. All four represented employee groups' current agreements will expire June 30, 2017 and, therefore, will be bargaining in Fiscal Year 2016-17.

- Public Safety Network Design: $60,000
  Provides funding for third-party consulting and technical services related to public safety computer network design, implementation of all-IP 9-1-1 and radio networks, and industry expertise with respect to Federal information security policies and standards compliance.

- Employee Engagement Initiatives: $50,000
  Provides funding for employee engagement initiatives. The City has undertaken an initiative to identify improvements to our workplace that will maximize employee engagement, retention, and effectiveness. Based on employee input from a survey and series of focus groups, staff is developing a variety of programs to foster greater connections and communication between all levels and departments of the organization, offer more ways for employees to provide input and feedback, and enhance opportunities for learning and development.

- Pilot Program for Sidewalk Ramping and Grinding: $46,000
  Provides funding for a pilot program to hire two hourly seasonal workers to perform sidewalk ramping and grinding operations. These additional resources will allow the Streets Division to complete an additional 1,000 locations and dedicate more resources to maintain the City's Pavement Condition Index.

- Safety Training Study: $40,000
  Provides funding to perform a Citywide Safety Training Study. The study would provide for information on Best Practices, review resources available, and recommend a safety program appropriate for the City.

- Environmental Sustainability Analyst (Hourly): $40,000
  Provides funding for assistance with the implementation of the City's Climate Protection Roadmap (CPR), the Municipal Operations Climate Action Plan (MOCAP), Environmental Sustainability Action Plan, as well as assistance with ongoing projects and grant opportunities.

Return to Previous

- El Camino Real Light Pole Banners: $40,000
  Provides funding to create and install new City banners on El Camino Real. The banners will create a consistent look that will identify the City's boundaries and promote the City.

- 2015 Greenhouse Gas (GHG) Inventory: $35,000
  Provides funding of $20,000 for consultant services to conduct the 2015 municipal operations and $15,000 for communitywide GHG inventory in order to report on the GHG reduction targets.

- Transient Occupancy Tax Compliance Audit: $35,000
  Provides funding for an audit of the City's hotels and motels to ensure compliance with the City's Transient Occupancy Tax Ordinance.

- Program Assistant—Engineering Position (0.25): $30,500
  Provides funding for a 0.50 FTE Program Assistant position (the other 0.25 FTE is funded from the Development Services Fund). The position will support the Engineering Division with organization of paper and electronic files, plans and specifications, AutoCAD files, reports, and other work products from capital improvement projects and land development projects, and report on various program activities.

- Customer Service Representative (Hourly): $30,000
  Provides funding for an hourly position to assist with the coverage at the front counter in the Finance and Administrative Services Department. The hourly help will provide coverage for the regular Customer Service Representative position during the morning break and lunch hour in order to minimize disruption to other staff and the public.

- Hourly Staff to Support the Capital Projects Section: $30,000
  Provides funding for hourly staff to support the Capital Projects Section of the Public Works Department. The increase in workload is mainly attributable to the high level of development activity and the existing approved Capital Improvement Program.

- Hourly Staff to Support the Traffic Section: $30,000
  Provides funding for hourly staff to support the Traffic Section. The increase in workload is mainly attributable to the high level of development activity.

Return to Previous

- Fire Department Training and Education: $30,000
  Provides increased funding for Training and Education. Additional funds are needed to meet the changes in State and national training standards. There are also a significant number of expected retirements and promotions over the next couple of years that will increase the demand for education and other specialized training.

General Fund Carryover Available for Allocation

The Fiscal Year 2015-16 unaudited GOF operating balance of $7.0 million (net of changes in assets and liabilities, encumbrances, etc.) is primarily related to revenues higher than adopted for most revenue categories. The $7.0 million is net of the $2.2 million transferred to the General Fund Reserve to bring it to policy level, the $2.0 million contribution to PERS, and $1.0 million to the Retirees' Health OPEB Trust. In addition, there are one-time revenues and expenditure savings. Together, these provide for a total of $11.0 million unaudited carryover available that will fund items included in the Adopted Budget as follows:

- $2.7 million for limited-period expenditures (excluding rebudgeted items);
- $1.5 million Compensated Absences Reserve;
- $1.0 million each to PERS, OPEB, and the SPAR; and
- $3.8 million to the Capital Improvement Reserve (authority for up to $4.0 million).

Staff will return to Council after the conclusion of the fiscal year-end audit with any modifications and final balances allocated.

OTHER MAJOR FUNDS

Other General Funds

Development Services Fund

Development Services is a General Fund program, separated from the GOF in order to facilitate better tracking and accounting. This separation was established to allow for an effective way to match revenues and expenditures of the development process.

Development activity is anticipated to continue to remain strong into Fiscal Year 2016-17. Fiscal Year 2016-17 adopted total revenues are at $12.6 million and total

Return to Previous

expenditures are at $15.0 million. This includes new limited-period items of $1.4 million primarily targeted to address workload during this period of unusually high development activity, capital projects of $552,000, contribution to PERS of $239,000, proportionate to the General Fund contributions, and funding for the Retirees' Health unfunded liability of $1.8 million resulting from the updated actuarial valuation. The Development Services Fund is in good financial condition and is able to meet its financial obligations.

Shoreline Golf Links Fund

Course conditions continue to improve. For Fiscal Year 2016-17, revenues are adopted at $2.7 million and expenditures are adopted at $2.5 million. The revenue over expenditure balance is expected to provide a balance sufficient to transfer $150,000 to the City's GOF.

Special Funds

Shoreline Regional Park Community Fund (Shoreline Community)

The Shoreline Community is a separate legal entity but is a component unit of the City for accounting purposes and is, therefore, included within the City's budget. A separate budget for the Shoreline Community is adopted by the Board of the Shoreline Community and is included in a separate section of this Adopted Budget document.

Operating revenues for the 2016-17 fiscal year are adopted at $38.0 million, $4.0 million higher than the 2015-16 fiscal year adopted. This is primarily resulting from the projected growth in secured assessed value. Operating expenditures are adopted at $27.9 million, lower than Fiscal Year 2015-16 Adopted, as the General Fund loan has been completely repaid. In addition, there are capital projects of $2.8 million, contribution to PERS of $112,000, proportionate to the General Fund contributions, funding for the Compensated Absences Fund of $52,000, and funding for the Retirees' Health unfunded liability of $924,000 resulting from the updated actuarial valuation. The General Reserve, based on 25.0 percent of expenditures (similar to other reserves), is decreasing to $4.9 million and the Landfill Reserve is increasing from $4.0 million to $5.0 million (as part of the plan to increase to $6.0 million over several years in order to have funding for a catastrophic event). Future major capital projects related to transportation are proposed to be funded through the new development impact fee recently approved by Council and the future issuance of debt. The remaining balance available is projected to be $41.5 million.

Return to Previous

Utility Funds

The City's enterprise utility funds are fully funded by the rates charged to customers; there is no General Fund support to the utility funds. Utility rates charged by governmental entities for water, sewer, and trash and recycling services are considered property-related fees and are subject to the procedural requirements of Proposition 218, Article XIII, of the California Constitution. Proposition 218 requires governmental agencies to conduct a majority protest hearing prior to adopting any changes in utility rates. A notification of the proposed rate changes was mailed to all ratepayers on or before May 6, 2016. These rates were subsequently adopted at the June 21, 2016 public rate hearing.

Water Fund

For Fiscal Year 2016-17, the San Francisco Public Utilities Commission (SFPUC) adopted a wholesale water rate increase of 9.3 percent, and the Santa Clara Valley Water District (SCVWD) adopted rate increases of 17.9 percent and 19.9 percent for treated water and well water, respectively. A 10.0 percent rate increase for the average cost of water and meter rates is adopted to pay for the increased cost of water and operating expenditures. A 3.0 percent increase is adopted for the recycled water rate.

Fiscal Year 2016-17 adopted operating revenues, with the adopted rate adjustments, are $28.1 million and adopted operating expenditures are $29.4 million (after eliminating the budget effect of depreciation expense). Included in expenditures are the rate adjustments to wholesale water costs. There is a negative operating balance of $1.3 million due to the current lower level of water sales due to conservation efforts. If water sales continue at this current reduced level, an additional significant rate increase will be required for Fiscal Year 2017-18 to realign the operating revenues and expenditures. In addition, there are capital projects of $2.1 million, contribution to PERS of $217,000, proportionate to the General Fund contributions, and funding for the Retirees' Health unfunded liability of $635,000 resulting from the updated actuarial valuation. Capacity fees are projected at $2.4 million, sufficient to fund additional capital projects of $1.1 million. This results in projected reserve balances of $11.3 million and the Fiscal Year 2016-17 ending balance is projected to be $2.7 million, significantly less than Fiscal Year 2015-16.

Wastewater Fund

For Fiscal Year 2016-17, the Palo Alto Regional Water Quality Control Plant (Treatment Plant) adopted a 25.9 percent increase in treatment costs. A 17.0 percent rate increase is adopted to pay for the increased cost of treatment and operating expenditures. An

Return to Previous

additional 2.0 percent rate increase (the third year of 10 years) is adopted as a strategy to gradually increase rates to pay for major capital improvements at the Treatment Plant; therefore, the total rate increase adopted for Fiscal Year 2016-17 is 19.0 percent.

With an overall 19.0 percent rate increase, operating revenues for Fiscal Year 2016-17 are adopted at $19.8 million and operating expenditures at $17.8 million (after eliminating the budget effect of depreciation expense). The operating balance of $2.0 million will partially fund capital projects of $1.8 million, the contribution to PERS of $128,000, proportionate with the General Fund contributions, and funding for the Retirees' Health unfunded liability of $387,000 resulting from the updated actuarial valuation. Capacity fees are projected at $2.1 million, sufficient to fund additional capital projects of $1.5 million. This results in reserve balances of $5.6 million, lower than policy, due to the utilization of half of the rate stabilization reserve to minimize the rate impact to customers, and a projected ending balance for Fiscal Year 2016-17 of $2.2 million.

Solid Waste Management Fund

For Fiscal Year 2016-17, a 2.43 percent increase for Recology, a 0.69 percent increase for the SMaRT® Station, as well as City operating cost increases and annual maintenance projects result in no adopted increase to rates. However, the Cost of Service Study was completed during Fiscal Year 2014-15 and resulted in an increase in rates for carts of over 27.0 percent. Council approved spreading this increase over three years. Therefore, cart rates are adopted to increase 10.0 percent for the second year as part of a three-year phase-in of the cart rate.

Operating revenues for Fiscal Year 2016-17 are adopted at $13.0 million ($27.7 million, including Recology) and operating expenditures are adopted at $12.7 million ($27.4 million, including Recology, and after eliminating the budget effect of depreciation expense). There is also funding of $279,000 for capital projects and the contribution to PERS of $91,000, proportionate with the General Fund contributions. The fund is projected to end the 2016-17 fiscal year with a reserve at the policy level of $3.2 million and a $4.0 million ending balance.

Reserves

Most reserves are established pursuant to Council Policy A-11, Financial and Budgetary Policy, and others have been approved as needed by Council (see summary in Miscellaneous Section, Page 7-87). Reserves can be classified as those designated for a specific purpose, and others are to fund liabilities. Most reserves are at their target or policy balance. The Fiscal Year 2015-16 General Operating Fund balance is providing a

Return to Previous

supplement to the General Fund Reserve of $2.2 million and to the Compensated Absences Reserve of $1.5 million to bring these reserves to their policy balances. In addition, the GOF carryover balance is providing $1.0 million each to the PERS unfunded liability, the Retirees' Health unfunded liability, and the SPAR, and the balance of $3.8 million (authorized up to $4.0 million) is being transferred to the CIP Reserve.

CITY COUNCIL MAJOR GOALS

In February 2015, the City Council undertook a comprehensive goal-setting process to establish its major goals for a two-year cycle, Fiscal Years 2015-16 and 2016-17. The reaffirmation of the City Council Major Goals and Projects, the addition of new projects, and the elimination of some projects to add to/delete from the Fiscal Year 2016-17 Council Major Goals Work Plan was discussed at the Narrative Budget Study Session and the Proposed Budget public hearing.

The City Council's three overarching major goals are as follows:

- Improve the quantity, diversity, and affordability of housing.
- Enhance environmental sustainability efforts.
- Improve transportation by enhancing mobility and connectivity.

For additional information, see Attachment 1. City Council goals and department goals can also be found in the Department Budget Section.

SUMMARY AND CONCLUSION

Strong revenue growth has continued and the GOF is in a good financial position. Due to the fiscally responsible actions taken in prior fiscal years, the City has the ability to invest funds in needed areas such as capital projects, PERS, and OPEB liabilities, as well as setting aside funds for strategic property acquisition which has proven to benefit the City financially. The growing economy has resulted in overall revenues projected to increase by $11.6 million, or 10.8 percent, over the Fiscal Year 2015-16 Adopted Budget. This results in the ability to include ongoing non-discretionary expenditure increases of $244,700 and discretionary increases of $1.5 million in the highest-priority areas (offset by $199,500 in new revenues).

Return to Previous

There are other needs in a variety of areas, but the most critical are being addressed with limited-period expenditures. The net result is a projected GOF surplus for Fiscal Year 2016-17 of $3.8 million.

We would like to express our appreciation to all staff for their cooperation and assistance in the development of this budget. In particular, we want to thank the Department Heads and Budget Team, with special thanks to Assistant Finance and Administrative Services Director Suzy Niederhofer, Principal Financial Analyst Helen Ansted, Senior Financial Analyst Rafaela Duran, and Financial Analyst Ann Trinh for their assistance with the Operating Budget; Purchasing and Support Services Manager Tina Yoke and Assistant to the City Manager Kimberly Thomas for their assistance with the capital outlay process; and the Document Processing Center and Copy Center staff for their constant support in the preparation of this document.

Respectfully submitted,

Patty J. Kong
Finance and Administrative
Services Director

Daniel H. Rich

Attachment: 1. City Council Major Goals, Fiscal Years 2015-16 and 2016-17

Return to Previous

CITY COUNCIL MAJOR GOALS
Fiscal Years 2015-16 and 2016-17

The City of Mountain View provides critical ongoing services, programs, and projects to fulfill its mission to make Mountain View a great community in which to live, work, visit, and play. These essential efforts will continue. In addition, through a deliberate goal-setting process, the City Council has identified the following three major goals, and specific projects to fulfill them, over the next two years.

GOAL I: IMPROVE THE QUANTITY, DIVERSITY, AND AFFORDABILITY OF HOUSING

A critical component of a diverse and vibrant City is having an array of housing options. City resources are dedicated to the zoning, planning, inspection, and development of housing in Mountain View. The City is committed to administering housing programs for extremely low- to moderate-income renters and homebuyers, and providing funding to subsidize affordable housing. In addition to the current efforts under way, it is a priority of the City Council over the next two years to:

- Update the Accessory Dwelling (Companion) Unit Ordinance.*
- Explore opportunities for microunit housing.*
- Consider a no net loss/minimum density policy.*
- Complete the work of amending the North Bayshore Precise Plan to include residential uses.
- Continue to prepare the East Whisman Precise Plan, including consideration of residential uses.
- ~~Hold outreach meetings and workshops with affordable housing developers to identify barriers to affordable housing and innovative solutions to those obstacles.~~**
- ~~Identify new funding sources and initiate partnerships with affordable housing developers to apply for limited-term State and Federal affordable housing funding.~~**
- Partner with outside groups like Project Sentinel to offer biannual educational programs at the Library, with a housing theme.

Return to Previous

- *Explore a variety of efforts designed to help homeless vehicle dwellers.*

- *Develop and implement rent relief programs, as directed by Council.*

- *Continue to provide staff support for the three Notice of Funding Availability (NOFA) affordable housing projects during the funding reservation, design, and entitlement process.*

GOAL II: ENHANCE ENVIRONMENTAL SUSTAINABILITY EFFORTS

The City is committed to promoting environmental sustainability projects and systems to protect the natural environment, reduce greenhouse gas emissions, meet water-conservation goals, and safeguard the health and well-being of all community members. Priority environmental sustainability efforts over the next two years include:

- ~~Investigate the feasibility of using treated contaminated groundwater for irrigation and nonpotable needs.~~**

- Continue to support the launch of a Community Choice Energy Program.

- Review the Climate Protection Roadmap, Municipal Operations Climate Action Plan, and Greenhouse Gas Reduction Program; conduct a cost-benefit analysis of the actions; solicit Council Environmental Sustainability Committee and public feedback; and propose and adopt Environmental Sustainability Action Plan-3.

- Develop an Environmental Sustainability Action Plan-3 implementation plan (including goals/milestones).

- Install solar photovoltaic systems on three City buildings.*

- Complete installation of energy-efficient streetlights on the City's residential streets.*

- Continue Sewage Pump Station and Landfill Flare Station microturbine maintenance and repairs.

- Continue the Shoreline at Mountain View Master Plan project.

- Implement the Urban Forestry Management Plan for tree preservation and planting, canopy, and habitat preservation.

- Complete construction of Heritage Park at 771 North Rengstorff Avenue.

Return to Previous

- Look for opportunities to add garden space to existing open space.*

- Include a theme of sustainability in the 2015 Call for Artists.*

- Explore possibility of offering e-mail receipts instead of paper receipts when checking out Library materials.*

- Hold biannual educational classes at the Library on topics such as recycling and sustainability.

- Ensure that all City computer monitors turn off after 30 minutes of inactivity.*

- Partner with Master Gardeners and the California Native Plant Society to offer quarterly educational classes at the Library on environmentally friendly gardening.

- *Continue to support Palo Alto's feasibility study of recycled water advanced treatment.*

- *Manage the recycled water program to improve water quality, maximize water use, expand the City's distribution system, and participate in efforts to develop a regional distribution system.*

- *Begin design and construction of new community gardens at Shoreline Boulevard/Latham Street.*

- *Establish the financing for the Silicon Valley Clean Energy JPA.*

- *Prepare code amendment to require installation of dual plumbing for new construction projects.*

GOAL III: IMPROVE TRANSPORTATION BY ENHANCING MOBILITY AND CONNECTIVITY

The City is faced with substantial traffic congestion and significant City resources are focused on transportation management, infrastructure maintenance projects, and bicycle and pedestrian mobility improvements. Extensive efforts are under way to mitigate vehicle impacts and expand the mobility and connectivity options of residents. The City Council is committed to the following efforts over the next two years to:

- Continue efforts to support the exploration and development of a potential automated guideway or other innovative transit system for the Downtown Transit Center to North Bayshore Area corridor.

- Design and Construct East Whisman area transportation-oriented development improvements.

Return to Previous

- Conduct Latham Street/Church Street Bike Boulevard study.
- Install Calderon Avenue bike lane—Phase I (Villa Street to Mercy Street).
- Continue to prepare a Multimodal Improvement Plan as required by the Congestion Management Agency.
- Design, permit, and construct Castro/Moffett/Central intersection near-term improvements.
- Complete the Transit Center Master Plan.
- Conduct Permanente Creek Trail Extension—West Middlefield Road to McKelvey Park Feasibility Study.
- ~~Analyze Shoreline Boulevard right-of-way and tree impact.~~**
- Design and construct Shoreline Boulevard interim bus lane and utility improvements.
- Conduct feasibility study of Charleston Road improvements.
- Conduct preliminary design of Shoreline Boulevard bicycle/pedestrian bridge over Highway 101 (dependent on development of Gateway site).
- Continue with monthly bike workshops.
- Conduct North Bayshore semiannual traffic counts.*
- *Work with Safe Moves to offer programs during Summer Reading.*
- *Pilot remote services like Lawyers in the Library and Social Security appointments to eliminate car trips.*
- *Consider other bicycle and pedestrian mobility improvements that are low cost and easily implementable.*
- *Continue planning and design of utility and transportation infrastructure improvements to support North Bayshore Development.*

Return to Previous

- *Develop Castro Street bike lane study.*

- *Explore bike share program options and solutions.*

Projects listed in italics represent new projects proposed to be added in Fiscal Year 2016-17.

*** Project completed in Fiscal Year 2015-16.**

**** Project delayed due to workload or timing constraints.**

SIGNIFICANT ACCOMPLISHMENTS – FISCAL YEAR 2015-16

The following is a list of notable accomplishments in City programs, plans, and services over the most recent fiscal year. These items go beyond "normal" day-to-day services. A number are related to the City Council's current major goals and priorities, which include increasing affordable housing options, enhancing environmental sustainability efforts, and improving transportation and mobility.

- Explored creation of a Safe Parking Program and made considerable progress in an ongoing effort to engage stakeholders, build regional partnerships, and develop a work plan of possible solutions for homeless residents living in their vehicles.

- Implemented the newly adopted Right to Lease and Rental Housing Dispute Resolution Programs, including public outreach (four workshops), development and distribution of program materials in English and Spanish, and launch of the programs.

- Completed and implemented $15.00 by 2018 local Minimum Wage Ordinance and lead regional policy effort.

- Completed Veterans Memorial redesign and dedication at Eagle Park.

- Adopted a Community Climate Protection Roadmap.

- Appropriated $8 million in funding and received planning entitlements for a 67-unit affordable housing project at 1701 West El Camino Real serving extremely low-income and very low-income veterans and one- to two-person households.

- Appropriated $21.5 million and received planning entitlements for ROEM Corporation's 116-unit affordable housing project at 779 East Evelyn Avenue.

- Held two Civility Roundtables for the Human Relations Commission (HRC) to promote dialog on housing and inclusivity.

- Adopted and implemented a Community Tree Master Plan.

- Completed the Bicycle Transportation Plan Update.

- Launched an interactive bike map on the City's website.

Return to Previous

- Updated the City's companion unit (accessory dwelling unit) regulations to increase the number of eligible properties.

- Led regional effort to secure transportation funding for North County/West Valley in the proposed sales tax measure.

- Completed the selection of a developer for the development of a hotel on Downtown Parking Lots 4 and 8; completed key business terms, Economic Development Subsidy Report, and negotiated/drafted a Disposition and Development Agreement and Ground Leases.

- Created partnership with the Social Security Administration to offer limited services at the Library.

- Replaced 2,000 high-pressure sodium streetlights with LED lights, reducing annual energy use by approximately 50 percent (savings of approximately 500,000 kilowatt hours) and greenhouse gas emissions by 146 metric tons.

- Hosted the first annual Technology Showcase event highlighting innovative and creative technology solutions from local businesses and organizations.

- Approved the first North Bayshore Precise Plan Bonus FAR project, the El Camino Hospital Campus project, and two new downtown mixed-use projects.

- Adopted and implemented the Off-Leash Dog Area Ordinance.

- Launched the process to create a new Precise Plan for the East Whisman area.

- Continued implementation of the downtown parking work plan, including hiring a parking consultant to focus on parking options outside the Parking District, shared parking agreements, and programs to increase the efficiencies of the existing public parking system.

- Created a modified stadium event day program for the third year of the stadium's operations.

- Held first annual Community Resource Fair at the Library, bringing together 23 community organizations and City departments.

- Managed local Super Bowl 50 efforts, including security, transportation, and joint marketing with the Chamber of Commerce and Central Business Association.

Return to Previous

- Completed the Request for Proposal (RFP) process and issued a contract with a parking technology company for real-time wayfinding signs at the two downtown public parking structures.

- Drafted Amendment to Campaign Finance Ordinance to include Disclosure Requirements.

- Processed the Community Stabilization and Fair Rent Charter Amendment initiative petition.

- Established "Community Fire Risk Reduction Plan" for schools as part of Public Education and Outreach Programs.

- Implemented the Electronic Campaign Filing System.

- Redesigned *The View* print newsletter and launched a new e-newsletter, *the eView*.

- Facilitated and provided Spanish translation to promote understanding and participation regarding Rental Housing Dispute Resolution Program.

- Offered Personal Emergency Preparedness (PEP) training for the first time in Spanish and Mandarin.

- Launched a Citywide Employee Engagement Program, gathering employee feedback through a survey and focus groups and developing a comprehensive work plan of initiatives.

- FEPD staff worked cooperatively with our Police Department to procure a Medication Disposal Bin from the California Product Stewardship Council for the Police/Fire Administration lobby.

- Created a pilot program for exempt employees to participate in flexible schedules.

- Completed the Four Cities Coordinated Stevens Creek Trail Feasibility Study.

- Worked with the Recruitment Innovation Team to revitalize job announcements, develop a recruitment branding statement, and cultural ideals to be used for various outreach efforts.

- Worked with the Wellness Committee to launch the CAUGHT! Campaign to promote healthy habits; and a Sleep Well campaign.

Return to Previous

- Developed and modified several policies in conjunction with interdepartmental teams, including Teleworking, Fleet, Facility Dedication Plaque, Tuition Reimbursement, Gifts and Gratuities, Council Expenses, Professional/ Management Development and Technology Reimbursement, and Employee Participation in Leadership Mountain View Program.

- Installed new low-water-use landscaping to replace turf on Library grounds at the corner of Mercy and Franklin Streets.

- Implemented systemwide water conservation measures to deal with ongoing drought, reducing water usage Citywide by 20 percent, with a 62 percent reduction of potable water use at Shoreline Golf Links compared to Fiscal Year 2013-14.

- Implemented ShoWare system for ticket sales at the Center for the Performing Arts, resulting in improved patron and client service and increase in versatility and operating efficiency for staff.

- Completed implementation of an online time reporting and scheduling system.

- Implemented new ActiveNet registration software, resulting in increased capabilities for customers and staff.

- Completed Tee Leveling project, which provided a better playing surface for golfers on eight holes, and replaced driving range fencing.

- Implemented new Financial Assistance Program (FAP).

- Completed construction of the Landfill Gas Flare Station replacement.

- Helped establish the Silicon Valley Clean Energy Authority, led financing tasks, and issued a Request for Proposals for credit and banking services.

- Adopted a preferred grade-separation alternative (rerouting of Castro Street at Evelyn Avenue) to eliminate the existing at-grade rail crossing as part of the Transit Center Master Plan process.

- Conducted a food waste collection pilot program.

- Developed and implemented a new real estate layer in the City's GIS.

- Replaced Library chiller unit and upgraded building control system.

Return to Previous

- Refurbished golf course restrooms.
- Completed implementation of an upgrade to the City's financial system, including a new Helpdesk service.
- Executed documents to participate in receipt of Utility Users Tax from prepaid phone cards.
- Implemented new financial reporting requirement related to pensions.
- Transitioned to new external auditors.
- Initiated tax opinions related to employee usage of City vehicles.
- Modified Purchasing Ordinance to comply with Federal Emergency Management Agency guidelines and increased the confirming limit.
- Implemented several Purchasing Committee study recommendations.
- Developed Injury Investigation and Transitional Work Plan Agreement as online forms for departments.
- Trained Emergency Response Teams on Basic First Aid, CPR, and AED.
- Supported adoption of developer impact fees for North Bayshore.
- Implemented the one-time conversion of certain employees from the Defined Benefit to Defined Contribution plans.
- Participated in the AMI feasibility study.
- Created several new youth programs at the Library, including a drop-in story time for 3- to 5-year-olds, and a brand-new series of programs for "Tweens."
- Introduced a new electronic magazine service called Flipster, which provides access to 38 popular titles that are available via computers or mobile devices.

CITY OF MOUNTAIN VIEW
RESOLUTION NO. 18080
SERIES 2016

A RESOLUTION ADOPTING THE FISCAL YEAR 2016-17 CITY BUDGET

WHEREAS, the City Council held duly noticed meetings or Study Sessions on February 9, April 19, and April 26, 2016; and held duly noticed public hearings on June 14 and June 21, 2016; and heard all persons wishing to be heard regarding said proposed budget. The City Council considered these comments and deliberated the City Manager's Fiscal Year 2016-17 Proposed Budget (Proposed Budget);

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Mountain View as follows:

1. The City of Mountain View Proposed Budget in the amount of $265,971,862 as proposed by the City Manager, plus any amendments approved by the City Council on June 21, 2016, on file in the City Clerk's Office, including the Fund Schedules Section of the Proposed Budget, is hereby adopted as the Fiscal Year 2016-17 budget of this agency.

2. The City Council has included appropriations sufficient to meet all its debt service obligations.

3. Except for continuing appropriations for capital improvement projects not yet completed, Community Development Block Grant (CDBG) programs, grant funding, legal cases, and other expenditures lawfully encumbered or accrued, all other unexpended appropriations shall lapse at the end of the fiscal year in accordance with City Charter Section 1105.

4. Appropriations as needed from investment earnings and other program income received on grant funds are hereby authorized.

5. Appropriations in the Compensated Absence Reserve are hereby authorized as needed for vacation, sick leave, and comp time payments to employees during Fiscal Year 2016-17.

6. Appropriations for expenditures in the Police Asset Forfeiture Fund are hereby authorized up to the uncommitted cash balance in the Police Asset Forfeiture Fund.

7. Appropriations in the Workers' Compensation, Unemployment Insurance, and Liability Funds for Workers' Compensation, unemployment, and liability claims payments are hereby authorized as needed. In addition, the balance of any ergonomics funding remaining in the Workers' Compensation Fund is authorized to be rebudgeted in the next fiscal year.

8. Appropriations in the Retirees' Health Insurance Fund and the Employee Benefits Fund are hereby authorized as necessary for the associated expenses of these programs.

9. The City Manager or designee is authorized to increase appropriations to maintain retail sales inventories (should retail sales exceed the amount budgeted) for the Shoreline Golf Links operations that are offset by retail sales.

Return to Previous

10. The Finance and Administrative Services Director is hereby authorized to increase appropriations and budgeted revenue in the Benefit Assessment District Fund for the actual Business Improvement District assessments received.

11. The Finance and Administrative Services Director is hereby authorized to adjust transfers up to $4,000,000 from the General Non-Operating Fund to the Capital Improvement Reserve based on the 2015-16 fiscal year-end balance available.

12. The Finance and Administrative Services Director is hereby authorized to adjust appropriations for CDBG funding received. If actual allocations, program income, and/or carryover are more or less than the amounts estimated, proportionately allocate the difference allowed to the capital project agencies based on their awarded funding levels up to the amounts requested; proportionately allocate the maximum increased or decreased CDBG allocation and program income to public service agencies up to the amount requested; proportionately allocate the maximum allowable increased or decreased CDBG and/or HOME allocation and program income to administration; and carry over the remaining funds to Fiscal Year 2017-18 capital projects.

13. The Finance and Administrative Services Director is hereby authorized to make adjustments and corrections to budgeted amounts for reasons such as: (a) amendments adopted by City Council; (b) final employee benefit costs; (c) final represented and unrepresented employee compensation costs; (d) adjustments between funds and departments for internal service charges, administrative overhead reimbursements, and retirees' health and PERS contributions; (e) modifications to revenue and expenditure appropriations for the actual Public Library Fund grant amount received; and (f) other corrections as necessary. The Finance and Administrative Services Director is hereby authorized to determine the budgeted amounts for implementation of the decisions made at the public hearings and will report the final adopted budget and any reconciling changes in the compilation of the budget to the City Council by an informational memorandum and will file said final adopted budget with the City Clerk's Office.

The foregoing Resolution was regularly introduced and adopted at a Special Meeting of the City Council of the City of Mountain View, duly held on the 21st day of June 2016, by the following vote:

AYES: Councilmembers Clark, Inks, Kasperzak, Siegel, Vice Mayor Rosenberg, and Mayor Showalter

NOES: Councilmember McAlister

ABSENT: None

ATTEST:

LORRIE BREWER, MMC
CITY CLERK

APPROVED:

PATRICIA SHOWALTER
MAYOR

I do hereby certify that the foregoing resolution was passed and adopted by the City Council of the City of Mountain View at a Special Meeting held on the 21st day of June 2016, by the foregoing vote.

CITY OF MOUNTAIN VIEW
RESOLUTION NO. 18081
SERIES 2016

A RESOLUTION ADOPTING THE FISCAL YEAR 2016-17 APPROPRIATIONS LIMIT

WHEREAS, Article XIII B of the Constitution of the State of California requires that total annual appropriations of the City of Mountain View (City) funded from the applicable proceeds of taxes shall not exceed the appropriations limit of the City for the prior fiscal year adjusted for specified changes; and

WHEREAS, Article XIII B requires the City to establish its appropriations limit by resolution each fiscal year at a regularly scheduled meeting or at a noticed Special Meeting, before the beginning of each fiscal year; and

WHEREAS, the Finance and Administrative Services Department has prepared the budget documentation as intended by Article XIII B and has made such documents available for public review; and

WHEREAS, Article XIII B allows the City to adjust the annual appropriations limit for the change in cost of living and the change in population factors as follows:

- The change in the cost of living is either the percent change in the California per-capita personal income or the percent change in the local assessment roll from the preceding year due to the addition of local nonresidential construction in the City; and

- The change in the population is either the percent change in population for the entire Santa Clara County (County) or the percent change in population for the City;

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Mountain View hereby adopts the appropriations limit for Fiscal Year 2016-17 of $242,260,201 for those funds subject to the appropriations limit utilizing the percent change in the California per-capita personal income and the percent change in population for the City. The California per-capita income factor has been provisionally selected until the County is able to provide the information for the percent change in the local assessment roll from the preceding year due to the addition of local nonresidential construction in the City.

CITY OF MOUNTAIN VIEW
RESOLUTION NO. 18082
SERIES 2016

A RESOLUTION AMENDING
THE CITY OF MOUNTAIN VIEW MASTER FEE SCHEDULE

WHEREAS, staff has reviewed and analyzed the cost of providing various City services and allocated overhead costs throughout City departments; and

WHEREAS, a Proposition 218 public hearing was held on June 21, 2016 in which there was no majority protest and fees subject to the Proposition 218 hearing are included in Exhibit H in bold; and

WHEREAS, the City seeks to achieve and maintain financial stability through reasonable cost recovery, where appropriate, to allow the City to continue to provide cost-effective services;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Mountain View that the following fees are hereby adopted as set forth in the schedules attached hereto and incorporated into the Master Fee Schedule as:

Exhibit A: Fee Schedule for City Attorney's Office as revised June 2016, to become effective on July 1, 2016, or such other date as detailed in the exhibit.

Exhibit B: Fee Schedule for Community Development Department as revised June 2016, to become effective on July 1, 2016, or such other date as detailed in the exhibit.

Exhibit C: Fee Schedule for Community Services Department as revised June 2016, to become effective on July 1, 2016, or such other date as detailed in the exhibit.

Exhibit D: Fee Schedule for Finance and Administrative Services as revised June 2016, to become effective on July 1, 2016, or such other date as detailed in the exhibit.

Exhibit E: Fee Schedule for Fire Department as revised June 2016, to become effective on July 1, 2016, or such other date as detailed in the exhibit.

Exhibit F: Fee Schedule for Library Services Department as revised June 2016, to become effective on July 1, 2016, or such other date as detailed in the exhibit.

Exhibit G: Fee Schedule for Public Works Department as revised June 2016, to become effective on July 1, 2016, or such other date as detailed in the exhibit.

Exhibit H: Fee Schedule for Utility Services as revised June 2016, to become effective on July 1, 2016, or such other date as detailed in the exhibit.

CITY OF MOUNTAIN VIEW
RESOLUTION NO. 18078
SERIES 2016

A RESOLUTION APPROVING PROPOSED CAPITAL IMPROVEMENT PROJECTS 17-42, 17-44, AND 17-46 IDENTIFIED IN THE FISCAL YEARS 2016-17 THROUGH 2020-21 CAPITAL IMPROVEMENT PROGRAM

WHEREAS, the City Council held a duly noticed Study Session on March 29, 2016 and held duly noticed public hearings on June 14 and June 21, 2016; and heard all persons wishing to be heard regarding said proposed Capital Improvement Program (CIP) budget. The City Council considered these comments and deliberated the City Manager's Proposed Fiscal Years 2016-17 through 2020-21 CIP;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Mountain View as follows:

1. The City Council approves the Fiscal Years 2016-17 proposed Projects 17-42—Stevens Creek Trail Bridge Improvement Feasibility Study, 17-44—Community Garden at Shoreline and Latham, and 17-46—Mora/Ortega Park, Design and Construction, as proposed by the City Manager, plus any amendments approved by the City Council on June 21, 2016, on file in the City Clerk's Office, and appropriate $2,193,000, all of which is City funding for the Fiscal Year 2016-17 projects, as identified in the Fiscal Year 2016-17 Proposed CIP.

2. The Finance and Administrative Services Director is hereby authorized to make adjustments and corrections to CIP amounts for reasons such as: (a) amendments adopted by City Council; (b) adjustments for administrative overhead reimbursements; and (c) other corrections as necessary. The Finance and Administrative Services Director is hereby authorized to determine the CIP amounts for implementation of the decisions made at the public hearings and will report the final adopted CIP and any reconciling changes in the compilation of the CIP to the City Council by an informational memorandum and will file said final adopted CIP with the City Clerk's Office.

MOUNTAIN VIEW SHORELINE REGIONAL PARK COMMUNITY
RESOLUTION NO. S-154
SERIES 2016

A RESOLUTION ADOPTING THE FISCAL YEAR 2016-17 SHORELINE REGIONAL PARK COMMUNITY BUDGET AND APPROVING THE FISCAL YEARS 2016-17 THROUGH 2020-21 CAPITAL IMPROVEMENT PROGRAM FOR THE SHORELINE REGIONAL PARK COMMUNITY, INCLUDING AMENDMENTS TO EXISTING PROJECTS

WHEREAS, the Shoreline Regional Park Community (Shoreline Community) Board of Directors (Board) held a duly noticed Study Session on March 29, 2016 and held duly noticed public hearings on June 14 and June 21, 2016, and heard all persons wishing to be heard regarding said Fiscal Year 2016-17 Proposed Budget and Capital Improvement Program (CIP) for Fiscal Years 2016-17 through 2020-21. The Board considered these comments and deliberated the Shoreline Community Manager's Proposed Budget and Proposed CIP;

NOW, THEREFORE, BE IT RESOLVED by the Board of the Mountain View Shoreline Community as follows:

1. The Shoreline Community proposed budget in the amount of $29,077,188 as proposed by the Shoreline Community Manager, plus any amendments approved by the Board on June 21, 2016, on file in the Secretary's Office, is hereby adopted as the Fiscal Year 2016-17 budget of this agency.

2. The Board separately approved the Fiscal Years 2016-17 proposed Projects 17-31 – Charleston Slough Improvement Feasibility Study, and 17-42 – Stevens Creek Trail Bridge Improvement Feasibility Study, and planned Project 18-42 – Charleston Road Improvements, Design, as proposed by the Shoreline Community Manager, plus any amendments approved by the Board on June 21, 2016, on file in the Secretary's Office, and appropriated $832,000, all of which is Shoreline Community funding for the Fiscal Year 2016-17 projects, as identified in the Fiscal Year 2016-17 Proposed CIP.

3. The Board approves the Fiscal Years 2016-17 through 2020-21 CIP as proposed by the Shoreline Community Manager, plus any amendments approved by the Board on June 21, on file in the Secretary's Office, and appropriate funding in the amount of $2,762,000 for the Fiscal Year 2016-17 Proposed CIP.

4. The Board has included appropriations sufficient to meet all its debt service obligations.

5. Except for continuing appropriations for capital improvement projects not yet completed, legal cases, and other expenditures lawfully encumbered or accrued, all other unexpended appropriations shall lapse at the end of the fiscal year in accordance with City Charter Section 1105.

6. The Treasurer is hereby authorized to adjust appropriations as necessary for payments to Santa Clara County (County) in accordance with the property tax sharing agreement between the Shoreline Community and the County.

7. The Treasurer is hereby authorized to adjust appropriations as necessary for payments to the Mountain View Whisman School District and the Mountain View Los

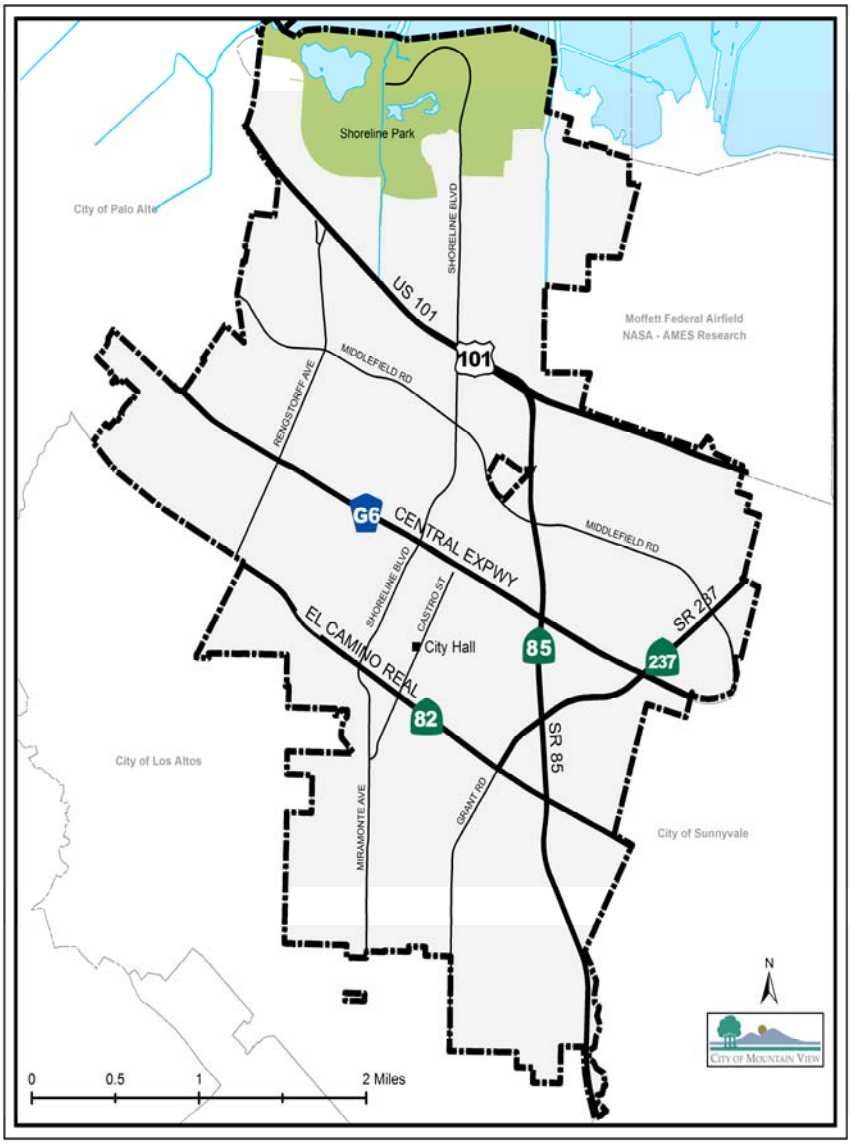
CITY OF MOUNTAIN VIEW, CALIFORNIA
COMMUNITY PROFILE

The City of the Mountain View's mission is to provide quality services and facilities that meet the needs of a caring and diverse community in a financially responsible manner.

State of California

City of Mountain View



Location

Located in the heart of Silicon Valley, the City occupies approximately 12.2 square miles in Santa Clara County and is approximately 36 miles southeast of the City of San Francisco and 15 miles northwest of the City of San Jose (the County seat).

Return to Previous

History

Mountain View began as a stagecoach stop and an agricultural center for the lush Santa Clara Valley. The town was incorporated in 1902 with a population of fewer than 1,000 people. Once covered in orchards and vineyards, by 1960 with the growth of the electronic and aerospace industries, the City of Mountain View's (City) population had exploded to over 30,000. In 2016, the population is 77,925.

Castro Street, 1904

Today

Mountain View is a modern, high-tech city that retains quiet neighborhoods and a historic downtown core. While Mountain View is keeping pace with new ideas and innovations, the City is also committed to the traditional values of strong neighborhoods and citizen involvement. Mountain View is comprised of a variety of distinct, locally organized neighborhood and homeowners associations which help identify the community's needs and shape the City's future. In 2014, USA TODAY reviewed 550 cities and ranked Mountain View third in "America's 50 Best Cities to Live". In 2015, Niche ranked Mountain View fourth in "Best Towns to Raise a Family in California". In 2016, Mountain View was honored as City of the Year by California veterans for its significant programs and activities in the City related to veterans.

Mountain View Veterans Memorial

In recent years, the City has developed some of the finest recreation and community facilities the San Francisco Bay Area has to offer. The City's extensive park system not only provides an outstanding array of neighborhood parks, but also includes an innovative regional park created from reclaimed landfill. Shoreline-at-Mountain View park, built along San Francisco Bay, features an 18-hole golf course, a sailing lake and a wild life interpretive trail. The Civic Center, built around downtown's Pioneer Park, has one of the finest theater facilities in Northern California as well as a 60,000 square foot state-of-the-art library. Stevens Creek Trail has been undergoing phases of extensions since 1991 and is currently a 5.14 mile section of paved all-weather pathway for pedestrians and cyclists.

Return to Previous

Downtown Mountain View is the "heartbeat" of the City. This vibrant and active center offers a tremendous array of restaurants, as well as shops, the Center for Performing Arts, sidewalk cafes, clubs, businesses and the civic center. Downtown Mountain View is known for its festivals, parades, cultural events, the weekly farmers' market, summer concerts and a variety of unique celebrations throughout the year. Thousands of people come to downtown Mountain View each year to enjoy the events, and the character of downtown keeps them coming back. In 2012, Business Insider included Mountain View on the "Top 10 Best Cities for the Young and Trendy".

City Government

The City of Mountain View, incorporated on November 7, 1902, became a charter city on January 15, 1952. The City operates under a council-manager form of government. The Council is the legislative body of the City, sets policy and directs the course for the City. The seven council members are elected at large for four-year terms that are staggered so three or four seats are filled at the general municipal election in November of every even-numbered year. Service on the Council is limited to two consecutive terms. Each year in January, the Council elects one of its members as Mayor and another as Vice-Mayor.

Income

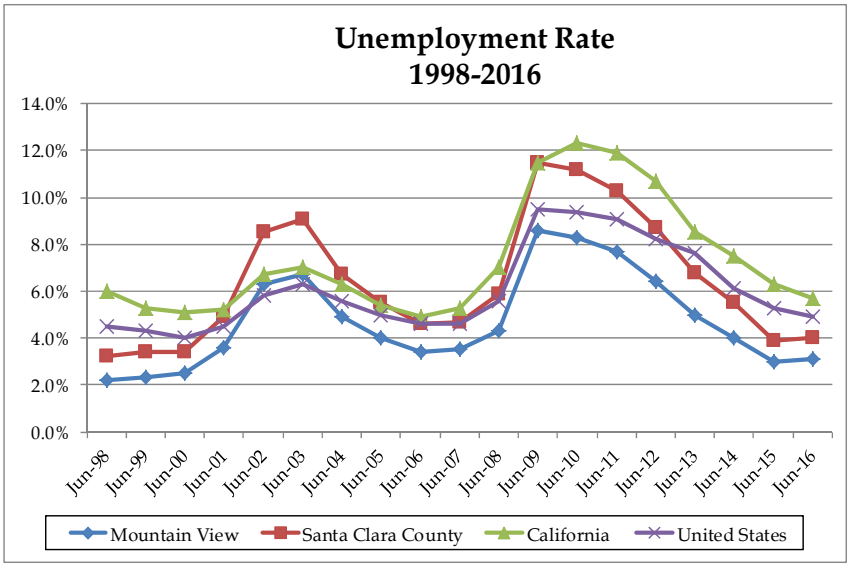
Based on a 5-year (2010-2014) estimate from the ACS, the median household income in Mountain View is $100,028 (in 2014 inflation-adjusted dollars). This is higher than the median household income of $93,854 in Santa Clara County and $53,482 in the United States.

The Census Bureau establishes an income threshold for poverty every year. According to a 5-year (2010-2014) estimate by the ACS, in the past 12 months, 8.3 percent of the population for whom poverty status is determined and 9.4 percent of children under the age of 18 live below the poverty level in Mountain View. In Santa Clara County, 9.9 percent of the population for whom poverty status is determined and 11.7 percent of children under the age of 18 live below the poverty level. Nationally, these numbers are higher with 15.6 percent of the population for whom poverty status is determined and 21.9 percent of children under the age of 18 years live below the poverty level.

Employment

Unemployment rates as of June 2016.

- 3.1% in Mountain View
- 4.0% in Santa Clara County
- 5.7% in California
- 4.9% in U.S.



Healthcare

Using a 5-year estimate from 2010 to 2014, the ACS estimates that 9.7 percent of Mountain View residents are uninsured. About one third of Mountain View residents can access a major medical facility within 30 minutes using public transit. El Camino Hospital is the primary hospital in Mountain View and one of the prominent hospitals in the Bay Area. Community health centers such as Kaiser Permanente, Palo Alto Medical Foundation, and MayView Community Health Center (which offer services to low-income families) are also available. Direct Urgent Care is a new urgent care clinic that opened January 2016 and is an alternative to long waits in the emergency room.

FIVE-YEAR FINANCIAL FORECAST

Return to Previous

GENERAL OPERATING FUND
5-YEAR FINANCIAL FORECAST

INTRODUCTION

Forecasting is an important part of a city's financial planning process. While it is challenging to accurately predict local government revenues due to the variable nature of the revenue sources and their connection to regional, State, national, and even international economic conditions, it is possible to identify reasonable financial trends and provide a conceptual financial picture for a multi-year period which is useful to policy makers' decision-making.

Annually, a forecast is prepared and presented to the City Council during the budget process. Beginning with the Fiscal Year 2008-09 budget process, the City Council set as a high-priority goal the development of a 10-year forecast. A 5-year Financial Forecast is prepared annually and a 10-year Long-Range Financial Forecast is prepared periodically (every three to four years) and initially discussed with the City Council during the Narrative Budget Study Session. This report is a 5-year Forecast (Forecast) for the time period of Fiscal Years 2016-17 through 2020-21. The most recent 10-year Long-Range Financial Forecast was completed for Fiscal Years 2015-2024.

A financial forecast, even with fluctuating economic variables, can assist with identification of long-term financial trends, causes of fiscal imbalances, future fiscal challenges, opportunities, and potential requirements, all of which may assist in keeping the City on a continuing path of fiscal sustainability. Growth and development will occur at a different pace than anticipated in this Forecast, and actual revenues and expenditures in future years will vary, but trend lines will be apparent. This Forecast provided a foundation for the City Council's decision making for Fiscal Year 2016-17 budget deliberations. The Forecast is focused on the General Operating Fund (GOF), which provides financing for the majority of City services, including Police, Fire, Parks, Recreation, Library, and administrative functions necessary for ongoing City operations. The GOF is also the fund that is most significantly influenced by economic conditions.

BACKGROUND AND ANALYSIS

The Forecast is based on reasonable assumptions utilizing available information from a wide variety of sources. These sources include reviewing the City's historical trends, gathering information from economists that specialize in the regional economics of Silicon Valley, reviewing various indicators (e.g., unemployment data, etc.), networking with staff of neighboring agencies, reviewing State of California (State) and national economic trends, and factoring in known Mountain View conditions, such as lease

Return to Previous

terms, and economic and property development. The level of City services, staffing, and cost of operations projected for Fiscal Year 2016-17 is the base year for subsequent fiscal years' expenditures in the Forecast. Confidence levels in the Forecast assumptions become less certain with each subsequent fiscal year, and actual future revenues and expenditures will vary from the Forecast.

Although it is uncertain as to when it will actually occur, it is prudent to include a downturn in the economy in the Forecast based on economic cycles. Historically, slowdowns in the economy have occurred approximately between 4 and 9 years in the past five decades, with the longest period of expansion lasting 11 years, from 1990 to 2001. It has been approximately 8.5 years since the beginning of the last recession and will be 11 years if the slowdown occurs in Fiscal Year 2018-19, as included in the Forecast. As a result, a general slowdown in economic activity is projected to begin Fiscal Year 2018-19 and continue into Fiscal Year 2019-20. However, some would say the recovery has been very long and slow; therefore, the next downturn could occur later.

The Forecast is not intended to predict precisely when the next slowdown in the economy will occur, but rather an indication of what the financial picture could look like when it occurs. The next slowdown could occur sooner or later than projected, but it is anticipated another downturn will occur during the Forecast period. The trend, based on the assumptions utilized, and assuming $1.8 million annual budget savings, indicates revenues in Fiscal Year 2016-17 through Fiscal Year 2018-19 will exceed expenditures, but as a result of an anticipated economic downturn, revenues may not be sufficient to fund all expenditures in Fiscal Years 2019-20 and 2020-21.

The various GOF revenue sources respond differently to such an economic event—some, such as Transient Occupancy Tax (TOT), react almost immediately while others, such as property taxes, sales tax, and investment earnings, lag behind. While the budget is projected to be balanced until the middle of the next downturn, it is important to note the five-year period includes revenues from projected development. If this development does not occur, annual operating balances will be negatively impacted.

The following chart shows historical population annually for the past five years, each U.S. Census year back to 1960, and projects population growth to 2020. From the 2000 Census to the 2010 Census, the City of Mountain View population grew by 2,697 (3.8 percent). According to the California State Department of Finance, the City's population is 77,925 in 2016, a 5.2 percent growth since the census. With the current pace of housing development, and potential for housing in the North Bayshore Area, the population could exceed the Association of Bay Area Governments' (ABAG) projections of 81,992 for 2020.

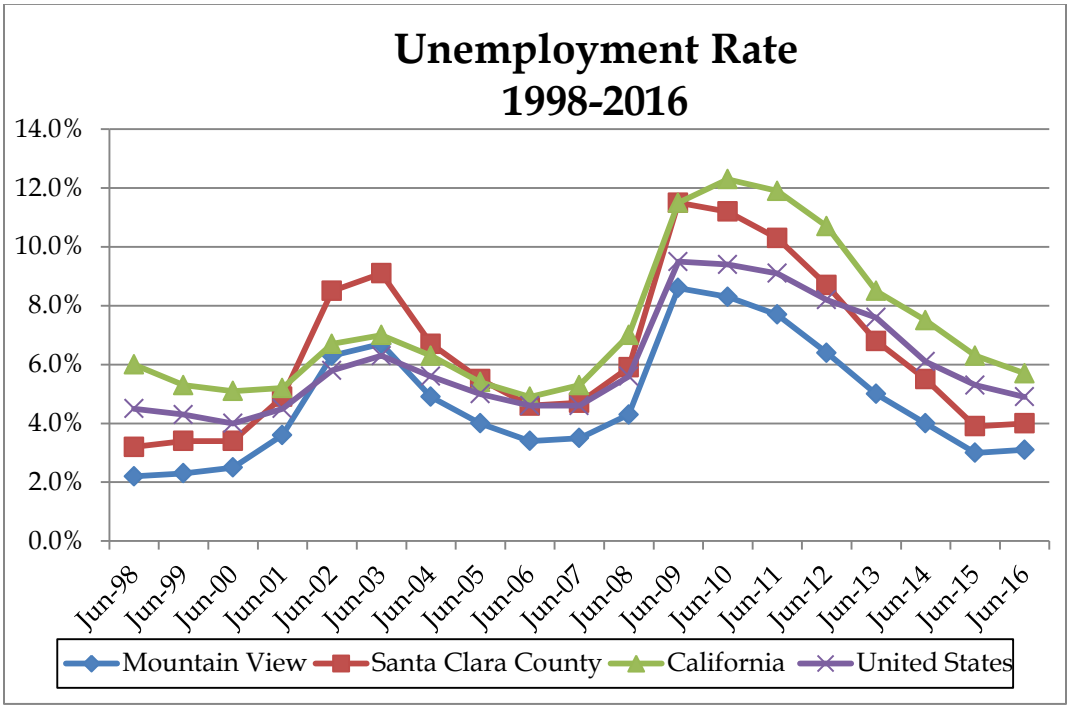
Economic Climate Factors

There are factors which impact each individual revenue source, some of which have broad ranges affecting multiple revenues and some are specific to an individual revenue source. The Forecast includes a discussion of these economic factors below.

Unemployment

As detailed in the chart below, Mountain View's unemployment level has been below the County of Santa Clara (County), State, and nation, except during the recession of the early 2000s, which hit Silicon Valley the hardest. As of June 2016, unemployment in the City is at 3.1 percent, lower than the prerecession rate and well below the County (4.0 percent), the State (5.7 percent), and the nation (4.9 percent).



Return to Previous

State of California

Five years ago, the unemployment rate exceeded 12.0 percent and the State faced a significant budget gap. At that time, the budget was balanced with permanent spending cuts and temporary taxes from Proposition 30. The enacted Fiscal Year 2016-17 California State Budget reflects continued economic health and the Fiscal Year 2016-17 balanced budget includes increased funding for education at all levels, an expansion of healthcare and social safety-net programs, and one-time funding for infrastructure and reserves. However, in view of the recent multi-billion-dollar deficits of just five years ago and recent lags in State revenues, the Governor's Office maintains fiscal restraint must still be a goal.

Revenue and Expenditure Overview

In order to maintain a base level of services in the City, revenue growth is necessary. If the existing revenue base cannot generate sufficient revenues to fund the cost of operations, the economic base must be enhanced or operating costs reduced. Fiscal Year 2016-17 revenues are projected to increase $11.6 million (10.8 percent) compared to Fiscal Year 2015-16 adopted revenues and $2.8 million (2.4 percent) compared to the Fiscal Year 2015-16 unaudited revenues.

The City is in a stronger financial position with an annual surplus projected for the next few fiscal years, the result of continued fiscal restraint, increased efficiencies, and economic recovery. The economic recovery from the recession is apparent locally and in other areas of the State. Locally, this includes major new private and public developments, such as The Village at San Antonio Center Phase II, various rental and ownership housing developments, commercial office development, and Moffett Gateway. These developments will provide housing, hotel rooms, shopping, and entertainment as well as generating additional ongoing revenues for the City, some as early as Fiscal Year 2016-17. Lease revenues are increasing from the revaluation of the long-term ground leases for the North Charleston and Crittenden sites. These two leases include a revaluation to market every 10 years.

Fiscal Year 2016-17 adopted expenditures are $5.8 million (5.7 percent) higher compared to the Fiscal Year 2015-16 adopted expenditures. The increases in expenditures are primarily related to cost-of-living adjustments (COLAs), retirement and health-care benefits cost increases, and an increase in the amortization of the Other Post-Employment Benefit (OPEB) unfunded liability. In addition, new ongoing expenditures of $1.8 million are included to address some of the resource limitations of the organization. After allowing for a $2.0 million contribution each to the unfunded California Public Employees' Retirement System (PERS) and OPEB liabilities, a $500,000 transfer to the General Non-Operating Fund (GNOF), a $2.0 million transfer to the

Return to Previous

Strategic Property Acquisition Reserve (SPAR), and anticipated budget savings of $1.8 million, the operating balance is projected to be $3.8 million for Fiscal Year 2016-17.

Although there have been changes made to reduce the cost of current health benefits, the overall Retirees' Health liability has increased. Between July 1, 2013 and July 1, 2015, the last valuation update, the Actuarial Accrued Liability (AAL) increased from $101.9 million to $123.8 million. Major components of this increase include: the migration of Public Safety employees to the PERS Health Care system (PEMHCA) ($13.1 million), incorporation of the projected excise tax for high-cost plans under the Affordable Care Act ($5.9 million), revised demographic assumptions ($5.3 million), and the change in the discount rate from 7.0 percent to 6.73 percent ($3.9 million). However, the City continues to make progress toward the funding of this liability with additional contributions. The City was 68.2 percent funded as of July 1, 2013, but as of July 1, 2015, was 72.9 percent funded. Investment returns are also a factor in the improved funded ratio.

Staff and Council recognized the opportunity to take advantage of the City's improved financial position to reduce unfunded liabilities for PERS and OPEB. These liabilities are 71.7 percent and 73.8 percent funded, respectively, and have existing unfunded liabilities of $187.3 million (as of June 30, 2015) and $34.2 million (as of July 1, 2016 projection), respectively. For Fiscal Years 2014-15 and 2015-16, Council approved allocations of $5.2 million toward the PERS liability and $3.5 million toward the OPEB liability. The Fiscal Year 2016-17 Adopted Budget continues this important strategy with $2.0 million contributions each to PERS and OPEB.

Although the percentage of funding is similar for both unfunded liabilities, the unfunded liability for PERS is significantly greater. Therefore, future recommendations are focused with more funding for PERS, for Fiscal Year 2017-18 funding of $3.0 million and $1.0 million for PERS and OPEB, respectively, and for Fiscal Year 2018-19 funding of $2.0 million for PERS. An additional $1.0 million each is adopted for PERS and OPEB from the Fiscal Year 2015-16 carryover, budgeted in the GNOF, and $854,000 from other funds for PERS for their share of the additional contributions. Other funds continuously fully fund their share of the OPEB liability; only the GOF is not fully funded.

Return to Previous

Fiscal Year 2016-17 includes contractual COLAs as provided for in the multi-year labor contracts for MVFF, POA, EAGLES, and SEIU and adopted resolutions for the remaining employee groups. Fiscal Years 2017-18 and 2018-19 include modest COLAs as placeholders and the remaining Forecast years do not include any COLAs. Annual step and merit increases, as well as projected annual benefit cost increases, are included for the entire Forecast period.

The following table includes the adopted revenues and expenditures by category for Fiscal Year 2016-17 and projections for the subsequent Forecast years.

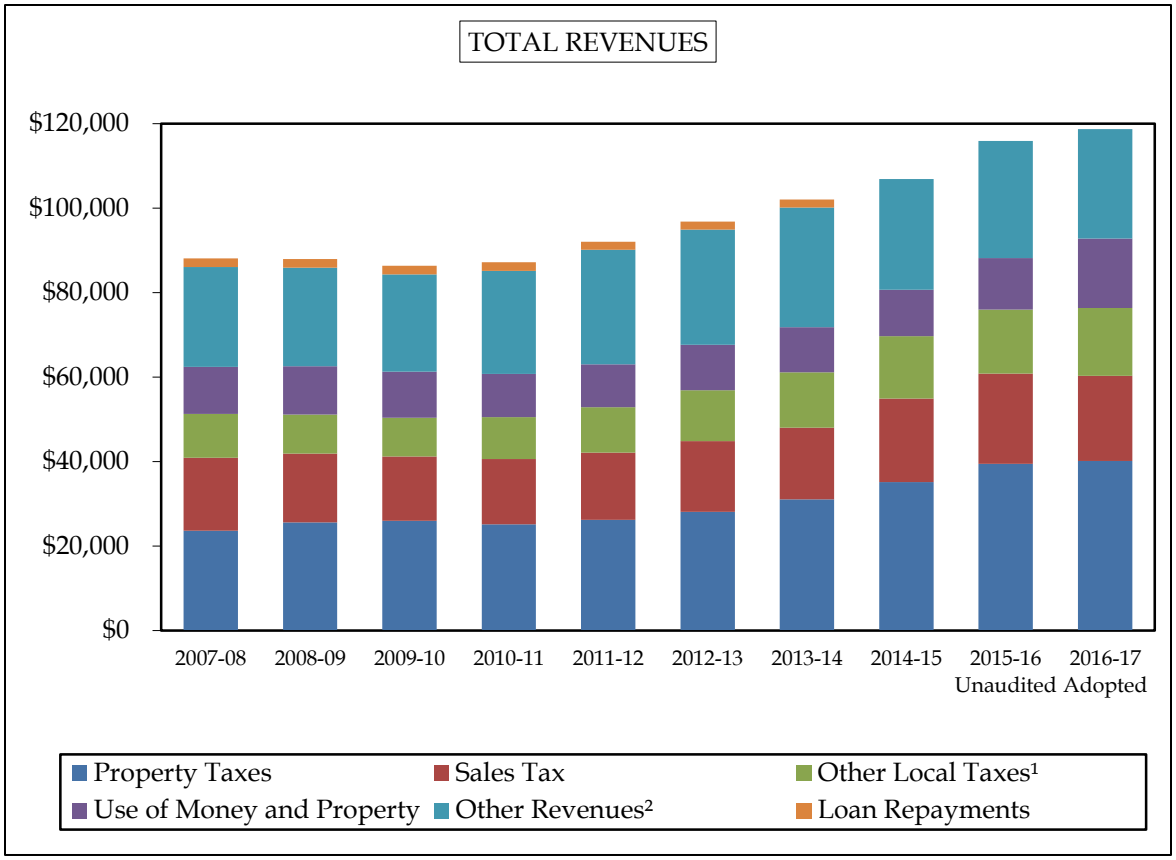
Revenue and Expenditure Background

Revenues

Historical experience demonstrates Mountain View has a relatively volatile revenue base, primarily related to sales tax, with substantial variation in the amount of revenues collected over time (see Attachment 1 for revenue and expenditure history). In addition to the overarching factors described in the Economic Climate Factors Section, the City's revenue volatility is continually impacted by local factors.

For Fiscal Year 2016-17, all the main categories of GOF Revenues listed in the previous table, except Other Revenues, are projected to meet or exceed the Fiscal Year 2015-16 Adopted Budget. Significant factors, such as increasing property and lease values, sales tax, hotel rates and occupancy, and improved compliance with the City's Utility Users Tax (UUT) Ordinance, are contributing to an improved financial condition and an overall indication the City is in a strong revenue growth period. The Other Revenues category is lower due to Fines and Forfeitures and Transfers as explained later in those respective sections.
A history of total GOF Revenues is as follows (dollars in thousands):



1 Other Local Taxes consists of Transient Occupancy Tax, Business Licenses, and Utility Users Tax.
2 Includes Licenses, Permits and Fees/Fines and Forfeitures, Intergovernmental; Charges for Services; Miscellaneous Revenue; and Interfund Revenues and Transfers.

Return to Previous

Total Fiscal Year 2016-17 revenues are projected to increase $11.6 million (10.8 percent) compared to the Fiscal Year 2015-16 Adopted. Additional discussion of individual revenue sources can be found later in this Forecast.

Expenditures

During Fiscal Years 2009-10 through 2012-13, there were projected structural deficits ranging from $1.1 million to $6.0 million and, through a combination of operating efficiencies and expenditure reductions (totaling $7.4 million), revenue enhancements, and employee cost containment (totaling $2.2 million), the City was able to balance those budgets and weather the Great Recession. Revenues had recovered sufficiently and no budget restructuring was necessary beginning in Fiscal Year 2013-14. The economic health of the City has continued to improve, resulting in a higher level of demand for services to support commercial and residential development, as well as to support other community priorities such as transportation and sustainability. Revenue projections for Fiscal Year 2016-17 indicate the strength of the recovery and allow for the adopted ongoing and limited-period positions, services and supplies, contributions toward the PERS and OPEB liabilities, and setting aside additional funds for potential strategic property acquisition. From the peak in Fiscal Year 2001-02 through Fiscal Year 2012-13, the GOF employee count was reduced by over 70.0 positions (over 14.0 percent). Although there have been high-priority positions added in recent years, overall, the City continues to operate at a very lean staffing level for the quality and volume of services provided. The Fiscal Year 2016-17 Adopted Budget includes additional positions to address the workload demands.

The Forecast expenditures are calculated in the same manner as the annual budget and include the full cost of each existing position (salary and benefits). For Fiscal Year 2016-17 through Fiscal Year 2018-19, the salaries have been adjusted based on both compensation agreements as approved by City Council and projections. Also included are multi-year assumptions related to the remaining cost components (e.g., steps, merits, retirement, health care, etc.) throughout the Forecast period. The factors for future health benefit costs were based on health-care trends and historical experience. The projected California PERS rates for Fiscal Years 2016-17 through 2020-21 were provided by PERS.

For Supplies and Services and the remaining categories, a base level of expenditures is calculated and then adjusted based on the multi-year assumptions related to each component of cost (e.g., City utilities, equipment maintenance, self-insurance funding, etc.).

Based on past experience, it is typical to underspend the budget due to vacant positions and cost containment in Supplies and Services accounts. Beginning in Fiscal Year

Return to Previous

2009-10, a budget savings amount was assumed. It has been as high as $2.8 million, reduced to $2.0 million in Fiscal Year 2014-15 and to $1.8 million in Fiscal Year 2015-16 as the higher levels of savings were not being realized. It remains at $1.8 million annually throughout the Forecast period.

SUMMARY

Silicon Valley continues to be a leader in the local and national economic recovery—job creation, vacant space utilization, development of both residential and commercial projects, and the recovery of property values are contributing to the health of the local economy. Although anticipated PERS and medical rate increases are significant factors, the Forecast projects revenue growth and positive operating balances (including funds set aside for PERS and OPEB) through Fiscal Year 2018-19. The final two years of the Forecast project negative balances of $1.3 million and $1.7 million, respectively, before any corrective actions. Future financial stability will be dependent upon the strength of the economy, the timing of the next recession, and continued fiscal restraint.

Following is a detailed and graphic presentation of the Forecast, summarizing the assumptions and resulting revenues and expenditures.

PROPERTY TAXES

Property Taxes include the revenue generated from the City's share of the 1.0 percent levy assessed on the taxable value of real and personal property located within the City limits. The assessed value (AV) of secured real property that does not experience a change in ownership or is not subject to new construction is increased annually at a rate not to exceed the California Consumer Price Index (CCPI) or 2.0 percent, whichever is lower. However, if a property changes ownership, it is reassessed (up or down) at the current market value and new construction is initially valued at the cost of the construction. In addition, the County Assessor can proactively adjust the AV of properties downward to market value during periods of declining property values. Unsecured tax on personal property, such as computers and other equipment, is assessed on the value of the property as reported annually to the County by the owner.

SOURCES

- Property tax assessed on secured real property.
- Property tax assessed on unsecured personal property.
- Property tax assessed on leased property.

ECONOMIC FACTORS

- General economic conditions.
- Proposition 13—determines methodology of tax application, limits the annual AV increase, and sets the tax rate.
- California Consumer Price Index (CCPI—October through October).
- New development.
- Property demand, sales, and values.
- County processing time for new development and ownership transfers and inclusion on the tax roll.
- Assessment appeals and proactive assessment reductions by the County Assessor.
- Availability of credit.
- State legislation regarding tax allocation.

Return to Previous

HISTORY

In 1992, as a way of solving its own budget shortfall, the State enacted legislation that shifted partial financial responsibility for funding education to local government. Property tax revenues belonging to cities, counties, and special districts were shifted to the Education Revenue Augmentation Fund (ERAF). The net cumulative loss to the GOF resulting from all ERAF shifts through Fiscal Year 2015-16 exceeds $90.0 million (almost $94.0 million for the entire City).

For the past two decades, housing activity has remained strong with short periods of uncertainty or declines related to the availability of housing stock, interest rates, and the overall economy. During Fiscal Year 2008-09, the housing market collapsed and assessed valuation across the County suffered and caused some properties to be appraised at less than the outstanding debt on the property. During that time, foreclosures nationwide increased dramatically as homeowners defaulted on their mortgages and California was the epicenter of the foreclosure crisis. Mountain View experienced foreclosures, but not as severely as other parts of the State. The number of foreclosures in the nation and California has declined significantly, now at the lowest level since 2006. The number of foreclosures in both the County and the City has also fallen dramatically.

Beginning Fiscal Year 2008-09, the County began processing Proposition 8 (Prop 8) reductions for residential and commercial properties. The majority of the lost value for residential Prop 8 reductions was recaptured in Fiscal Years 2013-14 and 2014-15 and the remainder was recaptured in Fiscal Year 2015-16.

In the time period since the beginning of the recession, commercial property owners have also submitted applications for value reductions. The number of appeals submitted Countywide for 2015 is the lowest since 2007. Because of the variable nature of commercial properties, the process of reviewing and valuing them is more complicated and lengthy. The County processed Countywide AV roll reductions (primarily the result of resolved appeals) and corrections totaling a net of $1.8 billion through June 30, 2016. The General Fund's share of this property tax revenue loss for Fiscal Year 2015-16 is approximately $162,000. As of June 2016, the County had approximately 5,600 active appeals and the Forecast includes some loss in property tax revenue as a result of resolution of these appeals.

Tracking of sales activity was initiated in 2007. The highest number of sales transactions occurred in 2012, but the largest increase in AV resulting from changes in ownership (CIO) occurred in 2015. As detailed in the table below, there has been growth in the median price of single-family homes (SFH) with a CIO every year since 2010, with more significant increases in the SFH median price for sales since 2011.

Return to Previous

Median Price Statistics (Mountain View Residential Properties with a CIO)

Year	Single-Family Home (SFH)	Number of SFH CIO	Condo/ Townhome	Number of Condo/ Townhome CIO
2007	$955,000	218	$575,000	255
2008	$963,250	200	$590,000	184
2009	$845,000	182	$535,000	179
2010	$892,000	267	$572,500	268
2011	$900,750	306	$445,000	241
2012	$1,000,000	341	$570,000	299
2013	$1,245,000	297	$639,000	356
2014	$1,450,000	255	$781,000	322
2015	$1,600,000	274	$910,000	312

Also impacting the growth in Property Taxes is the CCPI. Four of the last six fiscal years have had annual CCPI less than the maximum 2.0 percent allowed, and one of the four years was a negative CCPI.

In total, Fiscal Year 2015-16 unaudited Property Tax revenues of $39.5 million exceeds both the Fiscal Year 2015-16 Adopted Budget of $35.9 million and the Fiscal Year 2014-15 actual of $35.2 million.

FORECAST

The Fiscal Year 2016-17 projected secured property tax revenues is based on the July 1, 2015 tax roll adjusted for the following:

- A 1.525 percent CCPI increase to the AV of all eligible residential and commercial property;
- Projected AV loss from resolution of pending appeals;
- AV changes related to property transfers and sales prior to the lien date; and
- Projected AV increase related to new development and remodels.

As mentioned earlier, the County has a backlog of approximately 5,600 appeals. As the County is unable to provide information about pending appeals specific to each local agency, the Fiscal Year 2016-17 revenues include a projected tax loss for the resolution of pending appeals.

Return to Previous

For the remaining Forecast years, total secured property tax is projected with net growth ranging from 1.0 percent to 4.7 percent annually. These average annual increases include an annual change in AV based on a 2.0 percent CCPI, new development projects in the pipeline (including The Village at San Antonio Phase II, Moffett Gateway projects, and various housing developments), and anticipated growth from CIO and remodeling. The increased revenue from Moffett Gateway has been identified as a possible revenue source for the Police/Fire Administration Building capital improvement project (CIP).

For Fiscal Years 2016-17, 2017-18, and 2020-21, unsecured property tax revenue is projected to increase 1.0 percent annually. Fiscal Years 2018-19 and 2019-20 are projected with 10.0 percent and 5.0 percent declines, respectively, reflecting the impact of a projected downturn in the economy.

SALES TAX

Sales Tax revenue is the second largest single revenue source of the GOF and also the most volatile. The City of Mountain View is allocated 1.0 percent of every sales dollar subject to sales tax. In the late 1990s, sales tax from commercial/industrial businesses generated a greater amount of sales tax than retail businesses, an approximate 1.5:1.0 ratio. During the current decade, as a result of relocations, recession, growth of the service economy (nontaxable products), and Board of Equalization (BOE) reporting changes, retail contributes a greater share and the ratio is approximately 1.0:3.3.

SOURCES

- Retail sales of tangible personal property to individuals and other businesses.
- Use and excise taxes on business consumption of personal property.
- State and County pooled sales tax allocated by population.

ECONOMIC FACTORS

- Business expansion, reduction, or relocation.
- State of the economy.
- Purchasing patterns.
- State BOE allocation decisions.
- Level of business-to-business sales.
- Technology changes.

HISTORY

Since the early 1990s, sales tax has been an extremely volatile revenue source, reaching an all-time record high of $24.1 million in Fiscal Year 2000-01, primarily resulting from high-tech businesses. A precipitous decline to $14.2 million occurred in Fiscal Year 2003-04 followed by steady growth through Fiscal Year 2007-08 to $17.3 million. These variations typically occur as businesses move in and out of the City, companies modify reporting and/or sales methods, and the economy changes. Fundamentally, as the service economy grows, less manufacturing is done locally, so there is a smaller commercial tax base because sales tax is not applicable to most technology company sales. As a result of the Great Recession, Sales Tax revenue fell in excess of $2.0 million

Return to Previous

(11.8 percent) to $15.2 million in Fiscal Year 2009-10. Since then, sales tax revenue has again grown steadily, reaching $21.4 million in Fiscal Year 2015-16, exceeding both the Fiscal Year 2015-16 Adopted Budget and Fiscal Year 2014-15 actual.

The State Department of Finance has notified local agencies that the Economic Recovery Bonds approved by voters in 2004 to close the State's then operating deficit were paid off during Fiscal Year 2015-16. This ended the "triple flip" swap of 25 percent of the City's 1.0 percent sales tax to the State for a transfer of local property tax revenues from schools. There is no impact to the City's ongoing sales tax revenue as after the bonds are paid off and the swap ends, the City will begin receiving the full 1.0 percent sales tax in lieu of the property tax revenues. However, because of the timing of the end of the swap and the City receiving its full 1.0 percent sales tax, Fiscal Year 2015-16 sales tax revenues are slightly higher due to a true-up.

FORECAST

Fiscal Year 2016-17 sales tax revenue is projected to be less than the Fiscal Year 2015-16 unaudited, primarily due to the timing and true-up of the end of the triple flip as mentioned above, but also due to known changes in businesses. Fiscal Year 2017-18 includes 2.0 percent projected growth, the two subsequent Forecast years reflect 7.0 percent declines related to an anticipated downturn in the economy, and a recovery begins in the final Forecast year. The Village at San Antonio Center Phase II is projected to be completed in Fiscal Year 2017-18 with retail tenants in place beginning to generate sales tax.

OTHER LOCAL TAXES

Other Local Taxes is comprised of Transient Occupancy Tax (TOT), Business License Tax, and Utility Users Tax (UUT).

SOURCES

- TOT is a 10.0 percent tax assessed on hotel and motel occupancies. Any occupancy by a government employee while on government business, or a stay exceeding 30 consecutive days, is exempt from the tax. This tax is self-reported on a quarterly basis by hotels and motels within the City limits, and a compliance audit is performed on a periodic basis.

- Business License Tax is assessed on all businesses known to be operating in Mountain View and billed annually. Currently, there are approximately 6,300 businesses with licenses. The tax rate varies by type of business, generally $30 per year for most (73.0 percent), but can exceed $1,000 for certain types of businesses.

- UUT is a 3.0 percent tax assessed on the consumption of all telecommunication, electricity, and gas services. Companies providing taxable utility services remit UUT payments monthly and a compliance audit is performed on a periodic basis.

ECONOMIC FACTORS

- TOT: Number of hotel rooms, room rate, occupancy rate, and number of exemptions.

- Business License Tax: Number and types of businesses licensed by the City and the applicable tax rate.

- UUT: Customer base, level of consumption, and price of the commodity.

HISTORY

TOT: The current tax rate of 10.0 percent was last modified in June 1991 from 8.0 percent. Occupancy and room rates in the City typically grow in nonrecessionary times. The impacts of economic downturns or disruptions are immediately felt in TOT revenue as demonstrated by the 50.0 percent decline resulting from the dot-com bust and the 26.6 percent decline during the Great Recession. TOT revenues began to recover from this last recession in spring 2010 and growth has continued through Fiscal Year 2015-16.

Return to Previous

Business License Tax: This revenue does not change significantly from year to year as the tax rate has remained essentially unchanged since June 1954 (excluding two business types updated in 1985). Fluctuation in the number of businesses does not significantly change annual revenue because of the low annual tax rate.

UUT: The tax is calculated on the consumer cost of the energy (gas and electricity) and telecommunication services utilized. The tax revenue fluctuates with the cost, customer usage, and/or customer base and is negatively impacted by economic downturns as businesses close and many customers reduce usage. In November 2010, the voters approved a ballot measure which broadened the base to include all telecommunications services in order to treat all customers equally and the amended ordinance became effective March 2011. As a result, UUT generated from telecommunications increased.

An audit of telecommunications providers was completed in January 2014 and resulted in a $1.1 million settlement and one-time assessment payments. In addition, during Fiscal Year 2014-15, staff worked to bring another telecommunications provider into compliance, resulting in a payment of the amount due for that fiscal year and a $1.6 million payment for a prior time period. Both of these companies are remitting monthly UUT payments, contributing to ongoing revenue. Overall, Fiscal Year 2015-16 unaudited revenue exceeds both the Fiscal Year 2015-16 Adopted Budget and the Fiscal Year 2014-15 actual.

FORECAST

TOT: Fiscal Year 2016-17 reflects the completion of the Hampton Inn and Residence Inn remodel/room addition projects and projected revenue for a portion of the fiscal year. Growth is projected at 8.0 percent for the remaining properties. The projected growth is anticipated to slow through Fiscal Year 2017-18, decline 15.0 percent to 20.0 percent in the following two Forecast years and begin recovering in the final Forecast year. Fiscal Year 2017-18 reflects the completion of the Best Western remodel/room addition and Fiscal Year 2018-19 reflects the anticipated opening of the hotel planned as part of the San Antonio Phase II project and the hotel planned as part of the Moffett Gateway project.

Business License Tax: Business license revenue is forecast with a 2.0 percent annual growth for Fiscal Year 2017-18 and the anticipated two-year downturn includes 3.0 percent average annual declines followed by the beginning of the recovery in the final Forecast year. A business license compliance audit commenced during Fiscal Year 2015-16, but there is an insignificant increase in revenue based on findings to date.

UUT: Total projected UUT revenue for Fiscal Year 2016-17 is slightly higher than the Fiscal Year 2015-16 unaudited. The Agreement between the BOE and the City for prepaid phone cards was executed in December 2015 and the City should receive the

Return to Previous

first quarterly payment of UUT for prepaid phone cards in September 2016. No revenue has been included in the Forecast as it is unknown what the amount might be. The UUT revenues for the following four Forecast years fluctuate with the anticipated economic downturn.

USE OF MONEY AND PROPERTY

Use of Money and Property is comprised of investment earnings and revenue from rents and leases of City property. Investment earnings are generated from the General Fund's share of the City's pooled investment portfolio. Rents and Leases revenue is generated from rental properties and lease agreements.

SOURCES

- Monthly interest allocation generated by the City's pooled investment portfolio.

- Leased and rented properties, including:

  - Crittenden, Charleston East, and North Charleston sites
  - Shoreline Amphitheatre
  - Moffett Gateway
  - Recology
  - Center for the Performing Arts
  - Michaels at Shoreline
  - Community School of Music and Arts (CSMA)
  - CVS (parking structure, retail space)
  - Historic Adobe Building, Community Center, and Senior Center
  - Bean Scene Café, Olympus Caffe, and Savvy Cellar Wines, Inc.
  - Bank of America (ATM)
  - Wireless Telecommunication Providers (GTE Mobilnet, Metro PCS, Sprint)

ECONOMIC FACTORS

- Economy.

- Federal Reserve policy and interest rates.

- Portfolio balance.

- City Investment Policy.

- Rental revenues received and lease agreements.

HISTORY

Investment Earnings: Over the past decade, part of the City's financial strategy was to build reserves in anticipation of budget constraints in order to generate additional revenue in the form of investment earnings and to maintain sufficient funds to weather

Return to Previous

any further significant declines in revenues. The Federal Reserve has aggressively managed short-term interest rates since 2006 in an effort to combat the ripple effect of the subprime lending crisis and support the economic recovery by reducing the Federal funds rate from 5.25 percent to a target of 0.25 percent. This has significantly impacted the City's interest earnings. In December 2015, the Federal funds rate was increased 25 basis points and if the economy continues to improve, it is anticipated the Federal Open Market Committee (FOMC) will continue to implement small incremental increases in the upcoming years.

Rents and Leases: Over time, the City has strategically developed City-owned properties and negotiated lease agreements which generate long-term revenue for the GOF. These leases and the revenue generated become even more important during economic downturns as they do not immediately fluctuate with the economy, and most include annual inflationary increases.

In 1995, 1996, and 2008, the City first negotiated and signed ground lease agreements for the North Charleston, Crittenden, and Charleston East sites, respectively. As allowed in the ground leases, the rent includes fixed annual increases and is revalued every 10 years to market. The decennial revaluation of the North Charleston lease was completed in February 2016, resulting in a 141.0 percent rent increase ($3.3 million for a full year). The new rent amount was effective April 1, 2016 and will continue to escalate 4.0 percent annually.

In late Fiscal Year 2005-06, Council approved the amended and restated lease between the City and SFX Entertainment, Inc. (operating company of Live Nation, Inc.), for the lease of the Shoreline Amphitheatre. The terms of the lease eliminated the percentage rent structure and replaced it with a fixed amount of $200,000 per month for the concert season (nine months), a total of $1.8 million annually.

In September 2007, CVS opened in the Bryant Street parking structure and began paying the City the negotiated monthly lease rent. The parking structure was partially funded with former Revitalization Authority funds and, based on the Compensation Agreement, any revenues generated from the parking structures are shared with the taxing entities in the same portion of the Authority's contribution to the structures. The Compensation Agreement is effective July 1, 2014, resulting in annual lease revenue of $165,000 to the GOF, a loss of $78,000 annually.

In May 2010, Savvy Cellars opened to the public at the Centennial Plaza Train Depot and, in accordance with the lease, the annual revenue to the City for the first five years was $29,700. The first increase of 3.1 percent was effective December 2014, followed by a 2.59 percent increase effective December 2015. Effective with the Fiscal Year 2015-16 Adopted Budget, rental income from the Adobe Building, Community Center, and

Return to Previous

Senior Center was moved from Recreation Service Charge revenue to Rents and Leases, $219,000 for Fiscal Year 2015-16 unaudited.

FORECAST

Investment Earnings: The Fiscal Year 2016-17 projection is based on the assumption that as instruments mature, the funds will be reinvested at rates slightly higher than those available in Fiscal Year 2015-16, resulting in an average portfolio yield of 1.26 percent for Fiscal Year 2016-17. This assumes the Local Agency Investment Fund (LAIF) pooled rate averages 0.75 percent (0.58 percent as of June). The City's average portfolio yield is anticipated to continue rising or remain level through Fiscal Year 2019-20 and then decline in the final Forecast year as the impact of the projected economic downturn affects rates.

Rents and Leases: The Crittenden ground lease is due for its decennial revaluation effective January 1, 2017 and the process will start in the fall of 2016. Fiscal Year 2016-17 assumes an increase at 50.0 percent of the North Charleston revaluation for the applicable six months. The Charleston East ground lease includes a 3.0 percent annual increase and will be revalued during the Forecast period.

The City receives $1.8 million annually from SFX Entertainment, Inc. (SFX), for the lease of the Shoreline Amphitheatre through Fiscal Year 2016-17 and 2.0 percent annual contractual increases begin the following fiscal year. Should the City allow Google to extend its sublease from SFX after 2017, additional revenue would be expected. The lease agreement with CSMA includes an increase effective Fiscal Year 2018-19. The Savvy Cellars lease provides for annual increases through the Forecast period, which have been projected at 3.0 percent annually. In Fiscal Year 2017-18, the CVS lease agreement provides for an 11.9 percent increase. The remaining lease agreements will remain essentially level. The annual rental fees from the Adobe Building, Community Center, and Senior Center range from $131,000 to $152,000 over the forecast period.

LICENSES, PERMITS, AND FEES/FINES AND FORFEITURES

This revenue category is comprised of Licenses and Permits, Franchise Fees, and Fines and Forfeitures.

SOURCES

- Licenses and Permits revenues are generated from businesses requiring specific City permits.
- Franchisees are required to pay Franchise Fees as compensation to the City for the use of City property while providing a commercial service to Mountain View businesses and residents.
- Fines and Forfeitures are generated from citations issued by the City and the California Highway Patrol.

ECONOMIC FACTORS

- State of the economy.
- Franchise agreements and revenues generated by franchisees.
- Level of development activity.
- State and Federal regulations, legislation, and funded programs.

HISTORY

Licenses, Permits, and Fees: Historically, Licenses and Permits revenue tended to fluctuate with the development cycle. In Fiscal Year 2006-07, Building Services was separated from the GOF to better facilitate tracking and accounting. This revenue category has grown with the development activity of the past several years. In order to provide a more comprehensive picture of the development process and to more accurately align all development-related revenues and expenditures, Council approved the consolidation of all development-related functions within the City into a Development Services Fund for Fiscal Year 2014-15. Development-related revenues and expenditures were moved from the GOF to the Development Services Fund, which decreased revenues in several categories, including this one, and eliminated the effect of development. Unaudited revenues are essentially on target with the Fiscal Year 2015-16 Adopted and 3.0 percent higher than the Fiscal Year 2014-15 actual.

Return to Previous

Franchise Fee revenue generated from gas and electricity usage has historically increased as a result of significant commercial and residential development and declined during economic downturns as a result of commercial office vacancies, reduced construction debris discarded, and conservation by residential customers.

In accordance with the agreement between the City and the City's trash and recycling collector, Recology, a monthly service fee is owed to the City. This fee includes a portion for the exclusive right to perform this activity and a portion is attributable to the City providing billing and collection services. This revenue has fluctuated over the past decade as a result of conservation efforts, migration to larger-size containers, and increases in trash and recycling service charges in addition to the economic reasons listed above.

Beginning in Fiscal Year 2011-12, Cable Franchise revenues were budgeted directly as General Fund Franchise revenue in lieu of a transfer from the Cable Fund. In total, Franchise Fee revenue has been growing since Fiscal Year 2009-10.

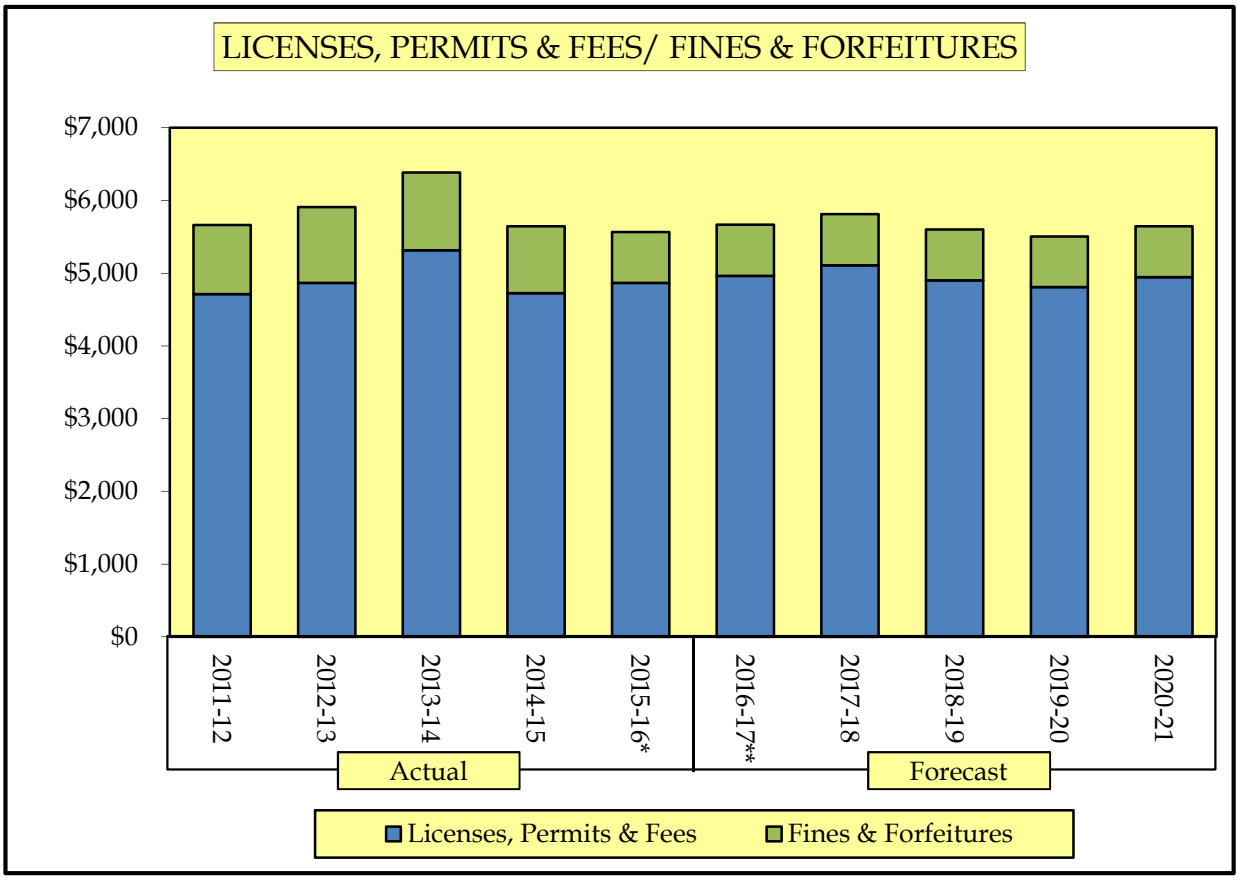
Fines and Forfeitures: This revenue source includes false alarm response fees, bail/fine payments from the County, and parking violation payments. All the unaudited Fines and Forfeitures revenue sources for Fiscal Year 2015-16 are lower than both the Fiscal Years 2015-16 Adopted and 2014-15 Audited. Depending on the specific revenue, the decline is related to either position vacancies, a focus on higher priorities, recent legislation, or a higher level of enforcement in Fiscal Year 2014-15 which generated a significantly higher level of revenue in that fiscal year.

FORECAST

Licenses, Permits, and Fees: Fiscal Year 2016-17 and the remainder of the forecast years are projected at approximately the same level as the Fiscal Year 2015-16 unaudited as it is anticipated there will be no significant changes in these activities.

Fines and Forfeitures: Fiscal Year 2016-17 and the remaining Forecast years reflect annual changes of less than 1.0 percent.

Return to Previous



Fiscal Year		Licenses, Permits & Fees	Fines & Forfeitures	Total Licenses, Permits & Fees/ Fines & Forf	% Change

INTERGOVERNMENTAL

Intergovernmental revenue is remitted or allocated to the City by other governmental agencies.

SOURCES

- Other governmental agencies—Santa Clara County, State of California, and U.S. government.

ECONOMIC FACTORS

- Actions by the State Legislature.

- State and Federal regulations, legislation, and funded programs.

HISTORY

During the past decade, many revenues from the State have been reduced or eliminated, including Vehicle License Fees (VLF), Community-Oriented Policing Services (COPS), Public Library Funds, Rapid Enforcement Allied Computer Team (REACT), SB 90 mandate reimbursement, and other programs. The Fiscal Year 2015-16 unaudited revenue exceeds both the Fiscal Year 2015-16 Adopted Budget and the Fiscal Year 2014-15 actual and is unusually high as a result of payment for deferred SB 90 claims and a higher than anticipated Public Safety Realignment allocation.

FORECAST

Fiscal Year 2016-17 projected revenue is essentially the same as Fiscal Year 2015-16 Adopted but is lower compared to Fiscal Year 2015-16 unaudited, primarily as the projection for Fiscal Year 2016-17 does not include one-time grant funds or mandate reimbursements that were received in Fiscal Year 2015-16. The remaining Forecast years include small incremental increases to several reimbursements from the County and the end of Regional Auto Theft Task Force (RATTF) funding in Fiscal Year 2019-20.

CHARGES FOR SERVICES

Charges for Services revenue is comprised of revenue from fees for services provided by various City departments, primarily related to recreation and development activities.

SOURCES

- City Recreation programs.
- Reimbursement of administrative costs related to private development activity.
- Other provided services.

ECONOMIC FACTORS

- State of the economy.
- Level of participation in City Recreation programs.
- Level of development activity.

HISTORY

In order to ensure appropriate pricing for services, during Fiscal Year 2009-10 staff initiated a Police services cost-of-service study, and Council approved a Recreation Cost Recovery Policy (Policy). As a result of these, increased recovery levels for services provided by other departments, and new or increased service fees were adopted. Subsequent to approval of the Policy, staff completed an analysis of participation levels, revenues, and changes in programming related to Recreation services. There was an indication that participation levels decreased in some programs and the utilization of the fee waiver program increased (likely as a result of the struggling economy). Therefore, the number of programs and classes was reduced as a result of minimum attendance requirements authorized in the Policy and new revenue sources, such as sponsorships, were approved.

Staff continually reviews programming and pricing, adjusts as appropriate, and Recreation-related Service Charge revenue has continually grown. On March 24, 2015, Council approved a change to the Recreation Financial Assistance Program (FAP), from a subsidy of $800 per family to an individual subsidy of 75.0 percent with a cap of $400 per person, to offset the cost of youth classes and programs. The modest change in revenue related to this was included in the Fiscal Year 2015-16 Adopted Budget. In addition, some Charges for Services revenue was determined to be, and was moved to, rental income effective with the Fiscal Year 2015-16 Adopted Budget.

Return to Previous

Effective with the Fiscal Year 2014-15 Adopted Budget, Development Services was separated from the GOF in order to facilitate better tracking and accounting and allow for an effective way to match revenues and expenditures. The separation caused the significant decline from Fiscal Year 2013-14 to Fiscal Year 2014-15. The remaining development-related revenue is for Heritage tree applications and reimbursement to the GOF for administrative support provided to development projects.

As a result of the changes discussed above, adopted Fiscal Year 2015-16 Charges for Services revenue was projected to decrease 2.8 percent compared to the Fiscal Year 2014-15 Adopted Budget. In total, unaudited Fiscal Year 2015-16 Charges for Services revenue exceeds the Fiscal Year 2015-16 Adopted Budget, primarily resulting from additional camps, classes (including contract instructor), facilities reservations, and administrative overhead on service charges.

FORECAST

As the majority of Recreation enrollment payments are received late in the fiscal year, revenue was projected conservatively at a level similar to the Fiscal Year 2015-16 Adopted Budget. Fiscal Year 2015-16 unaudited revenue includes some one-time revenue that will not be received in future years and revenue from new programs. Staff recommends a longer evaluation period for the new program revenue before adjusting future budgets. The remainder of the Forecast period includes average annual increases of approximately 1.0 percent before and after declines resulting from the anticipated economic downturn.

MISCELLANEOUS REVENUES

Miscellaneous Revenues is comprised of a variety of reimbursed services and nonspecific revenues.

SOURCES

- Donations and Grants.
- Reimbursements for services provided by the City.
- Miscellaneous.

ECONOMIC FACTORS

- State of the economy.
- Grant availability and City applications.
- Services provided to businesses, school districts, and other agencies.

HISTORY

The City receives numerous donations and grants for a variety of City programs and services, many of which are not budgeted. Appropriations are increased when a grant or donation is approved or the funds are received by the City.

Some reimbursement for services provided in Fiscal Year 2015-16 and prior fiscal years are budgeted as they are ongoing in nature. Other reimbursements are one-time in nature and are not budgeted. The City provides the following categories of services:

- Maintenance services to the school districts for Graham Athletic Field, Whisman Sports Complex, and Mountain View Sports Pavilion.
- Mutual-aid fire support to other cities and the State of California which are later reimbursed by the State and Federal government.
- Public safety dispatch to the Midpeninsula Regional Open Space District (MROSD).
- Contractual first responder for Rural Metro.

Return to Previous

- Staffing and other support for some Shoreline Amphitheatre events and other special events.

Total annual Miscellaneous Revenues vary, but over the past 10 years has averaged approximately $2.0 million annually.

FORECAST

Fiscal Year 2016-17 Miscellaneous Revenues is projected to be essentially at the same level as the Fiscal Year 2015-16 Adopted Budget but, as discussed earlier, lower than the Fiscal Year 2015-16 unaudited as a result of grants, donations, and reimbursements not budgeted. The remaining Forecast years increase less than 1.0 percent annually.

INTERFUND REVENUES AND TRANSFERS

Interfund Revenues result from internal charges for staff time, building space, and maintenance services provided to other funds and capital projects by the GOF. The cost of this internal support provided to other funds is calculated in the City's Full Cost Allocation Plan (Plan). Interfund Transfers include transfers between the GOF and a variety of other funds.

SOURCES

- Interfund Revenues are reimbursements to the GOF for internal support services provided to other funds and capital improvement projects.

- Interfund Transfers are transfers from other City funds.

ECONOMIC FACTORS

- Level and cost of services provided by GOF staff to other funds and capital improvement projects.

HISTORY

Interfund Revenues: In the early 1990s, with the assistance of a cost plan consultant, the City began preparing and utilizing a full cost plan for reimbursement to the GOF. The Plan has been updated approximately every two to three years, and this revenue source accounts for approximately 12.0 percent of total GOF revenues. The most recent update of the Plan was completed and the results incorporated for Fiscal Year 2015-16.

Interfund Transfers: These vary from year to year and are both ongoing and one-time/ limited-period in nature. The Fiscal Year 2015-16 unaudited includes the annual transfers from the Gas Tax and Parking District funds, and $108,000 of net operating income from Shoreline Golf Links, $67,000 less than adopted.

In April 2011, the City executed a long-term (52 years) ground lease with Google Inc. for the other portion of the Charleston East site which became effective in June 2011. Google remitted $30.0 million in prepaid rent to the City which is invested and generates annual investment earnings. The $30.0 million of prepaid rent was received from Google for the Charleston East site when the portfolio yield was above 2.5 percent and the average annual rate was projected at 3.5 percent for the 52 years. However, due to the recession, the Federal Open Market Committee (FOMC) has reduced and maintained the current low interest rate environment and the actual investment yields have been significantly lower than the 3.5 percent originally projected. This low interest rate environment has been longer than anticipated; therefore, in order to preserve the

Return to Previous

principal amount of the prepaid rent, for Fiscal Years 2014-15 and 2015-16, City Council approved staff's recommendation to reduce the transfer from the Earned Lease Revenue Reserve (Lease Reserve) from $750,000 to $350,000. However, after reviewing the balance of the Lease Reserve at the end of Fiscal Year 2014-15, it was determined to be more prudent for no funds to be transferred for Fiscal Years 2014-15 and 2015-16 until the balance is brought back to the policy level.

FORECAST

Interfund Revenues: For Fiscal Year 2016-17, Interfund Revenues include reimbursement from various funds which receive support from the GOF. The remaining Forecast period includes annual increases of less than 1.0 percent and is held level during the anticipated economic decline.

Interfund Transfers: For Fiscal Year 2016-17, Interfund Transfers include $1.3 million of reimbursement from the Gas Tax Fund, $150,000 of operating income from Shoreline Golf Links, and $108,000 of reimbursement from the Parking District. The transfer from the Lease Reserve is deferred for the remainder of the Forecast period.

The Forecast period includes level or slightly increasing transfers from the same funds.

LOAN REPAYMENTS

This revenue source reflects the annual repayment of loan obligations from other funds.

SOURCES

- Shoreline Regional Park Community.

ECONOMIC FACTORS

- Financial condition of the paying funds.

HISTORY

The General Fund made a series of loans to the Shoreline Regional Park Community (Shoreline Community) beginning in Fiscal Year 1985-86, which eventually totaled $17.8 million. The loans were consolidated during Fiscal Year 1988-89. Because this revenue stream was long-term in nature, it had been included as operating revenues. However, with the Fiscal Year 2014-15 Adopted Budget, as there were only two years of payments remaining, Council adopted staff's proposal to account for the final two payments in the General Non-Operating Fund. The final loan repayment was made in Fiscal Year 2015-16.

FORECAST

There are no longer any loan repayments included in the GOF.

SALARIES AND BENEFITS

The City is essentially a service organization, based on the efforts of our employees. As such, the Salaries and Benefits category makes up the largest component of GOF expenditures and represents all personnel-related costs. The City is obligated by law to meet and confer with bargaining units and also meets with other employees on matters of employee compensation. There are four recognized bargaining groups in the City: the Police Officers Association (POA sworn and nonsworn), the Mountain View Professional Firefighters Union (MVFF Local 1965), the Service Employees International Union (SEIU Local 715), and the EAGLES (Management, Professional, and certain Front-Line positions). The remaining employees include certain unrepresented Management, Professional, Confidential, and Front-Line positions. The outcome of negotiations with each group is a major factor in salary and benefit costs.

CATEGORIES

- Salaries.
- Wages.
- Overtime.
- Other Pays (e.g., holiday-in-lieu, out-of-class, etc.).
- Health Benefits.
- Retirees' Health.
- Public Employees Retirement System (PERS).
- Workers' Compensation.
- Unemployment Insurance.
- Other Benefits (e.g., life insurance, long-term disability, FICA, etc.).

HISTORY

Since Fiscal Year 2000-01, there have been two downturns in the economy necessitating a net reduction of approximately 70.0 positions and other employee compensation cost containment. During Fiscal Year 2011-12, the City negotiated three-year contracts with all employee groups that expired June 30, 2015. Cost-containment measures that became effective for Fiscal Year 2012-13 for all or some of the employee groups included

Return to Previous

maximum vacation accruals, modified sick-leave incentive program, HMO medical plan copay, option of new high-deductible health plans, improved alignment of dental and vision plans between groups, and Retirees' Health Trust contributions.

Pension costs have increased dramatically since 2000, when they were $2.9 million (4.7 percent of GOF expenditures), compared to $13.4 million (12.9 percent of GOF expenditures) for Fiscal Year 2015-16. Pension costs continue to grow and in many cities the employer pays some or all of the employee contribution. Mountain View employees not only pay the full employee contribution, but they also pay a portion of the employer contribution. This was an unusual and progressive arrangement when instituted in Mountain View and reflects the collaborative approach of our employees. For Fiscal Year 2015-16, cost shares range from 10.5 percent to 17.366 percent, depending on the employee group.

As a result of the significant financial losses to PERS during the recession and the resulting impacts to the financial sustainability of the pension plans, many changes in the way PERS rates are calculated have been adopted in the past several years, as detailed below:

- In March 2012, the PERS Board approved the reduction of 0.25 percent in the discount rate used to calculate the pension liability and corresponding employer contribution rates. The impact was a 0.92 percent and 1.4 percent employer rate increase for miscellaneous employees and a 2.56 percent and 1.6 percent employer rate increase for safety employees for Fiscal Years 2013-14 and 2014-15, respectively. For Mountain View, this resulted in an increase to pension costs of $1.3 million (net of additional cost share) phased in over two years.

- On April 17, 2013, the PERS Board adopted recommendations of the Chief Actuary. The recommendations changed the methodology for the amortization and smoothing of rates. Overall, the methods are expected to result in higher volatility in employer rates in normal years, but less volatility in employer rates in years where extreme events occur (e.g., significant investment losses). The method will result in increased higher employer rates over time, but are also expected to result in improved funding levels. This change is reflected in the employer rates beginning in Fiscal Year 2015-16.

- On February 18, 2014, the PERS Board adopted changes as a result of the demographic study. The study resulted in increased rates as life expectancy continues to rise. Generational mortality tables are also being incorporated in the actuarial assumptions. The demographic changes are anticipated to raise rates by 4.5 percent and 7.05 percent over five years, for miscellaneous and public safety, respectively. This impact is reflected in the employer rates beginning in Fiscal Year 2016-17.

Return to Previous

- On November 18, 2015, the PERS Board adopted an approach to mitigate future rate volatility. The Funding Risk Mitigation Policy includes attributes of the flexible glide path methodology, a lowering of the discount rate, and expected investment volatility following a great investment return with reviews to allow the ongoing monitoring and assessing of the progress toward reducing risk and investment volatility in the funding of the pension system.

These actions have been adopted to maintain the financial sustainability of the pension fund; however, these actions result in higher rates for the City. The City Council has approved additional contributions from the General Fund totaling $4.5 million from a combination of carryover funds and budgets since Fiscal Year 2014-15. The Fiscal Year 2016-17 Adopted Budget includes a contribution of $1.0 million from the Fiscal Year 2015-16 carryover and an additional $2.0 million from the GOF. The General Operating Fund represents approximately 80.0 percent of the total PERS contribution; therefore, additional contributions from the Other Funds, proportional to the General Operating Fund contribution, are also included in the Adopted Budget.

FORECAST

The discussion below includes information regarding COLAs and medical rates and comparisons of projected costs.

Fiscal Year 2016-17 includes a 2.0 percent COLA in accordance with the MVFF, POA, EAGLES, and SEIU labor contracts and resolutions adopted for all other groups. Fiscal Years 2017-18 and 2018-19 include modest COLAs as placeholders, but there are no COLAs for the remaining Forecast years as deficits are projected. All Forecast years include step and merit increases.

Fiscal Year 2016-17 medical insurance rates are projected to increase 7.0 percent to 11.0 percent (depending on the health plan), for the second half of the fiscal year and dental rates are projected to increase 2.0 percent. The remaining Forecast years assume medical rates will increase 7.0 percent to 10.0 percent annually (depending on the health plan) and dental rates will continue to increase by 2.0 percent annually.

Overall, retirement benefit costs are projected to increase 9.4 percent compared to the Fiscal Year 2015-16 Adopted Budget. In Fiscal Years 2017-18 through 2020-21, the annual increases are projected to fluctuate between 2.9 percent and 7.4 percent. All employee groups contribute their employee share of PERS costs plus a "cost share" of a portion of the City's contribution. Additional contributions of $2.0 million, $3.0 million, and $2.0 million in Fiscal Years 2016-17, 2017-18, and 2018-19, respectively, are included to reduce this unfunded liability. Contributions from other funds for their share of this

Return to Previous

liability are also included. The chart in the Revenue and Expenditure Overview Section of the Forecast provides detailed amounts for each fiscal year.

Below are the projected employer rates provided in the PERS actuarial valuations as of June 30, 2014.

	FY 2015-16	**FY 2016-17**	**FY 2017-18**	**FY 2018-19**	**FY 2019-20**	**FY 2020-21**
Miscellaneous	25.192	26.77	28.6	30.4	32.2	32.7
Safety[1]	34.89	38.643	41.0	43.4	45.8	46.6

[1] The PERS Safety rate is a blended rate that reflects the impact of the Fire cost share contributed as member contributions.

The impact of the assumption changes previously discussed are reflected in these employer rates provided by PERS.

SUPPLIES AND SERVICES

The Supplies and Services category makes up the second largest component of General Operating Fund expenditures and represents costs of operations.

CATEGORIES

- Materials and Supplies.
- Maintenance and Operations.
- Utilities.
- Professional/Technical Services.
- Training, Conference, and Travel.
- Miscellaneous Expenditures.

HISTORY

The budget for Supplies and Services has fluctuated depending on economic conditions impacting the GOF, and staff has worked diligently to contain costs, particularly during the recessionary times.

FORECAST

The Fiscal Year 2016-17 Adopted Budget (including discretionary and nondiscretionary increases) is increasing $810,300 (5.3 percent) compared to the Fiscal Year 2015-16 Adopted. The remainder of the Forecast period includes average annual inflationary increases of 2.5 percent to 3.8 percent.

CAPITAL OUTLAY AND EQUIPMENT REPLACEMENT

The Capital Outlay and Equipment Replacement category represents the new and replacement equipment needs of the City. Although Capital Outlay is one-time in nature, the City includes this category in the Operating Budget to reflect capital needs on an annual basis. In addition, annual contributions to the Equipment Replacement Fund are made by the GOF, Development Services, Shoreline Golf Links, Parking District, Shoreline Regional Park Community, Water, Wastewater, Solid Waste Management, and Fleet Maintenance Funds based on the equipment used by each of those operations. Equipment replacement expenses are accounted for in the Equipment Replacement Reserve Fund.

CATEGORIES

- Capital Outlay.
- Equipment Replacement.

HISTORY

Capital Outlay: Since Fiscal Year 1993-94, annual expenditures have grown as a result of an increased level of technology and related equipment, an increase in the number and quality of safety vehicles, and the addition of hybrid vehicles to the fleet. This category is also influenced by the economic condition impacting the GOF and has experienced fluctuations over the past 10 fiscal years. For the past decade, annual budgeted expenditures for Capital Outlay have ranged between $200,000 and $400,000. For Fiscal Year 2015-16, capital outlay was funded at $300,000.

Equipment Replacement: The Equipment Replacement Reserve was funded with year-end General Fund carryover in Fiscal Years 1992-93 and 1993-94. Subsequently, appropriations were gradually increased until the GOF was fully funding its share in Fiscal Year 2001-02. Then, after several years of reduced contributions, a review of cost methodologies, useful life assumptions, and annual contributions was completed in Fiscal Year 2005-06 and staff concluded annual funding would need to be restored in order to financially sustain the replacement schedule. This was accomplished through a combination of increasing operating budget contributions supplemented by General Fund carryover. Beginning in Fiscal Year 2009-10, the full share of funding is budgeted in the GOF. The Fiscal Year 2015-16 contribution to Equipment Replacement was adopted at $2.4 million.

Return to Previous

FORECAST

Capital Outlay: For Fiscal Year 2016-17, capital outlay items total $405,200, and annual funding of $400,000 is included as the base level of funding for the Forecast period.

Equipment Replacement: The GOF contribution for Fiscal Year 2016-17 is increasing 7.2 percent to $2.6 million and the remainder of the Forecast period includes annual increases of 3.0 percent to 3.8 percent, continuing full funding of the GOF's share of equipment replacement.

INTERFUND EXPENDITURES AND TRANSFERS

This category includes Self-Insurance funding and Interfund Transfers. Self-Insurance represents the GOF's share of insurance costs accounted for in the Internal Service Funds such as General Liability, Retirees' Health, and Vision Care. Special Funds and the Enterprise Funds also contribute to self-insurance. Interfund Transfers includes any transfers from the GOF to another fund (with the exception of the Equipment Replacement Transfer).

CATEGORIES

- General Liability.
- Vision Care.
- Retirees' Health Program.
- Strategic Property Acquisition.
- Housing.

HISTORY

General Liability: In Fiscal Year 1993-94, the City joined a liability insurance pool (ACCEL) with other select medium-sized cities for the provision of coverage in excess of the $1.0 million self-insured retention (SIR). Beginning in Fiscal Year 2001-02, funding of liability insurance was spread to all funds which receive a benefit from this insurance coverage. Previously, the cost was funded entirely by the GOF.

Vision Care: Vision care claims for employees and retirees with Health Net medical coverage and reimbursement for safety glasses submitted by current employees are paid for by the Employee Benefits Fund. The annual cost of this program is allocated to all operating funds.

Retirees' Health Insurance Program: The medical premiums for eligible retirees are paid by the Retirees' Health Fund. Although the City was not yet required to fund this liability, Council allocated funds to this reserve beginning in Fiscal Year 1992-93.

In 2004, the Government Accounting Standards Board (GASB) published Statement No. 45—*Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* (OPEB)—which required the City report the annual cost of this liability in the City's Comprehensive Annual Financial Report (CAFR) beginning in Fiscal Year 2007-08. The Retirees Health program encompasses annual funding of the normal cost

Return to Previous

(NC), annual self-insurance funding of the unfunded actuarial accrued liability (UAAL) and periodically includes additional funding transfers from the GOF. An actuarial report was completed and beginning in Fiscal Year 2006-07, the calculated NC portion for current employees has been budgeted in all the affected funds. In addition, for Fiscal Year 2006-07, Council approved contributions from other funds for their proportionate share of the UAAL. The combined NC and the amortization of the UAAL represents the annual required contribution (ARC). The City has committed to contributing the ARC on an annual basis. The actuarial valuation is required to be updated every two years and was most recently updated as of July 1, 2015.

In February 2008, Council approved an agreement authorizing the City's participation in the PERS-administered California Employers' Retiree Benefit Trust (CERBT) Fund, and in February 2009, the City began depositing funds into the CERBT. The balance in the CERBT as of June 30, 2016 is $96.3 million. All funds except the GOF have contributed their full share of the actuarial accrued liability, and continue to fund their full share as valuations are updated. The City Council has approved additional General Fund contributions totaling $3.5 million from the Fiscal Years 2013-14 and 2014-15 carryovers, including a transfer of $1.0 million each from Fiscal Years 2014-15 and 2015-16 Adopted Budgets. The Adopted Budget includes a contribution of $1.0 million from the Fiscal Year 2015-16 carryover. In addition, as part of the agreement for Public Safety to move to the PERS Health Care system, Public Safety employees are contributing an ongoing 1.2 percent of salary towards the OPEB liability.

FORECAST

General Liability: The Fiscal Years 2016-17 through 2020-21 projections are based on maintaining the minimum policy level for reserve balances. The City currently has a $1.0 million SIR, but this could be increased to $2.0 million in the near future. For Fiscal Year 2016-17, the GOF is contributing $1.0 million for the cost of claims and administering the program, essentially the same level as Fiscal Year 2015-16 Adopted. The remainder of the Forecast period includes 3.0 percent annual increases.

Vision Care: The GOF's contribution is based on the projected amount required to fund vision coverage for employees and retirees with Health Net coverage and safety glasses for employees.

Retirees' Health Insurance Program: Fiscal Year 2016-17 includes $2.3 million for the UAAL amortization. The remaining Forecast years use projections provided for in the July 1, 2015 valuation for the UAAL amortization and additional contributions of $2.0 million in Fiscal Year 2016-17 and $1.0 million in Fiscal Year 2017-18 to be transferred from the GOF to raise the funding status of this liability. The chart in the Revenue and Expenditure Overview Section of this Forecast provides detailed amounts for each fiscal year.

Return to Previous

As stated previously, between July 1, 2013 and July 1, 2015, the Actuarial Accrued Liability (AAL) increased from $101.9 million to $123.8 million. The actuarial as of July 1, 2015 provides a forecasted AAL of $130.5 million for Fiscal Year 2016-17 and $137.4 million for Fiscal Year 2017-18. The difference between the pay-as-you-go premiums and the ARC will be deposited into the CERBT on an annual basis.

General Non-Operating Fund (GNOF): As directed by the City Council at the Fiscal Year 2016-17 budget public hearing, the Adopted Budget includes a transfer of $500,000 to the GNOF to fund a one-time employee bonus, recruitment strategies and employee engagement activities, and a new limited-term Communications Training Supervisor.

Strategic Property Acquisition Reserve (SPAR): The City has successfully leveraged City-owned property for ongoing revenues, and setting aside available resources in the SPAR could assist in obtaining future strategic properties. The Fiscal Year 2016-17 Adopted Budget includes a transfer of $2.0 million to the SPAR in order to increase the available funding for future property investment.

Housing: As a result of the dissolution of the former Revitalization Authority (RDA), the GOF now receives its share of the former RDA property taxes. For the past two fiscal years, 20.0 percent of the GOF share has been appropriated for low- and moderate-income housing as limited-period funding in the General Non-Operating Fund. As directed by Council at the Narrative Budget Study Session, the Adopted Budget includes an annual transfer of these property taxes, in the amount of $51,000, to the Housing Fund. In addition, the balance of prior year funds is being transferred from General Non-Operating Fund to the Housing Fund and is also included in the Adopted Budget.

Fiscal Years 2014-15, 2015-16 and 2017-18 include an additional $1.0M and Fiscal Year 2016-17 includes an additional $2.0M OPEB contribution above the full funding of the amortization of the UAAL. Fiscal Year 2016-17 includes the $2.0M transfer to the Strategic Property Acquisition Reserve.

Return to Previous

DEBT SERVICE

The Debt Service category represents the GOF's debt payment obligations.

CATEGORIES

- Police/Fire Building.

HISTORY

The GOF has had no debt obligations since prior to Fiscal Year 2009-10, when the City Hall/Center for the Performing Arts debt repayment was transferred to Construction and Conveyance Tax funding. This debt was fully retired in Fiscal Year 2015-16.

FORECAST

The Forecast assumes revenue generated from the Moffett Gateway development beginning in Fiscal Year 2016-17. This revenue is potentially earmarked for the Police/Fire Administration Building Remodel and Expansion. It is assumed debt will be issued for the project and annual debt service payments will be approximately $3.0 million and have been included as a placeholder beginning in Fiscal Year 2017-18.

GENERAL NOTES

These notes explain the format and conventions used for each Department Summary that appear in the following section of this document.

A. Organizational Charts

Included for each department is the organizational structure of the department. A City-wide organizational chart is included prior to the Introduction Section of this document.

B. Text Pages

1. Centered at the top of the page is a title identifying the Department or Program name and if it is the Department Summary or a Program Summary.

2. The Department or Program Manager is identified.

3. The Department mission statement and an overview of the functions and responsibilities of the Department and Programs are provided.

4. The Department's functions are listed on the Department Summary only. Functions are the long-term goals of the Department and are tied to performance measures.

5. The Department's major goals/projects/initiatives for Fiscal Year 2016-17 are listed only on the Department Summary. Items in **bold** are tied to Fiscal Year 2015-16 and 2016-17 Major Council Goals. Items in ***bold italics*** are new Major Council Goals for Fiscal Year 2016-17.

6. Major program changes are identified by fund on the Program Summary pages or the Department Summary if there are no Programs for the Department.

7. Performance measures are listed on Department Summary pages only and are tied to the Department's functions. Performance/Workload Measures are clearly tied to Departmental Functions. If a Departmental Function has a Performance/Workload Measure tied to it, it is noted in parenthesis with an "M" and the Performance/Workload Measure number(s) following (e.g. M 1, 2, 3). Please note that Department Function are long-term goals and therefore tied to continuing Performance/Workload Measures, while Major Departmental Goals/Projects/Initiatives are short-term in nature.

Return to Previous

GENERAL NOTES
(Continued)

D. Numerical Pages

1. The listed number of positions for each Department or Program represents the maximum number of regular budgeted positions that can be filled. "Part-Time Hourly" positions identify the number of full-time equivalent positions budgeted to be filled by hourly personnel. Limited-Period and contract personnel are not included in this listing.

2. Positions listed in the "2014-15 Adjusted" column are those positions actually approved in the adopted budget that year plus any adjustments made mid-year. Positions listed in the "2015-16 Adopted" column are those positions in the "2014-15 Adjusted" column plus position changes adopted in Fiscal Year 2015-16. Positions listed in the "2016-17 Adopted" column are those positions in the "2015-16 Adopted" column plus any amendments or adjustments made mid-year and any changes adopted for Fiscal Year 2016-17.

3. Salaries for regular positions are calculated using the employees' actual salary plus any potential increases for the upcoming budget year. Hourly positions are calculated using the minimum/maximum range of the position classification. In general, hourly positions are budgeted at the higher end of the range; seasonal hourly positions are generally budgeted at mid-range.

CITY COUNCIL
DEPARTMENT SUMMARY

DEPARTMENT MISSION STATEMENT

To set policy that governs the City in a manner which is both financially sound, as well as responsive to the needs and concerns of the community.

DEPARTMENT OVERVIEW

The City Council is the legislative and policy-making body for the City, having responsibility for enacting City ordinances, appropriating funds to conduct City business, and providing policy direction to administrative staff.

There are seven standing City Council committees, each with three members. From time to time, special-purpose committees are also formed. In addition, Councilmembers represent the City and serve on numerous regional agencies and organizations.

The City Council holds Regular Meetings at 6:30 p.m. on the second and fourth Tuesday of each month in the Council Chambers located in City Hall, 500 Castro Street. Additional Special Meetings are scheduled as needed. The times and places of City Council committee meetings and the meetings of outside agencies on which Councilmembers serve can be obtained from the City Clerk's Office.

DEPARTMENT FUNCTIONS

- Serve as Board of Directors for the Mountain View Shoreline Regional Park Community, and the City of Mountain View Capital Improvements Financing Authority.
- Participate in regional boards and agencies which directly affect the City of Mountain View and the needs and interests of the citizens.
- Adopt the annual budget and Five-Year Capital Improvement Program.
- Meet annually in Study Sessions with each advisory commission/committee.
- Participate in the City's Corporate Visitation Program.

MAJOR CITY COUNCIL GOALS/PROJECTS/INITIATIVES FOR FISCAL YEAR 2016-17

- Improve the quantity, diversity, and affordability of housing.
- Enhance environmental sustainability efforts.
- Improve transportation by enhancing mobility and connectivity.

Return to Previous

MAJOR PROGRAM CHANGES

- General Operating Fund:

  The Council Procedures Committee (CPC) met on February 23, 2016 to discuss the Council's budget in accordance with Council Policy A-2. Costs associated with Training, Conference, and Travel (TCT) have increased. The CPC recommended the following:

  Training, Conference, and Travel: $3,500

  The CPC recommended the training, conference, and travel budgets be increased by $500 for each Councilmember.

- General Non-Operating Fund:

  Newly Elected Council Per-Term Allowance (limited-period): $15,200

  Provides funding per Council Policy A-2, whereby each Councilmember is to receive an allowance of $3,800 per term for specialized office equipment necessary to allow Councilmembers to perform their official duties and communicate with the public and staff.

  Council Team Building (limited-period): $5,000

  Provides funding for Council team building. With the 2016 election and new members joining the Council, the CPC recommended additional funding for Council team building, as was done in Fiscal Year 2014-15.

  Furniture for Mayor's Office (rebudget): $3,000

  Rebudgets funding for furniture for the Mayor's Office.

CITY CLERK'S OFFICE
DEPARTMENT SUMMARY

DEPARTMENT MANAGER—CITY CLERK

DEPARTMENT MISSION STATEMENT

To maintain official records, administer elections, and provide administrative support to City Council.

DEPARTMENT OVERVIEW

The City Clerk is appointed by the City Council. The Clerk is responsible for facilitating the conduct of business by the City Council and fulfilling legal requirements as set forth in the Charter, City Code, and State law. The City Clerk's Office administers City elections and campaign and financial disclosure laws.

The City Clerk's Office maintains a record of all proceedings of the City Council; meets all requirements regarding public postings, legal advertising, recordations, and mailing of public hearing notices; processes assessment districts, annexations, deeds, tax cancellations, appeals, and initiative petitions; administers the selection process for Council appointment of members to City board, commissions, and committees; and provides support for Sister City activities.

The City Clerk's Office provides administrative assistance to the Council, maintains the City Code and City Charter, is custodian of the City Seal, administers oaths or affirmations, and maintains official record of City contracts and agreements. The office also maintains official City records, provides certified copies thereof, assists with public records requests, and provides information to the public regarding the legislative operations of government.

DEPARTMENT FUNCTIONS

- Administer City elections. (M 1)
- Maintain the City Code and City Charter.
- Administer campaign disclosures, financial disclosures, and oaths. (M 2)
- Coordinate, prepare, and distribute Council agenda materials and minutes. (M 3, 4, 5, 6, 7)
- Maintain official City records and provide records management support services for all departments. (M 8)
- Notice legal documents and process annexation and assessment district proceedings, deeds, appeals, initiative petitions, and ordinances. (M 7, 8)
- Provide administrative support to City Council. (M 10)
- Manage coordination of Council meeting agenda preparation process.

Return to Previous

MAJOR DEPARTMENTAL GOALS/PROJECTS/INITIATIVES FOR FISCAL YEAR 2016-17

- Conduct the November 2016 Election for Council candidates, including the nomination process, candidate statement, ballot title reviews, and all other legally required processes.
- Complete technology upgrades in the City Council Chambers, in conjunction with the Information Technology Department.
- Complete the revisions to the Citywide Records Retention Schedule.
- Complete the digitizing of the microfilm/fiche records project (following completion of the Community Development Department's digitizing project).
- Begin to develop and implement action items related to the employee engagement survey results.

MAJOR PROGRAM CHANGES

- General Non-Operating Fund:

November 2016 Election: $110,000

Provides funding for the November 8, 2016 General Municipal Election, including four Council candidates, the nomination process, candidate statements, and ballot title reviews. This does not include the cost of a possible Charter amendment initiative.

Microfilm Digitizing Service (rebudget): $13,300

Rebudgets funding to convert existing microfilm to digital format. Digitizing microfilm will allow easier access for the public and increase efficiency in responding to public records requests.

Records Retention Schedule: $3,000

Provides funding to update the Records Retention Schedule, including the review and update of the Government Code citations related to document retention levels and preparation of a revised document for Council approval.

CITY ATTORNEY'S OFFICE
DEPARTMENT SUMMARY

DEPARTMENT MANAGER—CITY ATTORNEY

DEPARTMENT MISSION STATEMENT

To provide legal services and counsel to the City Council, boards, and commissions and participate as a member of the management team in support of City departments.

DEPARTMENT OVERVIEW

The City Attorney is appointed by the City Council as the Attorney for the City and legal advisor to the City Council. The City Attorney hires subordinate attorneys to assist in the discharge of assigned responsibilities. The City Attorney's Office defends and prosecutes or retains counsel to defend and prosecute all civil actions and proceedings to which the City is a party and prosecutes all criminal actions involving the City Code. The City Attorney's Office represents and advises the City Council, boards, commissions, departments, and all City officials in matters of law related to the conduct of City business.

The City Attorney's Office drafts necessary legal documents, ordinances, resolutions, contracts, other documents pertaining to the City's business, and handles claims against the City. The Office is also responsible for providing legal services in connection with the Shoreline Regional Park (North Bayshore) Community.

The Code Enforcement Section is responsible for enforcing the City Code provisions relating to zoning, neighborhood preservation, vehicles on private property, and other Code sections as necessary.

DEPARTMENT FUNCTIONS

- Prosecute and defend legal proceedings involving the City. (M 1, 2)
- Coordinate and monitor outside legal service providers retained to represent the City in its ongoing operations. (M 1)
- Process and track claims filed against the City. (M 2)
- Represent and advise City officials and City staff in legal matters.
- Draft and/or review ordinances, resolutions, contracts, and other legal documents. (M 3, 4)
- Supervise and administer the Code Enforcement Division, including prosecution of City Code violations. (M 5)
- Work with the Community Development Department to draft, finalize, and execute agreements as needed for developments.
- Update and revise Council policies, administrative policies, and personnel policies in accordance with new regulations such as new Fair Political Practices Commission (FPPC) regulations and initiatives of the Council Procedures Committee.

Return to Previous

MAJOR DEPARTMENTAL GOALS/PROJECTS/INITIATIVES FOR FISCAL YEAR 2016-17

- Provide legal support to update Precise Plans to implement the General Plan.
- Continue to work on the development of City-owned properties in downtown (Lots 4, 8, and 12), in conjunction with the Finance and Administrative Services Department and the Community Development Department.
- Begin to develop and implement action items related to the employee engagement survey results.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  Core Logic/MetroScan Annual License Fee: $1,200

  Provides increased funding for the MetroScan software annual licensing fee. The software is used to obtain essential information regarding property owners.

- General Non-Operating Fund:

  Legal Services: $75,000

  Provides funding for additional legal services support. This funding will provide additional legal resources to address fluctuations in workload by assisting with pending high-priority projects (e.g., litigation support, public records requests, research projects, drafting of ordinances, and specialized agreements) requiring legal review and subject matter expertise.

CITY MANAGER'S OFFICE
DEPARTMENT SUMMARY

DEPARTMENT MANAGER—CITY MANAGER

DEPARTMENT MISSION STATEMENT

To support the City Council in the development and execution of their goals and policies and to provide leadership and guidance to City departments in the delivery of City services and to attract and retain the most appropriately qualified employees.

DEPARTMENT OVERVIEW

The City Manager is appointed by the City Council. The City Manager's Office provides professional leadership in the administration of all City services, activities, and facilities and directs the execution of policies and objectives formulated by the City Council; develops and presents to the City Council recommendations and strategies in response to community issues; plans and executes programs to meet the current and future needs of the City of Mountain View; and strives to provide the highest quality of human resource service to City departments, employees, and prospective employees.

DEPARTMENT FUNCTIONS

- Develop and present to the City Council solutions and strategies in response to community issues.
- Provide leadership to City departments in the execution of policies, objectives, and programs adopted by the City Council. (M 1)
- Respond to all City Council and citizen inquiries received by the City Manager's Office in a timely manner.
- Assist the City Council in its annual setting of major City goals and track departments' progress in achieving Citywide goals.
- Develop and submit an annual balanced City budget to the City Council and support City Council efforts in long-term financial planning.
- Support the City Council's legislative advocacy and intergovernmental relations efforts. (M 3)
- Manage the City's Community Relations Program by providing information to the community through public forums, City publications *The View* and *Annual Report*, and government access programming. (M 4, 5)
- Manage the Multilingual Community Outreach Program. (M 2, 5)
- Provide staff support to the Human Relations Commission.
- Provide City liaison to various community groups and nonprofit organizations.
- Coordinate intergovernmental issues related to the Moffett Complex/NASA Ames issues.
- Coordinate specific interdepartmental and intergovernmental compliance issues.

Return to Previous

- Support capital project funding priorities and the feasibility of a voter-approved revenue measure, or other funding mechanism, to fund priority projects in conjunction with the Finance and Administrative Services Department.

- Manage customer/citizen relationship management (CRM) "***Ask Mountain View***" web- and mobile-based systems. (M 4, 5)

- Serve as the focal point in the City organization for the coordinated delivery of youth services by internal and external youth services providers, and coordinate ongoing implementation of the Youth Action Plan.

- Provide staff support to the Council Procedures Committee (CPC), Council Youth Services Committee (CYSC), and in conjunction with the Information Technology Department—the Council Technology Committee (CXC).

- Manage the Human Resources Division, including day-to-day functions, training, succession planning, and labor negotiations.

- Develop and maintain infrastructure for administering effective personnel/employee relations functions. (M 6)

- Manage and coordinate the City's grievance and appeals process and assist departments with all disciplinary actions. (M 6)

- Manage and maintain positive employee/labor relations with unrepresented and represented employee groups through negotiations and administration of Memorandums of Understanding and resolutions governing unrepresented compensation. (M 6, 7)

- Plan, conduct, and continually evaluate employee training and organizational development opportunities, and succession planning efforts. (M 7)

- Fill vacant positions as quickly and cost-effectively as possible while adhering to equal employment principles. (M 7)

- Orient all new employees to the City and conduct interviews with all employees who separate from City service. (M 8, 9)

- Evaluate, update, and maintain the City's classification plan through periodic salary surveys and classification/reclassification studies, and implement changes to the City's compensation plan as needed.

- Manage and administer the City's comprehensive benefits program for employees and retirees, including the wellness program. (M 10)

MAJOR DEPARTMENTAL GOALS/PROJECTS/INITIATIVES FOR FISCAL YEAR 2016-17

(Items in **bold** *are tied to Fiscal Years 2015-16 and 2016-17 Major Council Goals; items in* ***bold italics*** *are new Major Council Goals for Fiscal Year 2016-17)*

- ***Explore a variety of efforts designed to help homeless vehicle dwellers.***
- Prepare for and negotiate new labor agreements by June 30, 2017.
- Develop a pilot employee commute relief program.
- Coordinate the reauthorization of a Statewide cable franchise agreement and associated renewal of KMVT PEG cable TV contract.
- Continue to implement Purchasing Study priority recommendations, in conjunction with the Finance and Administrative Services Department.
- Begin to develop and implement action items related to the employee engagement survey results.

PERFORMANCE/WORKLOAD MEASURES

1. Percentage of City Manager's Office cost as a percent of the General Operating Fund expenditures[(A)]	1.2%	1.5%	<2%	1.4%	<2%
2. Number of in-person outreach activities the Multilingual Community Outreach Program conducted to support City initiatives (attendance at special events, community and resident meetings).		New for FY15-16	25	59[(B)]	50[(B)]
3. Number of communications regarding the City's position on legislation or legislative issues made annually to the State Legislature, Congress, and other branches of government	9	9	5	14	9
4. Number of topics initiated via Online Community Engagement Feedback with Open City Hall		New for FY15-16	5	5	5
5. Number of Community Information and Outreach Program products provided (newsletters, press releases, Internet postings, media contacts, etc.)	118	882[(C)]	300	829[(D)]	400

Return to Previous

	2013-14 Actual	2014-15 Actual	2015-16 Target	2015-16 Actual	2016-17 Target
Human Resources Division:					
6. Employee turnover rate	7%	6%	<10%	8%	<10%
7. Percent of recruitments/vacant positions filled by existing personnel (excludes promoting within positions classified as I/II)	44%	26%[E]	>30%	38%	>30%
8. Percent of new employee orientations conducted within seven days of hire	100%	100%	>98%	100%	>98%
9. Percent of retirement planning informational meetings conducted with retiring employees	95%	100%	>90%	100%	>90%
10. Percent of employee benefit inquiries responded to within two working days	98%	99%	>90%	96%	>90%

[A] Percentage is for the City Management Division only.

[B] Outreach targets were exceeded due to enhanced outreach. The Fiscal Year 2016-17 target has been corrected.

[C] Due to dedicated limited-period communication staff since January 2014. Additionally, the updated website allows for new interactive communication channels. The Fiscal Year 2015-16 target has been updated to reflect organizational changes.

[D] This number includes data by topic area. It does not include 3,027 various Internet postings and thousands of social channel posts.

[E] For Fiscal Year 2014-15, there were more entry-level position recruitments which are not typically filled by existing personnel.

PROGRAM MANAGER – CITY MANAGER

PROGRAM OVERVIEW

The City Management Division supports the City Council in the preparation of City Council meeting and Study Session agendas and reports; administers the City's cable television franchise and contract with KMVT; serves as a liaison for intergovernmental relations and coordinates the delivery of youth services in the community; manages issues relating to NASA Ames Research Center and Moffett Federal Airfield; coordinates the City's Customer Relations Management (CRM) software system; disseminates information about City services and issues to the community through a public information program, including a multi-language community outreach component; coordinates the City's environmental compliance issues; provides staff support to the Human Relations Commission; coordinates child-care issues; and promotes the City's best interests in interactions with other levels of government.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  Communications Coordinator Position (0.50): $92,700

  Converts a limited-term 0.50 FTE Communications Coordinator position to ongoing to support the current and projected workload for the City's Community Information Program.

  Contract Services: $33,700

  Provides increased funding for professional contract services to assist the City with environmental issues, website programming and training for staff, and the renewal and disengagement of PEG (Public, Education, and Government) funding to pay for the KMVT Community Television agreement.

  Minimum Wage Contract**:** $10,000

  Provides funding for contract services with the San Jose Office of Equality Assurance to enforce the City's Minimum Wage Ordinance.

- General Non-Operating Fund:

  ICMA Fellow (limited-period): $135,700

  Provides funding for a Management Fellow position. The objective of this position is to provide an increased level of analytical rigor and effectiveness for important City issues. The position will develop tools and training that promote high-quality analysis and will provide direct analytical support in the development of critical department and Citywide projects.

Return to Previous

Innovation Lab Grant (rebudget): $20,000

Rebudgets "start-up" funding for the "Innovation Lab" program. The City Manager launched the program, at the suggestion of employees, to encourage managers to "pitch" ideas to improve operations or services. The intent is to foster a proactive culture of innovation in the organization. This program is being redesigned.

Multilingual Outreach Program (limited-period): $6,000

Provides increased funding for staff time and supplies to accommodate the increase in demand for translation, interpretation, outreach, and referral assistance.

Telecommunications Legal Services (limited-period): $5,000

Provides funding for outside legal counsel to assist with the Statewide cable franchise agreements.

Citizen Leadership Academy (limited-period): $4,000

Provides funding for staff time and supplies to develop and implement a Spanish-language Citizen Leadership Academy. The intent of the Academy is to improve residents' understanding of government and City services, increase civic engagement, leadership, and volunteerism in the City.

Assorted Digital Communications Technical Needs (rebudget)**:** $2,000

Rebudgets funding for social advertisement through various outlets.

The View newsletter and print products (rebudget)**:** $1,500

Rebudgets funding for increased bulk postage costs and redesign of Citywide products.

- Cable Television Fund:

Cable TV Broadcasting Equipment (limited-period): $42,500

Provides funding to purchase an HD Live TV unit for mobile broadcasts (including data services), update radio equipment, and two portable HD Digital Switchers. The total cost is $85,000; half of the cost will be negotiated with KMVT as part of the contract renewal during Fiscal Year 2016-17.

PROGRAM MANAGER – ASSISTANT CITY MANAGER

PROGRAM OVERVIEW

The Human Resources Division recruits and tests personnel; manages labor relations, equal employment opportunity, and employment development activities; coordinates organizational development efforts, including new employee orientations and training programs; administers the City's compensation and benefits program; and conducts special studies and programs to improve the quality of service to employees and the public.

The City strives to hire and retain excellent employees throughout the organization. To do this, the division recruits the best people and monitors the City's salary and benefits plan for competitiveness. The City values its employees and provides numerous mechanisms to encourage professional growth. The City provides the necessary on-the-job training and designs and implements supervisory and other management training programs for recently promoted employees, as well as existing employees.

MAJOR PROGRAM CHANGES

- General Operating Fund:

Referral Incentive and Signing Bonus Programs: $100,000

Provides funding to support successful recruitments for positions that are especially difficult to fill. Staff is updating the City's recruitment strategies. This includes enhancing the existing referral bonus offered to current employees who are instrumental in attracting candidates (to include a choice of either a cash bonus or vacation hours) and also the introduction of a signing bonus to be offered when necessary to successfully hire top talent in difficult-to-fill positions.

Preemployment Physicals: $5,000

Provides increased funding for preemployment medical services associated with the increase in the number of applicants.

PERS Replacement Benefits: $4,000

Provides increased funding for certain retiree payments due to the change in the processing of PERS replacement benefits.

Mountain View Employees' Association (MVEA): $1,000

Provides increased funding to the MVEA to continue the Holiday Luncheon for employees. Costs have increased and the increase is requested to maintain the same level of quality.

CalOpps Annual Fee: $500

Provides increased funding for the CalOpps annual fee. CalOpps is used to advertise for the City's open recruitments.

Return to Previous

- General Non-Operating Fund:

Human Resources Analyst I/II Position (limited-period): $147,000

Provides continuation funding for a limited-term Human Resources Analyst I/II position. This position will assist with the high volume of recruitments, provide support in administering the benefits program, and special-event planning.

Employee Transportation Program (limited-period): $80,000

Provides funding for a pilot program to provide incentives to reduce drive-alone rates to aid congestion management and reduce employee commute costs and stress.

Labor Negotiations (limited-period): $60,000

Provides funding for a Labor Negotiations Attorney and other costs to assist with contract negotiations and strategies. All four represented employee groups' current agreements will expire June 30, 2017 and, therefore, will be bargaining in Fiscal Year 2016-17.

Employee Engagement Initiatives (limited-period): $50,000

Provides funding for employee engagement initiatives. The City has undertaken an initiative to identify improvements to our workplace that will maximize employee engagement, retention, and effectiveness. Based on employee input from a survey and series of focus groups, staff is developing a variety of programs to foster greater connections and communication between all levels and departments of the organization, offer more ways for employees to provide input and feedback, and enhance opportunities for learning and development.

Workplace Investigations (limited-period): $15,000

Provides funding for the assistance of external investigators. Workplace investigations are unpredictable, and Human Resources seeks assistance from an external investigator when the workload prevents them from conducting the investigation internally.

Paid Internship (rebudget): $15,000

Rebudgets funding to participate in the regional internship program created by the City Manager Associations of Santa Clara and San Mateo Counties and have a year-round intern.

INFORMATION TECHNOLOGY
DEPARTMENT SUMMARY

DEPARTMENT MANAGER—INFORMATION TECHNOLOGY DIRECTOR

DEPARTMENT MISSION STATEMENT

To support and implement the use of technology to enhance customer service, efficiency, and advance the mission of the organization.

DEPARTMENT OVERVIEW

The Information Technology Department plans, maintains, and manages the City's computerized information systems, communication networks, and telecommunications system. Services include systems analysis and design, project management, computer operations, computer equipment maintenance, software selection, vendor management, and website development and support.

DEPARTMENT FUNCTIONS

- Manage and support the planning, implementation, operation, and maintenance of information technology, providing a reliable City-wide network, electronic mail, public access, City Internet and Intranet website, and technical support of computer applications in City departments. (M 1, 2)

- Coordinate cost-effective telephone services, including long distance, voice mail applications, and cellular phone services.

- Provide support to the Council Technology Committee in conjunction with the City Manager's Office.

MAJOR DEPARTMENTAL GOALS/PROJECTS/INITIATIVES FOR FISCAL YEAR 2016-17

- Complete technology upgrades in the City Council Chambers, in conjunction with the City Clerk's Office.

- Support the Finance and Administrative Services Department Phase II of the implementation of the City's Financial System to ONESolution.

- Update the utility system base maps (701 maps) to support a water, sewer, and storm drainage operations modeling system and a Computerized Work Order Management System, in conjunction with the Public Works Department.

- Complete rollout of free WiFi to the Municipal Operations Center and Police/Fire Administration.

- Install permanent monitors and computer systems in City conference rooms to replace laptops and portable projectors.

- Migrate MS Exchange e-mail system to MS-hosted system.

- Upgrade of core network switches and perimeter firewall equipment to protect the City from outside security attacks.

Return to Previous

- Deploy online system for new Business License applications.
- Begin to develop and implement action items related to the employee engagement survey results.

MAJOR PROGRAM CHANGES

- General Operating Fund:

IT Analyst I/II—Application Support Position: $169,500

Provides funding for an IT Analyst I/II position. This position will support the increase in technology initiatives, including the managing of some technology systems in the Police Department and other departments.

Geographic Information System (GIS) Data Conversion Services (offset by $50,000 in fees): $50,000

Provides funding for contracting services to convert developer's plans to GIS data to maintain the City's GIS up-to-date.

Granicus Votecast System: $15,000

Provides funding for subscription services for the new Granicus Votecast System.

SQL Server Software Assurance Contract: $6,400

Provides funding to purchase Microsoft software assurance contracts for SQL Server Licenses.

- General Non-Operating Fund:

Secretary Position (0.50) (limited-period): $66,800

Provides funding for a half-time, limited-term Secretary position to provide administrative support to the IT Department. Currently, IT and the Purchasing Division in the Finance and Administrative Services Department share a Secretary position. This position will assume administrative functions from other IT Analyst staff that currently is not accommodated by the shared Secretary position.

SQL Server Licensing (limited-period): $22,400

Provides funding for additional SQL Server Licensing. The City has purchased six licenses but has 40 licenses in production to support various applications.

FINANCE AND ADMINISTRATIVE SERVICES
DEPARTMENT SUMMARY

DEPARTMENT MANAGER—FINANCE AND ADMINISTRATIVE SERVICES DIRECTOR

DEPARTMENT MISSION STATEMENT

To support the planning and management of the City's fiscal affairs and to provide internal administrative services to all City departments.

DEPARTMENT OVERVIEW

The Finance and Administrative Services Department is responsible for administration of the financial affairs and internal support activities of the City; provision of financial/analytical, purchasing and document processing, and Workers' Compensation and liability support to all City departments and programs; managing the City's investment portfolio; and coordinating the City's budget process and annual independent audit. Specifically, the department processes payroll, accounts receivable, utility billings, all City revenues, accounting entries, accounts payable, financial reporting, purchase orders, and Council reports and other documents, and Workers' Compensation and property loss claims. The department is also responsible for warehousing, copying, and mail for internal support functions and manages the City's general liability, property insurance, industrial disability, and unemployment programs. In addition, the department provides staff support to the Council Finance Committee and Investment Review Committee.

DEPARTMENT FUNCTIONS

- Plan, monitor, and report in a timely and accurate manner the City's financial and budgetary position; provide financial analysis and recommendations on major issues facing the City. (M 1)
- Manage the City budget process and produce the annual City budget.
- Provide staff support to the Council Finance Committee (CFC) and Investment Review Committee (IRC).
- Manage investment of City funds with the objectives of minimizing risk and meeting cash flow requirements while earning market rates of return. (M 2)
- Manage the City's debt obligations, including special assessment debt; monitor the City's credit rating; recommend and manage issuance of new debt as appropriate.
- Provide timely, accurate, and cost-efficient payroll processing. (M 3, 4, 5)
- Process billing and collection of charges for utility and miscellaneous services, providing a high level of accuracy and customer service to residents and businesses. (M 6, 7)
- Manage the City's centralized financial and budgetary control systems, delivering accurate and timely processing of financial transactions and on-time information. (M 1, 8, 9, 10)

Return to Previous

- Coordinate and assist with the City's annual independent audit; prepare the Comprehensive Annual Financial Report, required State reports, and other reports as necessary.

- Provide efficient and effective centralized purchasing services as required by the City Charter and City Code, and the sale of surplus equipment. (M 11, 12)

- Provide cost-beneficial, centralized document processing, document reproduction, and mail distribution services. (M 13, 14)

- Manage the City's comprehensive general liability, property, loss control, Workers' Compensation, industrial disability, and unemployment insurance programs, including self-insurance programs and excess insurances for catastrophic loss. (M 15, 16, 17)

MAJOR DEPARTMENTAL GOALS/PROJECTS/INITIATIVES FOR FISCAL YEAR 2016-17

(Items in **bold** *are tied to Fiscal Years 2015-16 and 2016-17 Major Council Goals; items in* ***bold italics*** *are new Major Council Goals for Fiscal Year 2016-17)*

- ***Establish the financing for the Silicon Valley Clean Energy JPA.***

- Continue to work on the development of City-owned properties in downtown (Lots 4, 8, and 12), in conjunction with the City Attorney's Office and the Community Development Department.

- Support the City Manager's Office with negotiations for new labor agreements.

- Establish a cross-functional team, including Library, Finance and Administrative Services, and Information Technology Departments, to implement output accounting module to directly transfer financial information from Sierra to ONESolution.

- Commence Phase II of the implementation of the City's Financial System to ONESolution.

- Continue to implement Purchasing Study priority recommendations, in conjunction with the City Manager's Office.

- Complete compliance audit of hotels/motels for Transient Occupancy Tax.

- Transition to the City's new external auditors.

- Begin to develop and implement action items related to the employee engagement survey results.

PROGRAM MANAGER – FINANCE AND ADMINISTRATIVE SERVICES DIRECTOR

PROGRAM OVERVIEW

Administration is responsible for the management of the Finance and Administrative Services Department. This division provides leadership, policy development, administrative and technical support, career development, and training opportunities.

MAJOR PROGRAM CHANGES

- General Operating Fund:

Senior Management Analyst position: $169,500

Provides funding for a Senior Management Analyst position. This position will perform a variety of duties to support the increased demand for financial analysis of the department and Citywide.

Project Sentinel: $10,000

Provides increased ongoing funding for a total of $25,000 for Project Sentinel. At the direction of the City Council, this program is no longer funded through the CDBG/nonprofit agency funding process. Fiscal Year 2015-16 included $10,000 limited-period funding. This is for baseline services, not the new rental dispute process.

Audit Services: $5,000

Provides increased funding for external auditing services. The cost of the City's external auditors' services has increased gradually over time. The City issued a Request for Proposals for auditing services and the new fees are slightly higher than the City's previous auditors' fees.

PERS Replacement Benefit: $3,500

Provides funding for certain retiree payments due to the change in the processing of PERS replacement benefits.

2-1-1 Santa Clara County United Way Silicon Valley: $2,500

Provides funding to support the 2-1-1 SCC United Way. 2-1-1 is a regional service to provide multilingual referrals for a wide range of community services.

Return to Previous

- General Non-Operating Fund:

  Nonprofit Agency Funding (limited-period): $21,100

  Provides continued (Year 2 of funding cycle) limited-period funding to nonprofit agencies as identified by Council at the CDBG hearing on April 19, 2016.

  Purchase Card Transaction Review (limited-period): $20,000

  Provides funding for an outside consultant to review departments' compliance with purchasing card policies.

  Nonprofit Funding – Housing Trust Boomerang Funds (limited-period): $10,000

  Provides continued (Year 2 of funding cycle) limited-period funding to the Community Services Agency (CSA) and LifeMoves to increase services to the homeless population in the City.

PROGRAM MANAGER – ASSISTANT FINANCE AND ADMINISTRATIVE SERVICES DIRECTOR

PROGRAM OVERVIEW

The Financial Management Division consists of the Budget and Analysis, Treasury, Payroll, and Revenue Sections.

The Budget and Analysis Section provides information and analytical support to the City Council and other City departments as requested. This section analyzes economic trends, forecasts revenues, and monitors expenditures and balances for the current fiscal year as well as future fiscal years. In addition, Budget and Analysis manages the budget system and produces periodic financial status reports, including the Narrative, Proposed, and Adopted Budget documents.

The Treasury Section is responsible for cash flow and management of the City's investment portfolio.

The Payroll Section processes timecards; payroll documents and biweekly payroll for all City employees; and prepares reports relating to retirement, insurance benefits, deferred compensation, and payroll taxes.

The Revenue Section processes billing and collection for the City's water, wastewater, and solid waste utilities; business licenses; and miscellaneous accounts receivable. All moneys due to, or collected by, other City departments are forwarded to this section for deposit and tracking in the City's financial system. In addition, this section is the Finance and Administrative Services Department's primary customer service contact point.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  Online Payment Processing: $99,000

  Provides funding for payment processing costs to implement accepting payments online for business licenses, multi-family housing, and miscellaneous accounts receivable.

- General Non-Operating Fund:

  Transient Occupancy Tax Compliance Audit (limited-period): $35,000

  Provides funding for an audit of the City's hotels and motels to ensure compliance with the City's Transient Occupancy Tax Ordinance.

  Customer Service Representative (Hourly) (limited-period): $30,000

  Provides funding for an hourly position to assist with the coverage at the front counter. The hourly help will provide coverage for the regular Customer Service Representative position during the morning break and lunch hour in order to minimize disruption to other staff and the public.

Return to Previous

- Water Fund:

  Utility Online Payment Processing**:** $15,000

  Provides increased funding for credit card payment processing costs associated with an increase in usage of online Utility Services payments.

PROGRAM MANAGER – ACCOUNTING MANAGER

PROGRAM OVERVIEW

The Accounting Division manages and maintains the general accounting and financial records of the City. This division is also primarily responsible for coordinating the independent audit of the City's financial records and preparation of the Comprehensive Annual Financial Report and other required State reports. The Accounts Payable Section of this division matches and reconciles all invoices, purchase requisitions, purchase orders, contracts, and agreements prior to processing payments for City obligations.

PROGRAM MANAGER – PURCHASING AND SUPPORT SERVICES MANAGER

PROGRAM OVERVIEW

The Purchasing and Support Services Division manages purchasing and support services activities of the City.

The Purchasing Section assures acquisition of price-competitive equipment, services, and supplies for City departments. Other services include issuing requests for bid; vendor selection; equipment, supplies, and mail delivery; warehousing of operating inventories; and sale of surplus equipment.

The Support Services Section provides building management, document processing, graphic design, printing, document reproduction, mail distribution, and other support services to City departments.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  Senior Management Analyst Position: $169,500

  Converts a limited-term Senior Management Analyst position to ongoing to assist with the monitoring of prevailing wage compliance, implementation of purchasing process improvements, and other workload demands.

  Buyer Position (0.25): ($37,800 offset by $34,000 from a 0.50 FTE Vacant Copy Center Assistant Position): $3,800

  Provides funding for 0.25 FTE of a Buyer position, adding to an existing 0.75 FTE position. This increase will provide additional Purchasing resources. Total cost of $37,800 is offset by the net of the elimination of the 0.50 FTE vacant Copy Center Assistant position and added Copy Center Assistant hours.

PROGRAM MANAGER – RISK MANAGER

PROGRAM OVERVIEW

Risk Management is responsible for managing the City's loss control and risk reduction programs. The City's risk exposures are managed by self-insuring or acquiring insurance, requiring vendors to have insurance and assisting in the maintenance of a safe workplace. This program encompasses the City's comprehensive general liability; property; property loss recovery; loss control; Workers' Compensation; industrial disability retirement; and unemployment programs, including the City's self-insurance reserves and excess catastrophic insurance coverage. Risk Management is also responsible for State and OSHA reports and provides guidance to City departments in determining insurance requirements for contracts.

MAJOR PROGRAM CHANGES

- General Non-Operating Fund:

  Safety Training Study (limited-period): $40,000

  Provides funding to perform a Citywide Safety Training Study. The study would provide for information on Best Practices, review resources available, and recommend a safety program appropriate for the City.

- Workers' Compensation Fund:

  Workers' Compensation Excess Insurance: $83,000

  Provides increased funding for Workers' Compensation excess insurance. The increased cost is related to increased overtime, payroll, as well as loss experience.

COMMUNITY DEVELOPMENT
DEPARTMENT SUMMARY

DEPARTMENT MANAGER—COMMUNITY DEVELOPMENT DIRECTOR

DEPARTMENT MISSION STATEMENT

To provide land use, building development, neighborhood protection, economic development, and environmental policy services.

DEPARTMENT OVERVIEW

The Community Development Department is responsible for the review of development and building activity to ensure compliance with zoning and building codes, the achievement of economic development goals, General Plan policies, the California Environmental Quality Act (CEQA), housing policies, and community values. The department assists the community in establishing land use and neighborhood plans and ensures the quality of new projects through the design and development review process. The department staffs the Environmental Planning Commission (EPC), the Council Neighborhoods Committee, the Downtown Committee, and the Visual Arts Committee in addition to establishing and maintaining communications with citizens, developers, businesses, other governmental agencies, and City departments. The department also provides technical and policy support to the City Manager and other departments.

DEPARTMENT FUNCTIONS

- Ensure quality development that is sensitive to community goals and consistent with City standards.
- Respond promptly to individual applications or Environmental Planning Commission-/City Council-initiated General Plan and Zoning Ordinance amendments and Precise Plan changes. (M 1)
- Provide support for the comprehensive planning efforts of citizens, City Council, and the Environmental Planning Commission. (M 1)
- Provide timely, professional assistance with the review of proposed subdivision applications and development applications for Administrative Zoning and Subdivision Committee hearings.
- Provide zoning and planning information to the public in a timely, complete, accurate, and courteous manner. (M 1)
- Provide a foundation for long-range planning activities by maintaining comprehensive databases on land use, demographics, and economics.
- Retain existing businesses and attract new businesses throughout the City. (M 2)
- Provide staff support to the Downtown Committee and the Visual Arts Committee.
- Implement economic development strategies. (M 2)
- Manage affordable housing programs that include the Below-Market-Rate (BMR) program and new affordable housing projects, and oversight of Federally subsidized units. (M 3)

Return to Previous

- Provide staff support to the Council Neighborhoods Committee and neighborhood programs.
- Continue to implement the Neighborhood Preservation Strategy by managing the Council Neighborhoods Committee's Neighborhood Grant Program, neighborhood meetings, and neighborhood networking event.
- Assist the City Council in allocating CDBG/HOME funding and monitor the use of these funds in compliance with Federal regulations. (M 3)
- Maintain the efficiency of the City's plan review and permit system, and building fire life safety inspection elements of the City's development review process, while integrating the requirements of City departments and other public agencies with community service goals. (M 4, 5)
- Coordinate development from design review through construction.
- Support code enforcement efforts.

MAJOR DEPARTMENTAL GOALS/PROJECTS/INITIATIVES FOR FISCAL YEAR 2016-17

*(Items in **bold** are tied to Fiscal Years 2015-16 and 2016-17 Major Council Goals; items in **bold italics** are new Major Council Goals for Fiscal Year 2016-17)*

- **Complete the work of amending the North Bayshore Precise Plan to include residential uses.**
- **Continue to prepare the East Whisman Precise Plan, including consideration of residential uses.**
- **Continue to support the launch of a Community Choice Energy Program.**
- **Review the Climate Protection Roadmap, Municipal Operations Climate Action Plan, and Greenhouse Gas Reduction Program; conduct a cost-benefit analysis of the actions; solicit Council Environmental Sustainability Committee and public feedback; and propose and adopt Environmental Sustainability Action Plan-3.**
- **Develop an Environmental Sustainability Action Plan-3 implementation plan (including goals/ milestones).**
- **Implement the Urban Forestry Management Plan for tree preservation and planting, canopy, and habitat preservation, in conjunction with the Community Services Department.**
- **Continue to prepare a Multimodal Improvement Plan as required by the Congestion Management Agency.**
- ***Prepare code amendment to require installation of dual plumbing for new construction projects, in conjunction with Public Works Department.***
- ***Develop and implement rent relief programs, as directed by Council.***
- ***Continue to provide staff support for the three Notice of Funding Availability (NOFA) affordable housing projects during the funding reservation, design, and entitlement process.***

Return to Previous

- Continue to work on the development of City-owned properties in downtown (Lots 4, 8, and 12), in conjunction with the City Attorney's Office and the Finance and Administrative Services Department.
- Develop and implement parking strategies for the downtown public parking lots and structures.
- Begin preparation of soft-story building seismic retrofit study.
- Continue implementation of the El Camino Real, North Bayshore, and San Antonio Precise Plans.
- Continue to expand one-stop plan check services.
- Begin to develop and implement action items related to the employee engagement survey results.

2. Number of contacts with businesses interested in relocating or expanding in Mountain View	50	60	50	62	50
Neighborhood Preservation:					
3. Percent of Federally funded contracts carried out in compliance with City and Federal requirements	100%	100%	100%	100%	100%
Building Inspection:					
4. Percent of time where City provides 24-hour building inspection response for those inspection requests received by 3:00 p.m. on weekdays	100%	100%	>95%	100%	>95%
5. Percent of time that City meets five-day turnaround plan check for all Fast Track submittals that meet building inspection criteria	88%[B]	91%	>90%	79%[C]	>90%

[A] Planning received 1,855 on-time comments out of 2,616 items.
[B] Lower due to high volume of submittals and staffing vacancies. For Fiscal Year 2015-16, Planning received 949 on-time comments out of 1,683 items. Target reduced for Fiscal Year 2016-17.
[C] Lower due to high volume of submittals and staffing vacancies, in addition to the expansion of the Fast Track process, which now requires coordination with other divisions and departments.

PROGRAM MANAGER – ASSISTANT COMMUNITY DEVELOPMENT DIRECTOR/PLANNING MANAGER

PROGRAM OVERVIEW

Planning participates in long-range local and regional planning activities and is responsible for all matters concerning the implementation of the Zoning Ordinance, including the issuance of use permits, variance requests, and planned-unit development permits. This division assembles community data; develops and maintains the City's General Plan, precise plans, and Zoning Ordinance; reviews and administers zone change proposals; provides primary staffing to the EPC; reviews private development projects for design and compliance with the Zoning Ordinance; is responsible for CEQA review and subdivision design; and provides information to the public on regulations, zoning codes, and development projects. This division provides information for private-sector businesses, investors, and developers considering locations in Mountain View, and participates in early discussions with people considering new development or uses in the City. The division also holds hearings on proposed projects through the Development Review Committee and the Zoning Administrator.

MAJOR PROGRAM CHANGES

- General Non-Operating Fund:

  Soft-Story Building Study (rebudget): $175,000

  Rebudgets funding for a study on soft-story buildings that could be at risk of collapse from an earthquake in the City and propose potential programs and incentives that could be adopted to retrofit these structures. The total funding of $350,000 is allocated between the General Non-Operating, Development Services, and Below-Market-Rate Housing Funds.

  Housing Element Update (rebudget balance): $110,300

  Rebudgets the balance available to implement action items required by the mandated new Housing Element adopted October 2014.

  Silicon Valley Clean Energy Authority (SVCEA) (rebudget balance): $100,000

  Rebudgets the balance of funding approved by Council on January 12, 2016 for the Community Choice Energy Program.

  Environmental Sustainability Analyst (Hourly) (limited-period) $40,000

  Provides funding for assistance with the implementation of the City's Climate Protection Roadmap (CPR), the Municipal Operations Climate Action Plan (MOCAP), Environmental Sustainability Action Plan, as well as assistance with ongoing projects and grant opportunities.

Return to Previous

2015 Greenhouse Gas (GHG) Inventory (limited-period) $35,000

Provides funding of $20,000 for consultant services to conduct the 2015 municipal operations and $15,000 for communitywide GHG inventory in order to report on the GHG reduction targets.

- Development Services Fund:

Senior Planner Position: $166,000

Converts a limited-term Senior Planner position to ongoing to support the high level of development activity.

Associate Planner Position (limited-period): $153,000

Provides continuation funding for a limited-term Associate Planner position. This position improves customer service at the counter, increases the number of over-the-counter "One Stop" permits that can be issued, and potentially increases the counter hours.

SB 743 – Transit-Oriented Infill Projects (limited-period): $50,000

Provides funding for consultant services to assist the City with developing thresholds of significance related to the implementation of CEQA's new vehicle miles traveled (VMT) standards. SB 743 requires CEQA analysis of transportation impacts to move from LOS (level of service) to VMT standards.

Document Processing Support (rebudget): $42,300

Rebudgets funding for an hourly position to assist Document Processing with additional workload related to the North Bayshore studies and other development activity.

Legal Retainer (rebudget balance): $15,000

Rebudgets the balance for legal consultation on land use law and California Environmental Quality Act (CEQA) issues associated with State Density Bonus Law; implementation of the Precise Plan, and regional efforts such as the Valley Habitat. The total funding of $20,000 is allocated between the Development Services and Shoreline Community Funds.

Precise Plan Noticings (rebudget): $12,000

Rebudgets funding for noticing the East Whisman Precise Plan. The notices are mailed to the Precise Plan areas to notify residents of Study Sessions, Public Hearings, and neighborhood meetings.

Return to Previous

- Shoreline Regional Park Community Fund:

  Precise Plan Implementation – District Utilities Feasibility Study (rebudget): $50,000

  Rebudgets funding to conduct a study involving cost/benefit analysis for a district-scale utility system. This item is part of the North Bayshore Precise Plan Implementation.

  Precise Plan Implementation – Consulting Arborist (rebudget): $30,000

  Rebudgets funding to assist with the analysis required for the replacement of the larger trees in the Precise Plan area. This item is part of the North Bayshore Precise Plan Implementation.

  Legal Retainer (rebudget balance): $5,000

  Rebudgets the balance for legal consultation on land use law and California Environmental Quality Act (CEQA) issues associated with State Density Bonus Law, implementation of the Precise Plan, and regional efforts such as the Valley Habitat. The total funding of $20,000 is allocated between the Development Services and Shoreline Community Funds.

PROGRAM MANAGER – ECONOMIC DEVELOPMENT MANAGER

PROGRAM OVERVIEW

Economic Development is responsible for the Citywide economic development program. Economic Development staff serves as a primary contact and liaison with prospective new businesses that may need assistance in finding and developing an appropriate site. Another key function is retaining existing businesses by responding to situations where a business may need to expand or relocate. The program includes outreach efforts such as the corporate visitation program and regional economic development programs.

The Economic Development Division is also responsible for staffing the Downtown Committee and works closely with downtown businesses, property owners, and developers. The division is responsible for recruitment and retention of downtown businesses, the review of public and private projects in the downtown, coordination for the continued improvement and maintenance of the downtown, and for implementation of the Downtown Precise Plan.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  PG&E Cost Increase: $3,500

  Provides increased funding for PG&E's annual rate increase (the total PG&E cost increase for all funds Citywide is $152,500).

- General Non-Operating Fund:

  El Camino Real Light Pole Banners (limited-period): $40,000

  Provides funding to create and install new City banners on El Camino Real. The banners will create a consistent look that will identify the City's boundaries and promote the City.

  Parking Coordinator Consultant (rebudget): $20,000

  Rebudgets funding for a Parking Coordinator Consultant to help manage a number of Citywide parking initiatives. The total funding of $70,000 is allocated between the General Non-Operating and Downtown Benefit Assessment Districts Funds.

- Downtown Benefit Assessment Districts Fund:

  Parking Technology Enhancements (limited-period): $ 75,000

  Provides funding for the third phase of the Downtown Parking Technology Study. The funding will be used to expand the real-time wayfinding signs to parking lots

Return to Previous

and parking enforcement technology to assist with the Police Department's parking enforcement efforts.

Third Parking Structure Feasibility Study (rebudget): $75,000

Rebudgets funding to begin a study to identify a potential location for a third parking structure or evaluate other alternatives to increase available parking in the downtown area. This is on hold pending the outcome of the Request for Proposals for the Hope Street lots.

Parking Coordinator Consultant (limited-period): $ 50,000

Provides funding for consultation services on parking programs and policies associated with the Parking District. The consultant will assist with designing and implementing programs that increase parking availability and convenience by managing the different parking user groups more efficiently. In addition, consultant support is needed for the possible expansion of the Parking District and changes to the Parking In-Lieu Fee.

PROGRAM MANAGER – HOUSING AND NEIGHBORHOOD SERVICES MANAGER

PROGRAM OVERVIEW

Neighborhood Preservation handles a variety of neighborhood and housing-related issues, including affordable housing information, the Below-Market-Rate Housing Program, a volunteer mediation program for neighborhood and tenant/landlord disputes, and other activities that support a variety of housing opportunities and promote quality neighborhoods. It is also responsible for staffing the Council Neighborhoods Committee that holds neighborhood meetings throughout the City.

This division also administers the Community Development Block Grant (CDBG) and HOME Federal funds allocated to the City by the U.S. Department of Housing and Urban Development (HUD). These grant funds benefit primarily low- and moderate-income citizens by funding affordable housing projects and community services and improvements.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  Rental Housing Dispute Resolution Program (offset by $110,000 in fees): $110,000

  Provides funding for contracting services to administer the City's Rental Housing Dispute Resolution Program adopted on April 26, 2016.

  Noticing for Housing Projects and Programs: $ 3,000

  Provides increased funding for noticing expenditures for affordable housing policies and the Council Neighborhoods Committee programs.

- General Non-Operating Fund:

  Rent Relief Strategies (rebudget balance): $22,600

  Rebudgets the balance of funding approved by Council on February 9, 2016 for noticing and outreach of rent relief strategies.

  Employee Homebuyers Program Administration (rebudget): $5,000

  Rebudgets funding for materials and services related to the Employee Homebuyers Program.

- Below-Market-Rate (BMR) Fund:

  1701 West El Camino Real Affordable Housing Project (rebudget): $2,000,000

  Rebudgets the funding approved by Council on June 21, 2016 for the affordable housing development at 1701-1707 West El Camino Real.

Return to Previous

Employee Homebuyers Program Loans (rebudget): $1,000,000

Rebudgets funding for the Employee Homebuyers Program approved by Council during Fiscal Year 2008-09. This funding will only be available to employees that meet the median household income requirement.

779 East Evelyn Avenue Affordable Housing Project (rebudget balance): $550,000

Rebudgets the balance of funding approved by Council on March 1, 2016 for the 779 East Evelyn Avenue Affordable Housing Project.

Rent Assistance Program (limited-period): $200,000

Provides funding for a rent increase gap assistance program to be administered by the Community Services Agency (CSA). On December 1, 2015, Council approved an appropriation of $150,000 to fund this program for Fiscal Year 2015-16. The City currently funds $70,000 annually for a volunteer mediation program. The additional funding will allow CSA to provide a higher level of service and assistance to Mountain View renters who are having difficulties due to high rent increases over the past few years.

Soft-Story Building Study (rebudget): $87,500

Rebudgets funding for the allocation to the BMR Fund for a study on soft-story buildings that could be at risk of collapse from an earthquake in the City and propose potential programs and incentives that could be adopted to retrofit these structures. The total funding of $350,000 is allocated between the General Non-Operating, Development Services, and Below-Market-Rate Housing Funds.

Monitoring of Federal-Funded Subsidized Housing Developments (rebudget): $50,000

Rebudgets funding for consultant services to perform required monitoring of Federal-funded subsidized housing developments over a three-year period.

Employee Homebuyers Program Administration (rebudget): $20,000

Rebudgets funding for materials and services related to the Employee Homebuyers Program.

Homeless Census Count (limited-period): $6,000

Provides funding for a Countywide homeless census count. Every other year, the City contributes funds towards the homeless census count performed by the County.

Return to Previous

- Housing Impact Fund:

  1701 West El Camino Real Affordable Housing Project (rebudget): $3,978,400

  Rebudgets the funding approved by Council on June 21, 2016 for the affordable housing development at 1701-1707 West El Camino Real.

  1701 West El Camino Real NOFA Predevelopment (rebudget balance): $117,800

  Rebudgets the balance of funding approved by Council on October 20, 2015 for the Palo Alto Housing NOFA Proposal—1701 West El Camino Real.

  779 East Evelyn Avenue NOFA Predevelopment (rebudget balance): $102,700

  Rebudgets the balance of funding for predevelopment costs related to the 779 East Evelyn Avenue NOFA project.

  Notice of Funding Availability (NOFA) Administration (limited-period): $40,000

  Provides funding for a variety of tasks associated with affordable housing projects, including facilitators at neighborhood meetings, financial consultants for a budget analysis of NOFA proposals, and studies on unique site issues.

- Rental Housing Impact Fund:

  1701 West El Camino Real Affordable Housing Project (rebudget): $1,000,000

  Rebudgets the funding approved by Council on June 21, 2016 for the affordable housing development at 1701-1707 West El Camino Real.

PROGRAM MANAGER – CHIEF BUILDING OFFICIAL

PROGRAM OVERVIEW

The Building Inspection Division, which includes new construction fire prevention functions, along with the Planning Division, helps provide the community a true "one-stop" service for development-related activities. The division is primarily responsible for the review of all building construction-related applications for conformance to the adopted Uniform Building Code and Municipal Code to ensure safe and habitable structures within the City. The Building Inspection Division inspection services help to ensure conformance to the adopted codes and adherence to the approved construction plans. Building staff is also a valuable resource to the community and City staff for building, fire, plumbing, electrical, mechanical, State, and Federal-related code questions, interpretations, and guidance.

MAJOR PROGRAM CHANGES

- Development Services Fund:

  Permit Technician Position: $132,600

  Provides funding for a Permit Technician position. This position will provide additional resources needed to the permitting process as a result of the continuing high levels of permitting activity.

  Web Enable Mountain View Permitting System (MPVS) (limited-period) $110,000

  Provides funding for the web enabling of the current building database. This will allow inspectors to log inspections on a smart phone or other mobile device while in the field and update the database as their day progresses. Other departments and divisions will also have access to information on existing building and fire permits, and plan checks.

  Office Assistant I/II Position: $100,800

  Provides funding for an Office Assistant I/II position. This position will help to alleviate the increase in workload and provide essential clerical functions to the department.

  Soft-Story Building Study (rebudget): $87,500

  Rebudgets funding for the allocation to the Development Services Fund for a study on soft-story buildings that could be at risk of collapse from an earthquake in the City and propose potential programs and incentives that could be adopted to retrofit these structures. The total funding of $350,000 is allocated between the General Non-Operating, Development Services, and Below-Market-Rate Housing Funds.

Return to Previous

One-Stop Permit Center Architectural Study (rebudget): $75,000

Rebudgets funding for an architectural study of the feasibility of a one-stop permit center.

New Code Adoption Materials (limited-period): $17,000

Provides funding to purchase new sets of code books for staff and a set for the City Library. On a triannual basis, the State of California adopts a new series of codes that the Building Inspection Division is required to learn and apply during plan check and inspections. Additional funds are needed to purchase both the hard copy and electronic versions of the new code books. Electronic versions are needed to enable access via smart phones or other mobile devices.

PUBLIC WORKS
DEPARTMENT SUMMARY

DEPARTMENT MANAGER—PUBLIC WORKS DIRECTOR

DEPARTMENT MISSION STATEMENT

Plan, design, review, construct, operate, maintain, and improve the City's infrastructure, facilities, utilities, fleet, property, and equipment.

DEPARTMENT OVERVIEW

The Public Works Department plans, designs, reviews, constructs, operates, maintains, and improves the City's infrastructure, facilities, utilities, fleet, property, and equipment; administers the City's Solid Waste Management, Real Estate Management, and Grant programs; provides traffic engineering and transportation planning services; and permits private developments in the public right-of-way.

DEPARTMENT FUNCTIONS

- Represent the City's interest in local and regional public works studies and projects, and encourage the highest design and environmental quality in public and private improvements.
- Manage the City's participation in the National Flood Insurance Program.
- Manage the acquisition, lease, and disposal of City real property.
- Meet State-mandated solid waste landfill diversion goals by maximizing commercial and residential recycling. (M 1)
- Represent the City in matters relating to, and provide for, solid waste collection and disposal.
- Manage and implement the City's annual Capital Improvement Program. (M 2, 3)
- Ensure the design and construction of programmed capital projects remain on schedule and within budget. (M 3)
- Review, evaluate, and regulate private and public development and construction in the public right-of-way in conformance with the City's General Plan, ordinances, and policies. (M 4, 5)
- Review maps and plans of proposed private developments and assist developers, consultants, engineers, and the public in complying with the City's conditions of approval for private developments. (M 4, 5)
- Manage the processing of private developments, utility company projects, and encroachment and excavation permits.
- Provide for safe, efficient, and convenient circulation of vehicle, bicycle, and pedestrian traffic within the community.
- Maintain traffic-related records, conduct surveys, and perform studies as necessary for analysis of traffic problems, and develop and implement mitigation measures when appropriate.

Return to Previous

- Manage the City's facilities maintenance and improvement efforts to ensure safe and aesthetically pleasing facilities, and provide project management and contract administration services. (M 7)
- Maintain and assist in the procurement of the City's vehicle and equipment fleet. (M 8, 9)
- Manage occupational safety programs and practices in the Public Works and Community Services Departments.
- Operate and maintain the recycled water supply and distribution system.
- Operate and maintain wastewater collection and discharge systems. (M 10, 11)
- Operate and maintain the City's potable water supply and distribution system. (M 12, 13)
- Monitor water quality and ensure compliance with all regulations. (M 13)
- Manage the City's water purchases and consumption to meet State water conservation goals and supply contract minimum purchase requirements.
- Represent the City in regional transportation issues and congestion management planning.
- Continue to monitor regional transportation projects and coordinate with local, regional, and State transportation agencies.
- Maintain public streets, sidewalks, parking lots, streetlight systems, and traffic-control measures, including traffic signals. (M 6)
- Operate and maintain the landfill cap, gas and leachate collection systems, gas wells, flare station, and landfill gas-fueled microturbines. (M 14)
- Manage shopping cart collection and graffiti abatement activities.
- Continue providing landscaping selection assistance, irrigation Best Management Practices guidance, and on-site support to recycled water system customers.

MAJOR DEPARTMENTAL GOALS/PROJECTS/INITIATIVES FOR FISCAL YEAR 2016-17

*(Items in **bold** are tied to Fiscal Years 2015-16 and 2016-17 Major Council Goals; items in **bold italics** are new Major Council Goals for Fiscal Year 2016-17)*

- **Continue Sewage Pump Station and Landfill Flare Station microturbine maintenance and repairs.**
- **Continue Shoreline at Mountain View Master Plan project, in conjunction with the Community Services Department.**
- **Complete construction of Heritage Park at 771 North Rengstorff Avenue, in conjunction with the Community Services Department.**

Return to Previous

- **Continue efforts to support the exploration and development of a potential automated guideway or other innovative transit system for the Downtown Transit Center to North Bayshore Area corridor.**
- **Design and construct East Whisman Area transportation-oriented development (TOD) improvements.**
- **Conduct Latham Street/Church Street Bike Boulevard study.**
- **Install Calderon Avenue bike lane—Phase I (Villa Street to Mercy Street).**
- **Design, permit, and construct Castro Street/Moffett Boulevard/Central Expressway intersection near-term improvements.**
- **Complete the Transit Center Master Plan.**
- **Conduct Permanente Creek Trail Extension—West Middlefield Road to McKelvey Park Feasibility Study, in conjunction with the Community Services Department.**
- **Design and construct Shoreline Boulevard interim bus lane and utility improvements.**
- **Conduct feasibility study of Charleston Road improvements.**
- **Conduct preliminary design of Shoreline Boulevard bicycle/pedestrian bridge over Highway 101 (dependent on development of Gateway site).**
- ***Continue to support Palo Alto's feasibility study of recycled water advanced treatment.***
- ***Manage the recycled water program to improve water quality, maximize water use, expand the City's distribution system, and participate in efforts to develop a regional distribution system.***
- ***Consider other bicycle and pedestrian mobility improvements that are low-cost and easily implementable.***
- ***Continue planning and design of utility and transportation infrastructure improvements to support North Bayshore development.***
- ***Explore bike share program options and solutions.***
- ***Develop Castro Street bike lane study.***
- ***Prepare code amendment to require installation of dual plumbing for new construction projects, in conjunction with the Community Development Department.***
- Update the utility system base maps (701 maps) to support a water, sewer, and storm drainage operations modeling system and a Computerized Work Order Management System, in conjunction with the Information Technology Department.
- Begin construction of modifications to Castro Street between El Camino Real and Miramonte Avenue.

Return to Previous

- Resurface segments of Rengstorff Avenue, Old Middlefield Way, and Charleston Road and install new bike lanes on Charleston Road.
- Coordinate with the Mountain View Whisman School District on the construction of Permanente Creek Trail, Rock Street to Middlefield Road, and the Crittenden Field improvements, in conjunction with the Community Services Department.
- Construct Permanente Creek Trail undercrossing improvements at Amphitheatre Parkway, in conjunction with the Community Services Department.
- Begin park irrigation improvement projects, including replacements at Shoreline Park, in conjunction with the Community Services Department.
- Begin the park restroom renovations project, in conjunction with the Community Services Department.
- Complete design of the Community Center renovation and expansion, in conjunction with the Community Services Department.
- Continue to monitor and participate in the Santa Clara Valley Water District's Permanente Creek flood protection project (including the construction of McKelvey Park/Ball Field and Schaefer Park), in conjunction with the Community Services Department.
- Complete the design phase of the project to enhance Children's area improvements at the Library, in conjunction with the Library Services Department.
- Begin to develop and implement action items related to the employee engagement survey results.

PERFORMANCE/WORKLOAD MEASURES

	2013-14 Actual	2014-15 Actual	2015-16 Target	2015-16 Actual	2016-17 Target
Transportation and Business Services:					
1. Pounds of disposed waste per person per day	3.7	3.7	<7.8	3.8	<7.8
Engineering:					
2. Percent of construction projects completed with less than 10.0 percent time increase over the original contract award	100%	100%	>85%	92%	>85%
3. For capital improvement projects, the percentage of times the low bid is within 25.0 percent of the Engineer's Estimate	80%	90%	>75%	58% (A)	>75%
4. Percent of time all tentative maps and private development applications are reviewed within the departmental standard review time	91%	78% (B)	>85%	74% (C)	>85%
5. Percent of time building plans are reviewed within the departmental standard review time	98%	87% (D)	>90%	90% (E)	>90%

Return to Previous

	2013-14 Actual	2014-15 Actual	2015-16 Target	2015-16 Actual	2016-17 Target
6. Pavement condition index (PCI) for asphalt (Metropolitan Transportation Commission rating scale of 0-100, 70-100 being very good)	69[F]	69[F]	>75	68[F]	>75
Fleet and Facilities:					
7. Percent of Facilities Division work orders completed in 30 days or less	91%	96%	>85%	92%	>95%
8. Percent of Fleet Division work orders completed in 30 days or less.		New for FY15-16	>85%	99%	>95%
9. Percent of time frontline fleet units are available (Public Services and Community Services field vehicles)	97%	98%	>90%	98%	>95%
Public Services:					
10. Number of feet of sewer mains cleaned	687,098	600,630	>550,000	766,426	>500,000
11. Total number of sanitary sewer overflows	1	10[G]	<6	1	<6
12. Total number of water main breaks	8[H]	9[H]	<6	4	<6
13. Total number of water quality reportable events	1	1	<10	1	<10
14. Total number of air and/or water quality reportable events at the closed landfills	0	1	<4	0	<4

[A] In Fiscal Year 2015-16, seven out of twelve projects were within 25 percent of Engineer's Estimate. For the remaining five projects, the low bid was more than 25 percent lower than Engineer's Estimate.

[B] Two hundred nine (209) out of 327 excavation permits, and 285 out of 303 planning commentaries were reviewed within the standard time. The increase in review time was due to an increase in the amount and complexity of the workload performed by existing staff resources. For Fiscal Year 2015-16, the Land Development on-call professional services contract was increased and one additional Land Development City staff position was added to address the workload increase.

[C] Two hundred nineteen (219) out of 324 excavation permits, and 272 out of 343 planning commentaries were reviewed within the standard time. The increase in review time was due to an increase in the amount and complexity of the workload performed by existing staff resources. The additional staffing resources added for Fiscal Year 2015-16 have not been fully filled.

[D] Four hundred twenty-four (424) out of 487 building plan sets were reviewed within the standard time. The increase in review time was due to an increase in the amount and complexity of the workload performed by existing staff resources. For Fiscal Year 2015-16, the Land Development on-call professional services contract was increased and on additional Land Development City staff positon was added to address the workload increase.

[E] Four hundred fifty-five (455) out of 505 building plan sets were reviewed within the standard time.

[F] Staff is evaluating the PCI report and will likely request additional street maintenance funding in future Capital Improvement Programs. For Fiscal Year 2015-16, additional funds of approximately $500,000 per year have been added to the Annual Resurfacing and Slurry Seal capital improvement project over the next five years to address the recent drop in PCI.

[G] The increase in sanitary sewer overflow during Fiscal Year 2014-15 is a result of aging pipe infrastructure as well as limited staff resources due to vacancies.

[H] The water main breaks occurred on aging pipes.

*1 In addition there is a limited-period Senior Civil Engineer position for the duration of the Google Reimbursement Agreement, a limited-period Mobility Coordinator position, three limited-period Jr/Asst/Associate Civil Engineer positions, and a limited-period 0.25 FTE Project Manager position.

*2 Reclassified a 0.50 FTE Project Manager position to a 0.50 FTE Senior Project Manager.

*3 Transferred the Environmental Sustainability Coordinator position to the Community Development Department.

*4 Added three Jr/Asst/Associate Civil Engineer positions.

*5 In addition there is a limited-period Senior Civil Engineer position for the duration of the Google Reimbursement Agreement, a limited-period Mobility Coordinator position, four limited-period Jr/Asst/Associate Civil Engineer positions, and a limited-period 0.25 FTE Project Manager position.

*6 Midyear reclassification of a 0.50 FTE Senior Project Manager to 1.0 FTE Senior Project Manager.

*7 Midyear reclassification of a limited-period Mobility Coordinator position to a regular Transportation Planner position.

*8 Midyear title change from Senior Administrative Analyst to Senior Management Analyst.

*9 Midyear reclassification of two Water System Operator positions to Senior Water System Operator positions.

*10 Transferred a Systems Coordinator/Technician position to the Information Technology Department.

*11 In addition there is a limited-period Senior Civil Engineer position for the duration of the Google Reimbursement Agreement, seven limited-period Jr/Asst/Associate Civil Engineer positions, and a limited-period 0.50 FTE Program Assistant position.

PROGRAM MANAGER – TRANSPORTATION AND BUSINESS MANAGER

PROGRAM OVERVIEW

Transportation Management reviews, analyzes, and evaluates City and regional transportation issues, studies, programs, and policies that impact the City, developing recommendations for improvements. Transportation Management is the liaison and advocate for City positions with County, regional, and State agencies involved in transportation planning and provides support to the Council Transportation Committee, Council Rail Corridor Committee, and the Bicycle/Pedestrian Advisory Committee. This division is also responsible for developing, updating, and promoting City programs, policies, and projects to improve pedestrian and bicycle mobility. Other responsibilities include developing the department's operating budget and financial reports, contract management, grant applications and monitoring, and providing clerical support to Public Works Department operations at City Hall.

Property Management manages appraisals, sales, and acquisitions of City property and monitors the department's grant compliance.

Solid Waste Management develops and implements residential/commercial waste reduction and recycling programs and manages waste disposal and SMaRT® Station recycling contracts.

MAJOR PROGRAM CHANGES

- General Non-Operating Fund:

  Bay Area Bike Share Program (rebudget balance): $93,500

  Rebudgets the balance of funding approved by Council on May 24, 2016 for the Bay Area Bike Share Program.

- Solid Waste Fund:

  Commercial Composting Processing: $50,000

  Provides increased funding for the City's Commercial Composting Processing Program. Additional funds are needed to cover the increase in cost due to a 2.6 percent CPI and the continuing expansion of the program.

  The Resource Newsletter: $20,000

  Provides funding for the printing, design, and mailing of *The Resource Newsletter*. The newsletter was previously packaged with *The View* and *Recreation Guide*. It is recommended all three products be produced and mailed separately.

PROGRAM MANAGER – ASSISTANT PUBLIC WORKS DIRECTOR

PROGRAM OVERVIEW

Construction Engineering performs inspections for compliance with plans, specifications, regulations, ordinances, and policies pertaining to capital projects and private developments/improvements in the public right-of-way.

Capital Projects Engineering plans, directs, and coordinates the design and management of capital improvement projects, including preparing or reviewing engineering studies, surveys, designs, specifications, and contract documents.

Traffic Engineering plans, designs, and implements traffic operational improvements for the safe and convenient movement and circulation of vehicles, bicycles, and pedestrians within the City. Traffic Engineering also maintains traffic-related records, such as accidents, counts, and speeds, and conducts surveys and studies necessary to analyze traffic situations.

Land Development Engineering establishes development conditions for approval and reviews the accuracy and completeness of private development plans, specifications, plats, maps, property descriptions, and engineering calculations submitted for City approval. Land Development Engineering also assists developers, consultants, engineers, and the public in complying with Public Works Department conditions.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  PG&E Cost Increase: $5,000

  Provides increased funding for PG&E's annual rate increase (the total PG&E cost increase for all funds Citywide is $152,500).

- General Non-Operating Fund:

  Associate Civil Engineer – Traffic Position (0.45) (limited-period): $78,300

  Provides funding for a limited-term Associate Civil Engineer position (the other 0.55 FTE is funded from the Development Services and Shoreline Community Funds). The position will support the increased workload in the Traffic Engineering Section due to high levels of development activity, inquiries from the *Ask Mountain View* system, and an increased emphasis on improving the pedestrian and bicycle environment in the City.

Return to Previous

Program Assistant—Engineering Position (0.25) (limited-period): $30,500

Provides funding for a limited-term 0.50 FTE Program Assistant position (the other 0.25 FTE is funded from the Development Services Fund). The position will support the Engineering Division with organization of paper and electronic files, plans and specifications, AutoCAD files, reports, and other work products from capital improvement projects and land development projects, and report on various program activities.

Hourly Staff to Support the Capital Projects Section (limited-period): $30,000

Provides funding for hourly staff to support the Capital Projects Section. The increase in workload is mainly attributable to the high level of development activity and the existing approved Capital Improvement Program.

Hourly Staff to Support the Traffic Section (limited-period): $30,000

Provides funding for hourly staff to support the Traffic Section. The increase in workload is mainly attributable to the high level of development activity.

Associate Civil Engineer—Capital Projects Position (1.00) (limited-period)
($156,600 offset by charges to CIPs): $18,300

Provides funding for a limited-term Associate Civil Engineer position and $900 for office equipment. The position will provide project management and design services for small and large capital projects.

Assistant Civil Engineer—Capital Projects Position (1.00) (limited-period)
($152,600 offset by charges to CIPs): $16,900

Provides continuation funding for a limited-term Assistant Civil Engineer position. The position will support the increased workload in development and the existing approved Capital Improvement Program.

Assistant Civil Engineer—Land Development Position (0.05) (limited-period): $8,500

Provides continuation funding for a limited-term Assistant Civil Engineer position (the other 0.95 FTE is funded from the Development Services, Shoreline Community, Water, Wastewater, and Solid Waste Funds). The position will support the increase in workload mainly attributable to the high level of development activity.

Return to Previous

- Development Services Fund:

Consultants to Support Land Development Section (limited-period): $250,000

Provides funding for consultants to support the Land Development Section. Additional resources are needed to process the additional workload created by the high level of development activity.

Associate Civil Engineer – Construction Position (limited-period): $174,900

Provides funding for a limited-term Associate Civil Engineer position and $900 for office equipment. The position will support the increased workload in the Construction Section due to the high level of private development and related excavation permits activity.

Assistant Civil Engineer – Construction Position (limited-period): $169,500

Provides continuation funding for a limited-term Assistant Civil Engineer position. The position will support the increased workload in the Construction Section due to the high level of private development activity.

Assistant Civil Engineer – Land Development Position (0.50) (limited-period): $84,700

Provides continuation funding for the allocation to the Development Services Fund for this position as mentioned in the General Fund section above.

Associate Civil Engineer – Traffic Position (0.30) (limited-period): $52,200

Provides funding for the allocation to the Development Services Fund for this position as mentioned in the General Fund section above.

Consultants to Support Traffic Engineering Section (limited-period): $50,000

Provides continuation funding for consultants and hourly staff to support the Traffic Engineer Section. The increase in activity is mainly attributable to the approval of the three Precise Plans. The total cost of $100,000 is shared between the Development Services and Shoreline Community Funds.

Program Assistant – Engineering Position (0.25) (limited-period): $30,500

Provides funding for the allocation to the Development Services Fund for this 0.50 FTE position as mentioned in the General Fund section above.

Hourly Staff to Support the Land Development Section (limited-period): $30,000

Provides funding for hourly staff to support the Land Development Section. The increase in workload is mainly attributable to the high level of development activity.

Return to Previous

Hourly Staff to Support the Construction Section (limited-period): $30,000

Provides funding for hourly staff to support the Construction Section. The increase in workload is mainly attributable to the high level of development activity.

- Shoreline Regional Park Community Fund:

Consultants to Support Traffic Engineering Section (limited-period): $50,000

Provides funding for the allocation to the Shoreline Community Fund for this item as mentioned in the Development Services Fund section above.

Associate Civil Engineer – Traffic Position (0.25) (limited-period): $43,500

Provides funding for the allocation to the Shoreline Community Fund for this position as mentioned in the General Fund section above.

Assistant Civil Engineer – Land Development Position (0.20) (limited-period): $33,900

Provides continuation funding for the allocation to the Shoreline Community Fund for this position as mentioned in the General Fund section above.

- Water Fund:

Assistant Civil Engineer – Land Development Position (0.10) (limited-period): $17,000

Provides continuation funding for the allocation to the Water Fund for this position as mentioned in the General Fund section above.

- Wastewater Fund:

Assistant Civil Engineer – Land Development Position (0.10) (limited-period): $17,000

Provides continuation funding for the allocation to the Wastewater Fund for this position as mentioned in the General Fund section above.

- Solid Waste Fund:

Assistant Civil Engineer – Land Development Position (0.05) (limited-period): $8,500

Provides continuation funding for the allocation to the Solid Waste Fund for this position as mentioned in the General Fund section above.

PROGRAM MANAGER – FLEET AND FACILITIES MANAGER

PROGRAM OVERVIEW

Fleet Services provides safe, reliable, economical, and high-quality vehicles and equipment to City departments. This program performs vehicle and equipment services to comply with environmental and safety regulations, minimize operational and ownership costs, and maximize safety and equipment life. Fleet Services also maintains the City's inventory of alternative-fuel vehicles.

Facilities provides safe, clean, and reliable facilities for employees and their clients. The program maintains, inspects, and improves buildings to comply with environmental and safety regulations, minimize operational and ownership costs, and maximize building life.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  PG&E Cost Increase: $100,000

  Provides increased funding for PG&E's annual rate increase (the total PG&E cost increase for all funds Citywide is $152,500).

  Generator Maintenance: $45,000

  Provides increased funding for generator maintenance at multiple locations throughout the City. Generator maintenance requires a specialized skill and, due to personnel changes and an increased number of generators, the department is unable to adequately perform this crucial function with existing resources. The total cost of $91,000 is allocated between GOF, Water ($25,000), and Wastewater ($21,000) Funds.

  Janitorial Cost Increases for City Facilities: $15,000

  Provides additional funding for contractual increases to janitorial services.

  City Utility Cost Increase: $10,000

  Provides increased funding for City utility services used by City departments based on the proposed utility rate adjustment.

PROGRAM MANAGER – ASSISTANT PUBLIC WORKS DIRECTOR

PROGRAM OPERATIONS

Safety and Administration manages the occupational safety program for the Public Works and Community Services Departments, including accident and illness prevention, workplace safety training, and Public Works emergency response planning. Administration manages customer service programs, including graffiti abatement and abandoned shopping cart retrieval.

Engineering and Environmental Compliance is responsible for the design and permitting of all landfill postclosure systems and meeting regulatory guidelines for landfill maintenance and other Public Services programs. This section also administers capital improvement and miscellaneous engineering projects.

Utilities Maintenance manages the City's water and wastewater systems. The Water Operation installs, operates, and maintains the equipment and facilities to distribute approximately 10 million gallons of water per day to approximately 17,500 customers in the Mountain View service area. The Water Operation also operates and maintains the City's recycled water system. The Wastewater Operation installs, operates, and maintains the sanitary sewer and storm drain systems. Sanitary sewer activities include installing sewer laterals, cleanouts and connections, clearing sewer blockages, and pumping sewage to the Palo Alto Regional Water Quality Control Plant. Storm drain activities include cleaning storm lines and catch basins, maintaining City retention basins, and operating pump stations.

The Streets and Landfill Postclosure Maintenance Section maintains and repairs the City's improved and unimproved streets, sidewalks, curbs and gutters, bikeways, public parking lots, and parking lots at City facilities. Street Maintenance also maintains the striping and markings on streets, curbs, and public parking lots and installs, maintains, and repairs City street signs and streetlights. Landfill Maintenance operates the Flare Station, microturbines, and leachate and gas extraction system, and maintains the landfill cap.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  PG&E Cost Increase: $9,000

  Provides increased funding for PG&E's annual rate increase (the total PG&E cost increase for all funds Citywide is $152,500).

- General Non-Operating Fund:

  Pilot Program for Sidewalk Ramping and Grinding (limited-period): $46,000

  Provides funding for a pilot program to hire two hourly seasonal workers to perform sidewalk ramping and grinding operations. These additional resources will allow the Streets Division to complete an additional 1,000 locations and dedicate more resources to maintain the City's Pavement Condition Index.

Return to Previous

- Shoreline Regional Park Community Fund:

  PG&E Cost Increase: $6,000

  Provides increased funding for PG&E's annual rate increase for the Shoreline Lake (the total PG&E cost increase for all funds Citywide is $152,500).

- Water Fund:

  Associate Civil Engineer – Utilities Position (limited-period): $169,500

  Provides continuation funding for a limited-term Assistant Civil Engineer position. Additional staff resources are needed to comply with recycled water regulations and the increase in recycled water usage.

  Generator Maintenance: $25,000

  Provides increased funding for generator maintenance as mentioned in the General Operating Fund section above.

  Bay Area Water Supply and Conservation Agency (BAWSCA) Dues: $9,800

  Provides funding for the increase in dues to the City's membership in BAWSCA, which represents the interest of 25 agencies and 2 private water companies that purchase wholesale water from the San Francisco regional (Hetch Hetchy) water system operated by the SFPUC.

- Wastewater Fund:

  Generator Maintenance: $21,000

  Provides increased funding for generator maintenance as mentioned in the General Operating Fund section above.

COMMUNITY SERVICES
DEPARTMENT SUMMARY

DEPARTMENT MANAGER – COMMUNITY SERVICES DIRECTOR

DEPARTMENT MISSION STATEMENT

To create community through people, parks, and programs; provide recreational experiences; promote health and wellness; foster human development; protect environmental and open space resources; strengthen security and safety; support economic growth; facilitate community problem-solving; and strengthen community image and sense of place.

DEPARTMENT OVERVIEW

The Community Services Department is responsible for the programming and operation of the Mountain View Center for the Performing Arts; for the continued development and operation of commercial and recreational activities at the City's 750-acre Shoreline at Mountain View Regional Park; for the maintenance and operation of Shoreline Golf Links and of Stevens Creek Trail; for the maintenance of City-owned parks, roadway landscaping, and street trees; and for delivery of recreation programs and services that make Mountain View a better place to live now and in the future.

DEPARTMENT FUNCTIONS

- Assure that services provided are responsive to community needs. (M 1, 2, 3, 4, 5, 6, 7, 8, 15, 16, 17, 19, 20, 21, 22, 23, 24, 25)
- Analyze the department's services to assure they are provided in a cost-effective manner.
- Continue to monitor and evaluate use of recycled water and maintain current aesthetics and plant health.
- Provide access to performing arts facilities and provide quality service for clients/licensees. (M 2, 3, 4, 5)
- Provide entertainment opportunities for Center for the Performing Arts patrons. (M 2, 3)
- Provide education and outreach opportunities to the community.
- Comply with various regulatory agency requirements as they relate to wetlands, wildlife, and land use in the Shoreline area.
- Provide the community and visitors a safe and secure outdoor recreation experience by proper maintenance and supervision of trails, pathways, roadway/landscaped areas, turf areas, and facilities in the Shoreline and North Bayshore areas. (M 6, 10, 11, 12)
- Manage and operate the golf course in such a manner as to maximize operating revenues and control operating expenses. (M 7, 8, 9)
- Provide golfing customers an enjoyable golfing experience, including enhanced playing conditions and high levels of customer service. (M 7, 8, 9)

Return to Previous

- Manage the Urban Forestry Program, including maintenance of street, median, and park trees, and enforcement of the Heritage Tree Ordinance. (M 10, 11, 12)
- Maintain all City landscaped areas, including parks, Stevens Creek Trail, medians, roadways, vacant land, and public facilities. (M 10, 11, 12, 13, 14)
- Conduct safety inspections of all park and playground areas and equipment.
- Monitor and evaluate Recreation Cost-Recovery Policy goals as approved by the City Council.
- Continue to implement positive and constructive activities for youth.
- Provide or facilitate scheduling of youth, adult, and older adult recreation activities, sports, classes, events, and facility rentals at the Community Center, Senior Center, Teen Center, Mountain View Sports Pavilion, Whisman Sports Center, Graham Sports Complex, Shoreline Athletic Fields, Cuesta Tennis Center, historic Adobe Building and Rengstorff House, as well as various park areas and school sites. (M 15, 16, 17, 21, 22, 23, 24, 25, 26)
- Provide environmental education classes and camps at Deer Hollow Farm.
- Coordinate the City-wide volunteer program and establish effective partnerships with community-based organizations. (M 18)
- Provide a comprehensive aquatics program using Eagle and Rengstorff Pools. (M 19, 20)
- Plan, implement, and review Citywide special events.

MAJOR DEPARTMENTAL GOALS/PROJECTS/INITIATIVES FOR FISCAL YEAR 2015-16

*(Items in **bold** are tied to Fiscal Years 2015-16 and 2016-17 Major Council Goals; items in **bold italics** are new Major Council Goals for Fiscal Year 2016-17)*

- **Continue the Shoreline at Mountain View Master Plan project, in conjunction with the Public Works Department.**
- **Implement the Urban Forestry Management Plan for tree preservation and planting, canopy, and habitat preservation, in conjunction with the Community Development Department.**
- **Support the construction of Heritage Park at 771 North Rengstorff Avenue, in conjunction with the Public Works Department.**
- **Support the Permanente Creek Trail Extension—West Middlefield Road to McKelvey Park Feasibility Study, in conjunction with the Public Works Department.**
- ***Begin design and construction of new community gardens at Shoreline Boulevard/Latham Street.***
- Coordinate with the Mountain View Whisman School District on the construction of Permanente Creek Trail, Rock Street to Middlefield Road, and the Crittenden Field improvements, in conjunction with the Public Works Department.

Return to Previous

- Support the Permanente Creek Trail undercrossing improvements at Amphitheatre Parkway, in conjunction with the Public Works Department.
- Begin park irrigation improvement projects, including replacements at Shoreline Park, in conjunction with the Public Works Department.
- Begin the park restroom renovations project, in conjunction with the Public Works Department.
- Support the design of the Community Center renovation and expansion, in conjunction with the Public Works Department.
- Continue to monitor and participate in the Santa Clara Valley Water District's Permanente Creek flood protection project (including the construction of McKelvey Park/Ball Field and Schaefer Park), in conjunction with the Public Works Department.
- Complete online scheduling procedures for the Center for the Performing Arts ushers to increase efficiencies and reduce staff time.
- Expand Center for the Performing Arts digital and social media presence for marketing to potential clients and increasing ticket sales. Review all of Center for the Performing Arts use of traditional media and implement improvements to design and production processes.
- Begin renovations on the Shoreline Golf Links Driving Range.
- Continue to support the 4 Cities (Sunnyvale, Cupertino, Los Altos, and Mountain View) Coordinated Stevens Creek Trail Feasibility Study to review extending the trail through Mountain View to reach Blackberry Farm in Cupertino.
- Begin park improvements, including the Graham Athletic Field Synthetic Turf Replacement project.
- Begin to develop and implement action items related to the employee engagement survey results.

Athletic Fields	5,341	5,402	>4,000	23,446[G]	>18,700[E]
18. Barbecue Rentals	1,075	1,181	>1,000	1,230	>1,000
19. Annual Citywide volunteer hours	45,096	40,325	>40,000	46,876	>40,000
20. Number of Lap Swim participants	27,257	28,652	>26,000	26,294	>26,000

Return to Previous

	2013-14 Actual	2014-15 Actual	2015-16 Target	2015-16 Actual	2016-17 Target
21. Number of swim lesson participants	2,643	2,604	>2,100	2,133	>2,100
22. Number of meals served through the Senior Center Nutrition Program	31,015	30,352	>30,000	30,461	>30,000
23. Number of summer camp participants	1,695	1,862	>1,500	1,800	>1,500
24. Number of preschool participants	78	76	>65	87	>65
25. Number of participants in contract classes	3,320	3,064	>2,600	3,337	>2,600
26. Number of attendees participating at teen programs and events	6,319	8,950(H)	>5,500	8,940	>8,000
27. Number of permits issued for special events and activities		New for FY15-16	>95	129	>95

(A) Citywide target set at three acres per 1,000 population as defined by the City's Park Land Dedication Ordinance.

(B) Total includes rental of the rehearsal studio.

(C) The Fiscal Year 2016-17 Target in the Proposed Budget had not been updated to reflect the change in reporting to reservation hours. All private rentals for facilities managed by the Community Services Department, except BBQ reservations, are switching from number of bookings to number of private rental hours to better track the use of facilities.

(D) Due to drought conditions, tree removals increased, diverting time from tree-trimming and tree-planting activities.

(E) Starting July 1, 2016, the Performance Measures for the Community Center, Senior Center, Adobe Building, and Rengstorff House will be private rental hours. Therefore, the Fiscal Year 2016-17 target has been changed to reflect this and will no longer be measured by the number of facility rental bookings as in previous years.

(F) Increased youth sports programming at the gyms reduced private rental availability.

(G) Gyms and Athletic Fields were previously listed as number of bookings. At the end of Q1 (July, August, and September), the Recreation Division upgraded the software and that resulted in changes to reporting. Starting in Q2 and going forward, the Recreation Division's Performance Measures for Gym and Athletic Fields will be hours reserved instead of number of bookings. As a result, this number represents hours reserved starting in Q2 and continuing forward.

(H) Attendees increased with the opening of the new Teen Center. Target adjusted for Fiscal Year 2016-17.

PROGRAM MANAGER—PERFORMING ARTS MANAGER

PROGRAM OPERATIONS

Performing Arts is responsible for the management and operation of the Mountain View Center for the Performing Arts—a three-theatre performing arts complex owned by the City. The Center and its staff service an active schedule of performances with a mix of community and regional artists. The Center provides a well-maintained and equipped facility; technical service support; computerized ticket sales operation; marketing and publication support; house management; and a volunteer usher corps for all performances.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  Ticket Services—Fee Coverage (offset by $25,000 in fees): $17,100

  Provides funding to cover a per-ticket fee assessed on all ticket sales by the new ticket software vendor, ShoWare. Funding is also needed to cover the cost of gateway fees assessed on each transaction. In addition, $7,900 has been transferred from the Information Technology Department for costs associated with the previous system.

  Ticket, Technical, and Marketing Services: $2,400

  Provides CPI increased funding for ticket, technical, and marketing services.

- General Non-Operating Fund:

  Performing Arts Supervisor Position (0.50) (limited-period): $71,000

  Provides increased funding for 0.50 FTE of a Performing Arts Supervisor position to add to an existing half-time positon. The additional resources will help to maximize ticket sales and revenue at the Center for the Performing Arts.

  Center for the Performing Arts (CPA) 25th Anniversary (rebudget balance): $2,700

  Rebudgets the balance of funding to commemorate the CPA's 25th Anniversary. The event will feature multiple performances on various stages. Sponsorship revenues will be solicited to offset additional costs.

PROGRAM MANAGER – RECREATION MANAGER

PROGRAM OPERATIONS

The Shoreline Division is responsible for the operations, maintenance, preservation, and enhancement of environmental areas within Shoreline at Mountain View; rental and operations of the historic Rengstorff House; regulatory permits relating to open space and marsh restoration; management of commercial leases (including Shoreline Amphitheatre); park-related capital improvement projects; and oversight of the Citywide Park Ranger Program, including patrol of Stevens Creek Trail.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  Maintenance Contract Increases: $3,000

  Provides CPI increased funding for various maintenance contract increases.

- Shoreline Regional Park Community Fund:

  PG&E Cost Increase: $25,000

  Provides increased funding for PG&E's annual rate increase and costs for the Shoreline Athletic Fields (the total PG&E cost increase for all funds Citywide is $152,500).

  Park Ranger Contract: $25,000

  Provides increased funding for California Land Management's (CLM) Ranger and park janitorial services. The City will be going out to bid for Ranger services during Fiscal Year 2016-17 and costs are anticipated to increase by approximately $25,000.

  Maintenance Contract Increases: $300

  Provides CPI increased funding for various maintenance contract increases.

PROGRAM MANAGER—PARKS MANAGER

PROGRAM OVERVIEW

The Forestry and Roadway Landscape Division is responsible for maintaining the landscape on roadways, medians, overpasses, and all nonpark City-owned lands; managing the Urban Forestry Program, which includes maintenance of street trees (including those in parks and medians); and administering the City's Heritage Tree Ordinance. This division is responsible for maintenance of 120.25 acres of roadway landscape and 28,000 trees and maintains 12 acres in the downtown area consisting of Castro Street, Civic Center, Centennial Plaza, and Transit Center, and administers an Integrated Pest Management Program.

MAJOR PROGRAM CHANGES

- General Operating Fund:

Park Maintenance Worker I/II Position—Roadway Crew (0.25): $29,200

Provides funding for a 0.25 FTE Park Maintenance Worker I/II position, adding to an existing 0.75 FTE position. The additional resources will help to maintain the 121 acres of median landscaping and irrigation throughout the City. The Roadway Crew also assists the Permanente and Steven Creek Trails, and special City events (e.g., concerts and Thursday Night Live).

Materials and Supplies for Pesticide Control: $7,000

Provides increased funding for materials and supplies for pesticide control. Staff is transitioning to organic, eco-friendly herbicides which reduce the environmental impact but are more costly than conventional herbicides.

Overtime Budget for Furlough and Urban Forest Programs: $6,000

Provides increased funding of $3,000 to the overtime budget for the Furlough Program and $3,000 to the Urban Forest Program. Overtime is utilized when additional staff is needed for roadway lane closures or to cover absences. In addition, the recent drought has caused higher mortality rates for trees and has resulted in more after-hours and weekend calls.

Materials and Supplies for Weekend Furlough Program: $2,500

Provides increased funding for materials and supplies needed for the Weekend Furlough Program to maintain Central Expressway along with City-owned parcels.

Maintenance Contract Increases: $1,100

Provides CPI increased funding for various maintenance contract increases.

Return to Previous

PG&E Cost Increase: $1,000

Provides increased funding for PG&E's annual rate increase (the total PG&E cost increase for all funds Citywide is $152,500).

- General Non-Operating Fund:

Homeless Encampment Cleanups (limited-period): $20,000

Provides funding to establish a contract with an organization to manage cleanups of homeless encampments within the City. Homeless encampments have increased significantly and the City work crews and work furlough participants are not trained to manage the potentially dangerous situations these cleanups require. In addition, the cleanup of encampments has resulted in time taken away from performing their regular assignments.

Maintenance and Supplies for Roadway Landscaping (limited-period): $10,000

Provides increased funding for the maintenance and supplies for Roadway Landscaping, specifically in the downtown area. Approximately 1,000 light strands are now kept up year-round and they require ongoing replacement due to vandalism and wear and tear.

- Shoreline Regional Park Community Fund:

Maintenance Contract Increases: $600

Provides CPI increased funding for various maintenance contract increases.

PROGRAM MANAGER – PARKS MANAGER

PROGRAM OVERVIEW

The Parks Division is responsible for maintaining the City's landscape investment at City facilities; at 37 urban parks (195.7 acres); and 9.35 miles of pedestrian trail along the Bay, Permanente Creek, Stevens Creek, Hetch Hetchy, and Whisman Trails.

MAJOR PROGRAM CHANGES

- General Operating Fund:

Park Maintenance Worker I/II Position – South Parks (0.25): $29,200

Provides funding for a 0.25 FTE Park Maintenance Worker I/II position, adding to an existing 0.75 FTE position. The additional resource will help to address the increased workload from the addition of several City parks in recent years.

Maintenance and Supplies for North Neighborhood Facilities and Rengstorff Park: $5,000

Provides increased funding of $3,000 to cover the costs of equipment and supplies needed to maintain the North Neighborhoods Parks and Facilities and $2,000 for Rengstorff Park. Additional funds are needed due to the increase in cost of topsoil, grass seed, compost, and to replace old equipment.

Turf Management and Maintenance: $3,000

Provides increased funding to maintain mowers and turf equipment at safe and efficient levels.

Qualified Applicators Certificate (QAC) for Pesticides: $1,500

Provides increased funding for six employees to obtain and renew annually a Qualified Applicators Certificate (QAC) for use of pesticides. The QAC is part of the Parks Maintenance Worker's job description and it is required for all Crew Leaders.

Materials and Supplies for Ongoing Park Maintenance: $1,300

Provides increased funding to purchase operating supplies for ongoing park maintenance.

PG&E Cost Increase: $1,000

Provides increased funding for PG&E's annual rate increase (the total PG&E cost increase for all funds Citywide is $152,500).

Return to Previous

Maintenance Contract Increases: $100

Provides CPI increased funding for various maintenance contract increases.

- Shoreline Regional Park Community Fund:

Shoreline Athletic Field Maintenance: $12,000

Provides funding for the maintenance and operating costs of the new Shoreline Athletic Fields.

PG&E Cost Increase: $2,000

Provides increased funding for PG&E's annual rate increase (the total PG&E cost increase for all funds Citywide is $152,500).

Maintenance Contract Increases: $700

Provides CPI increased funding for various maintenance contract increases.

PROGRAM MANAGER – RECREATION MANAGER

PROGRAM OPERATIONS

Recreation provides activities to facilitate social/community connections, advance lifelong learning, and promote healthy lifestyles.

Activities, classes, and events are held at Cuesta and Rengstorff Community Parks, Crittenden and McKelvey Athletic Fields, Deer Hollow Farm, Mountain View Sports Pavilion, Whisman Sports Center, Cuesta Tennis Center, Graham Sports Complex, Community Center, Senior Center, Teen Center, Eagle and Rengstorff Pools, historic Adobe Building, and various other park areas and school sites.

Program areas include: aquatics; adult and youth sports; seniors; cultural arts; preschool; elementary and teens; youth development; environmental education; community gardens; volunteers; coordination of special events and summer concerts; and reservations of buildings, facilities, and barbecue areas.

MAJOR PROGRAM CHANGES

- General Operating Fund:

After-School Program Wage Increase: $11,900

Provides increased funding to increase the hourly wage rate for the after-school program staff. Beyond the Bell is a program in collaboration with the Mountain View Whisman School Board. The Board increased their hourly wages and, as a result, the City is losing staff.

Recreation Activity Guide: $10,500

Provides increased funding for the redesign and distribution of the Recreation Activity Guide. The guide has been redesigned into a magazine format and will be distributed separately. Previously the guide was distributed together with the City Manager's Office's publication. Therefore, $17,000 has been transferred from the City Manager's budget to Community Services for the Recreation Activity Guide.

Aquatics Fitness Classes (offset with $14,500 in revenue): $10,000

Provides funding for contract services with a fitness instructor. The funding will allow for various aquatic classes to be offered year-round to adults and seniors.

Aquatics Operations: $10,000

Provides increased funding for the maintenance of Eagle and Rengstorff Pools. The increase in maintenance costs is primarily related to the increase in the cost of materials and chemicals.

Return to Previous

Senior Center Operations: $6,000

Provides increased funding for janitorial supplies for the Senior Center to accommodate increased usage of the facility.

Aquatics Slide Inspection and Permit: $2,400

Provides funding to ensure the water slide at the Rengstorff Pool is in compliance with the California Department of Health and Safety Amusement Ride Division. Annual inspections are required to receive the permit to operate the slide.

- General Non-Operating Fund:

Milk Room/Goat Barn Remodel (limited-period): $18,400

Provides funding for the materials to remodel Deer Hollow Farm's Milk Room and attached Goat Barn. The demolition and installation will be completed by the Midpeninsula Regional Open Space District maintenance staff.

Tennis Equipment and Maintenance (limited-period): $5,000

Provides increased funding to maintain the equipment at the City's 35 tennis courts. Additional funding is needed to keep the equipment at the courts in proper working condition.

Senior Center 10-Year Anniversary (offset by $1,500 in sponsorship revenue) (limited-period): $3,000

Provides funding for the 10-year anniversary celebration of the Senior Center's inauguration.

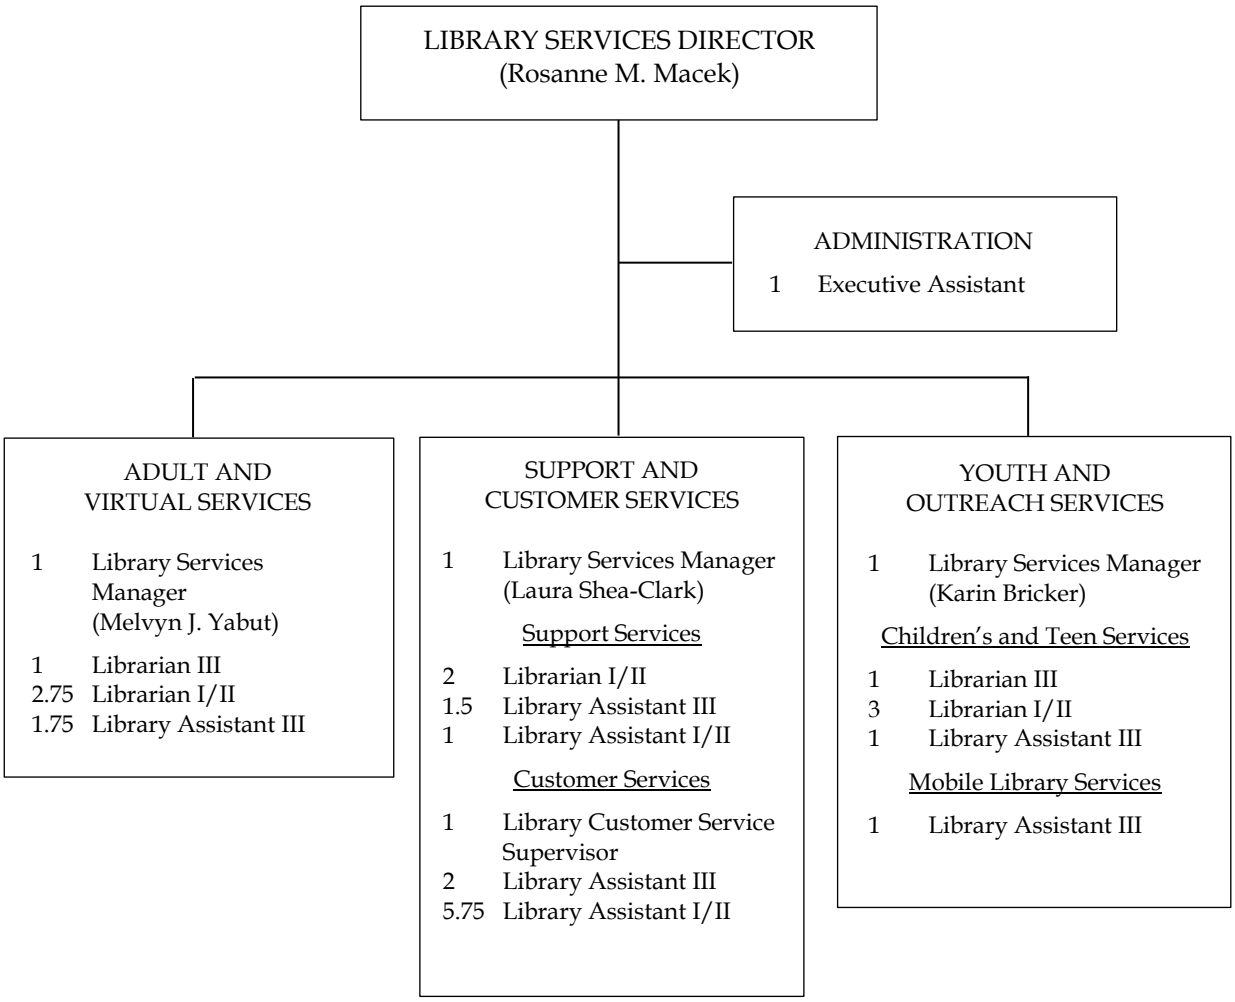
LIBRARY SERVICES DEPARTMENT



FISCAL YEAR 2016-17 POSITION TOTALS: 22.0 Full-Time
7.75 Regular Part-Time

Return to Previous

LIBRARY SERVICES
DEPARTMENT SUMMARY

DEPARTMENT MANAGER—LIBRARY SERVICES DIRECTOR

DEPARTMENT MISSION STATEMENT

The Library Services Department is responsible for the planning and provision of library services. The Library's mission is to be "the information center for our diverse community, providing a dynamic place to share resources and ideas, to find joy in reading, and to experience the power of lifelong learning."

DEPARTMENT OVERVIEW

Library resources are made easily accessible to the community in a variety of formats, including print, media, and electronic. The Library Services Department participates in cooperative regional services and resource-sharing to meet the needs of all residents in the area.

DEPARTMENT FUNCTIONS

- Provide quality services, programs, and systems that enhance the quality of community life. (M 1, 2, 3, 5, 6, 11, 12, 17)
- Provide a welcoming, comfortable, well-maintained, and safe facility and environment for all customers to use and enjoy. (M 1, 6)
- Offer a variety of library materials, technology resources and references, and readers' assistance to help customers meet their information, educational, and recreational reading needs. (M 1, 2, 3, 5, 12, 14, 16, 17)
- Provide a quality collection of popular and enduring materials for customers to use and borrow. (M 2, 3, 12, 14, 16)
- Provide ongoing library services to support lifelong learning in the community, including physical and virtual collections, and programs for all ages. (M 6)
- Promote library services to ensure that all residents are aware of the breadth of library services and how to better use those services.

MAJOR DEPARTMENTAL GOALS/PROJECTS/INITIATIVES FOR FISCAL YEAR 2016-17

*(Items in **bold** are tied to Fiscal Years 2015-16 and 2016-17 Major Council Goals; items in **bold italics** are new Major Council Goals for Fiscal Year 2016-17)*

- **Partner with outside groups like Project Sentinel to offer biannual educational programs at the Library with a housing theme.**
- **Hold biannual educational classes at the Library on topics such as recycling and sustainability.**

Return to Previous

- **Partner with Master Gardeners and the California Native Plant Society to offer quarterly educational classes at the Library on environmentally friendly gardening.**
- **Continue with monthly bike workshops.**
- ***Work with Safe Moves to offer programs during Summer Reading.***
- ***Pilot remote services like Lawyers in the Library and Social Security appointments to eliminate car trips.***
- Support the design phase of the project to enhance Children's area improvements at the Library, in conjunction with the Public Works Department.
- Increase marketing efforts to ensure more of the community is aware of Library services: publish regular newsletters, reach out to new residents and employees, and attend community events.
- Highlight the Library's role in promoting reading by encouraging community leaders to share what they are reading, promoting staff picks, and highlighting tools such as NoveList on the Library website.
- Establish a cross-functional team, including Library, Finance and Administrative Services, and Information Technology Departments, to implement output accounting module to directly transfer financial information from Sierra to OneSolution.
- Begin to develop and implement action items related to the employee engagement survey results.

PERFORMANCE/WORKLOAD MEASURES

	2013-14 Actual	2014-15 Actual	2015-16 Target	2015-16 Actual	2016-17 Target
1. Number of visits to the Library	816,799	678,030(A)	>690,000	624,421	>600,000
2. Total circulation	1,685,072	1,563,487(B)	>1,600,000	1,416,360(C)	>1,400,000
3. Number of items circulated per capita	22	20(B)	>21	18.2(C)	>18
4. Number of items circulated per registered borrower	16.4	15.5(B)	>16.5	14(C)	Discontinue
5. Questions answered per capita	1.3	1.2(D)	>1.2	1(D)	>1
6. Total attendees at Library programs	57,097	55,872	>56,500	53,709(E)	>50,000
7. Satisfaction rate for Library programs				New for FY16-17	>80%
8. Total attendees at Children's Library programs	42,386	39,597	>40,000	38,609(E)	Discontinue
9. Total attendees at Teen Library programs	810	1,486	>900	1,638	Discontinue
10. Total attendees at Adult Library programs	5,926(E)	8,393(F)	>6,000	7,638	Discontinue
11. Circulation per FTE (including hourly staff)	40,781	37,839(B)	>39,000	33,803(C)	Discontinue

Return to Previous

LIBRARY SERVICES
DEPARTMENT SUMMARY

	2013-14 Actual	2014-15 Actual	2015-16 Target	2015-16 Actual	2016-17 Target
12. Percent of circulation that is customer self-check	97%	97%	>92%	96%	>92%
13. Percent of materials returned at automated returns	90%	91%	>85%	91%	>85%
14. Turnover rate (total collection)	5.2	4.6[B]	>4.8	4.4[C]	Discontinue
15. Average number of calendar days between receipt of new item and availability to check out	10.5	7	<15	7	<12
16. New book and media titles cataloged	21,602	34,287[G]	>14,000	50,353	Discontinue
17. New book and media items processed	29,534	29,062[G]	>26,000	27,401	>24,000
18. Number of public computer sessions in the Library	77,414[H]	63,418[H]	>60,000	57,778[H]	>55,000

[A] The number of visits is about 20.0 percent less than the target. However, the technology used to count activity at our gates changed. Prior testing indicated the new gates were counting about 20.0 percent less so the actual count is about the same.

[B] Circulation is down about 7.0 percent from the prior fiscal year. There are a number of factors that have affected this: use of physical media continues to decline, some media has been consolidated into sets, and the use of public libraries traditionally declines when the economy is strong. Neighboring Silicon Valley libraries are also reporting a decline in circulation of between 5.0 percent and 13.0 percent (with the exception of newly opened libraries).

[C] All of the numbers related to circulation are down, and this is consistent with what our neighboring libraries are reporting. Public library use generally correlates with the economy and when the economy is healthy, people use libraries less.

[D] The volume of reference questions has declined with more information available on the Internet. However, staff is spending more time on complex and technology-related questions. Neighboring Silicon Valley libraries are also reporting a decline in reference activity of up to 21.0 percent.

[E] Program attendance is down slightly, partly due to less attendance at summer reading programs. Again, with a strong economy, it is believed more families were out of town this year.

[F] Program attendance is high due to increased emphasis and staffing resources devoted to adult library programs.

[G] New books and media titles cataloged is up dramatically due to the acquisition of a large eBook collection, based on limited-period funding.

[H] More patrons are using their own devices to access the Internet using WiFi in the Library and session times have been increased from 90 minutes to 2 hours.

LIBRARY SERVICES – ADMINISTRATION
PROGRAM SUMMARY

PROGRAM MANAGER – LIBRARY SERVICES DIRECTOR

PROGRAM OVERVIEW

Administration is responsible for the management of the Library Services Department. General administration of the Library includes: strategic planning, budget, personnel, facility management, and community relations. Administration also supports the Library Board of Trustees.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  Cartridges and Paper for Poster Printer: $1,600

  Provides increased funding for cartridges and paper for the poster printer. Support supplies were not previously budgeted because the printer was purchased with a donation from the Friends of the Library.

  Wages for Sunday Hours: $700

  Provides increased funding for staff to operate on Sundays during a holiday weekend (five Sundays in Fiscal Year 2016-17). About eight years ago, the City eliminated Library hours on the Sunday prior to a holiday; this funding would reestablish the hours for those Sundays.

LIBRARY SERVICES – ADULT AND VIRTUAL SERVICES
PROGRAM SUMMARY

PROGRAM MANAGER – LIBRARY SERVICES MANAGER

PROGRAM OVERVIEW

Adult and Virtual Services includes all services for adults, including an extensive collection of print and electronic information as well as programs and workshops on a variety of topics. Activities include selecting Library materials and providing instruction and assistance in their use. Staff provides individual assistance as well as training to use Library resources and the Internet and coordinates programs on topics of interest to the community. The division cooperates with community education programs and maintains a local history collection in cooperation with the Mountain View Historical Association. It also provides literacy services through a contract with the Reading Program.

An important focus is on 24/7 virtual access to Library information and services. This division maintains the Library's website, manages the selection and deployment of electronic databases, and provides access to and training for eBooks.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  Library Materials: $40,000

  Provides increased funding for books and Library materials loaned to the public. The preliminary data indicated that Mountain View's materials budget is approximately 15.0 percent below certain benchmark libraries.

  Reclassification of a Librarian I/II position to a Librarian III: $10,300

  Provides funding for the reclassification of a Librarian I/II position based on a higher level of duties performed.

  Wages for Sunday Hours: $2,700

  Provides increased funding for staff to operate on Sundays during a holiday weekend (five Sundays in Fiscal Year 2016-17). About eight years ago, the City eliminated Library hours on the Sunday prior to a holiday; this funding would reestablish the hours for those Sundays.

  Conversion of two 0.50 FTE Librarian I/II positions to a Librarian I/II position: No Cost

  Converts two 0.50 FTE Librarian I/II positions to a Librarian I/II position.

- General Non-Operating Fund:

  eBooks (limited-period): $10,000

  Provides funding to expand the Library's eBook collection. eBooks typically cost two to five times more than print format.

LIBRARY SERVICES – SUPPORT AND CUSTOMER SERVICES
PROGRAM SUMMARY

PROGRAM MANAGER – LIBRARY SERVICES MANAGER

PROGRAM OVERVIEW

Support Services provides support and maintenance of the Library's automation and catalog systems and automated check-in and check-out systems. It also includes the purchasing, physical processing, and maintenance of all materials in the Library's collection.

Customer Service is responsible for the lending and tracking of Library materials loaned to the public, registering customers, issuing Library cards, and collecting overdue fines and damage costs. Materials located outside the Library's collection are made available to the public through the Link+ service, which is a consortium of academic and public libraries. This section also provides the timely return of Library materials to the shelves and maintains the orderliness of the Library's materials collection.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  Wages for Sunday Hours: $5,100

  Provides increased funding for staff to operate on Sundays during a holiday weekend (five Sundays in Fiscal Year 2016-17). About eight years ago, the City eliminated Library hours on the Sunday prior to a holiday; this funding would reestablish the hours for those Sundays.

  Conversion of 0.50 FTE Library Assistant III Position to Hourly: No Cost

  Converts a 0.50 FTE Library Assistant III position to hourly to provide additional resources of staff time.

LIBRARY SERVICES – YOUTH AND OUTREACH SERVICES
PROGRAM SUMMARY

PROGRAM MANAGER – LIBRARY SUPERVISOR

PROGRAM OVERVIEW

Youth Services provides a full range of materials, services, and programs to children, teens, parents, adults working with youth, and agencies and organizations serving youth and educational institutions. Children's Services provides a carefully selected collection of materials; arranges for classes to visit the Library; promotes reading and communication skills through storytelling, book talks, musical, and other special programs; reading readiness programs; and prepares special reading lists. Teen Services provides materials and services to meet the special interests and needs of teens, including a group study area; textbook collection; a collection of popular books; music CDs; and after-school tutoring services.

Outreach Services provides access to Library services outside the Main Library via a Mobile Library (Bookmobile) and Special Outreach Services (SOS). Mobile Library Services provides materials and services to day-care centers, senior living facilities, and local businesses. With the assistance of volunteers, SOS provides home delivery of materials to homebound residents.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  Librarian I/II Position (0.25): $40,400

  Provides increased funding for 0.25 FTE of a Librarian I/II position, adding to an existing 0.75 FTE position. The increase in additional staff will support the increased demand for children's programs.

  Reclassification of a Librarian I/II Position to a Librarian III: $10,200

  Provides funding for the reclassification of a Librarian I/II position based on a higher level of duties performed.

  Wages for Sunday Hours: $3,300

  Provides increased funding for staff to operate on Sundays during a holiday weekend (five Sundays in Fiscal Year 2016-17). About eight years ago, the City eliminated Library hours on the Sunday prior to a holiday; this funding would reestablish the hours for those Sundays.

FIRE
DEPARTMENT SUMMARY

DEPARTMENT MANAGER—FIRE CHIEF

DEPARTMENT MISSION STATEMENT

The Mountain View Fire Department exists to save lives and property, protect the environment, and minimize the risk of fire and natural disaster by investing in education, training, and prevention.

DEPARTMENT OVERVIEW

The Fire Department's personnel and equipment are strategically deployed throughout the City to rapidly assist citizens when emergencies occur, such as emergency medical services, fire suppression, technical rescue, and hazardous materials response, along with community emergency preparedness and recovery training. In addition to emergency response, the Fire Department focuses on community safety and education through fire prevention, housing code enforcement, public education, waste discharge and general surface water pollution prevention, and other services to the community.

DEPARTMENT FUNCTIONS

- Respond quickly to all emergencies and take appropriate actions thereby reducing loss of life, property, and environmental damage while ensuring the safety of all Fire personnel involved. (M 1, 2, 3)

- Maintain a professional level of operational readiness as Firefighters, Paramedics, Emergency Medical Technicians, Hazardous Materials First-Responders, Hazardous Materials Technicians, Specialists, and Rescuers.

- Provide annual training and coordination for City staff, and residential and business community volunteers on disaster preparedness, response, and recovery.

- Provide management and oversight for the Santa Clara County Regional Command Training Center located in Mountain View.

- Ensure that facilities using or storing hazardous materials, or discharging wastewater into the sanitary or storm sewers, comply with applicable Federal, State, and local requirements. (M 4, 5)

- Maintain an ongoing fire prevention program, hazardous materials, and underground storage tank inspection program. (M 5)

- Maintain a rental housing inspection program.

Return to Previous

MAJOR DEPARTMENTAL GOALS/PROJECTS/INITIATIVES FOR FISCAL YEAR 2016-17

- Implement changes to the Multi-Family Housing Inspection Program based on the findings of the evaluation report and/or the direction of Council.

- Participate as an active member of the Trash Capture Feasibility Study work group in development and review of long-term trash load reduction planning.

- Continue to collaborate with the fire agencies within Santa Clara County to develop community-focused and sustainable initiatives that improve service quality, create operational efficiencies, eliminate redundancy, and leverage existing emergency response resources. This is inclusive of:

  a. Consider the options available from the Feasibility Study on Consolidation of Dispatch Center for Fire/EMS between Mountain View, Palo Alto, San Jose Fire, and Santa Clara County Fire. Collaborate with all agencies involved in the study to understand the level of commitment towards a Fire Dispatch consolidation. In addition, determine which Fire Dispatch model is most desirable for the City of Mountain View.

  b. Full boundary drops implementation between Los Altos and Mountain View.

- Enhance community outreach efforts to teach safety and risk reduction curriculum to local elementary schools.

- Begin to develop and implement action items related to the employee engagement survey results.

PERFORMANCE/WORKLOAD MEASURES

	2013-14 Actual	2014-15 Actual	2015-16 Target	2015-16 Actual	2016-17 Target
Suppression:					
1. Percent of time first-in fire engine arrives on a structure fire scene within six minutes of dispatch	100%	100%	100%	100%	100%
2. Percent of time the second due fire engine arrives on a structure fire scene within eight minutes of dispatch	100%	100%	100%	100%	100%
3. Percent of emergency medical Code 3 calls where responding unit arrived within six minutes of dispatch	95%	93%	>90%	94%	>90%
Fire and Environmental Protection:					
4. Percent of plans checked within 15 working days of receipt by division	100%	100%	100%	100%	100%
5. Number of inspections conducted by Environment Safety Section	1,851[(A)]	1,769[(A)]	1,600	1,641	1,600

[(A)] Higher due to the Environmental Protection unit being fully staffed.

FIRE – SUPPRESSION
PROGRAM SUMMARY

PROGRAM MANAGER – FIRE CHIEF

PROGRAM OVERVIEW

The Suppression Division consists of the Operations, the Personnel and Training, and the Office of Emergency Services/Public Information Sections.

The Operations Section provides firefighting, hazardous materials incident, paramedic, and rescue response services from five fire stations strategically located throughout the City. Firefighters also conduct fire prevention inspections, public education, equipment and facilities maintenance, as well as ongoing training activities. Paramedic Firefighters are assigned to every fire station.

The Training Safety Section plans, schedules, and provides training to Firefighters. The section also coordinates the Firefighter recruitment and selection process.

The Office of Emergency Services Section is responsible for disaster preparedness and coordinates disaster response.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  Firefighter Clothing Laundering Services: $10,000

  Provides increased funding for laundering/decontaminating Firefighters' Personal Protective Equipment. These funds will be used to hire an outside vendor to clean, decontaminate, inspect, maintain, and document the condition of the clothing.

  Medical Oxygen Charges: $6,000

  Provides increased funding for monthly medical oxygen service charges. Medical oxygen is provided on EMS calls when warranted. The budget for this item has not been increased in the last 10 years and the cost has significantly increased.

  Cellular Data Monthly Services: $5,500

  Provides increased funding for monthly cellular data service charges. Additional programs requiring cellular data service have been added to the department.

  Emergency Medical Supplies: $3,500

  Provides increased funding for emergency medical supplies that are outside of the agreement with Rural Metro.

Return to Previous

- General Non-Operating Fund:

Firefighter Recruits (rebudget): $375,000

Rebudgets funding for six Firefighter recruits to attend the Firefighter Academy for three months and for an approximately one-month transition-to-shift period.

Overtime Training (limited-period): $100,000

Provides increased funding for overtime related to attending training or completing required certified courses.

HazMat Program Training (rebudget): $45,000

Provides increased funding for the HazMat Training Program. The MOU with Local 1965 specifies up to nine employees per shift that are HazMat Technicians by July 2016.

Training and Education (limited-period): $30,000

Provides increased funding for Training and Education. Additional funds are needed to meet the changes in State and national training standards. There are also a significant number of expected retirements and promotions over the next couple of years that will increase the demand for education and other specialized training.

Firefighter Recruitments (rebudget balance): $22,100

Rebudgets the balance of funding for the testing, training, and equipment costs for Firefighter recruitments.

Consolidated Dispatch Consultant (rebudget): $20,000

Rebudgets funding for a regional consolidation of dispatch services feasibility study. Several fire departments within Santa Clara County have identified regional fire dispatch as an area of opportunity for regional collaboration to increase efficiencies.

Promotional Exams (rebudget): $9,900

Rebudgets funding to conduct promotional assessment centers to fill anticipated vacancies for a Fire Battalion Chief position. The most recent eligibility list expired in July 2014.

Multi-Purpose Devices (MPD) (limited-period): $8,700

Provides funding for the purchase of 11 MPDs—one for each engine and two each for the truck and rescue. The MPD is a NFPA-compliant pulley, descent control device, and belay device built in to one. These devices will simplify the rigging of the main line and also increase the safety of the belay line.

Return to Previous

Hard Suction Hose and Strainer Replacement (rebudget): $5,000

Rebudgets funding to replace a hard suction hose. The replacement is needed due to the poor condition of the existing inventory.

PROGRAM MANAGER – FIRE MARSHAL

PROGRAM OVERVIEW

The Fire and Environmental Protection Division consists of the Environmental Safety and the Fire and Building Safety Sections.

The Environmental Safety Section is responsible for the enforcement of local hazardous materials storage codes, State underground chemical storage tank regulations, industrial waste discharge, and Federal and State regulations related to the control of industrial waste and stormwater runoff. Efforts are aimed at preventing uncontrolled releases and movement of hazardous and toxic substances.

The Fire and Building Safety Section is responsible for conducting the City's fire and housing code enforcement programs, fire cause investigations, and technical support to the Suppression Division.

MAJOR PROGRAM CHANGES

- Development Services Fund:

  Strong Motion Instrumentation Program (SMIP) (rebudget balance): $15,300

  Rebudgets the balance of funding based on the amount collected April 1, 2014 to March 31, 2015, and rebudgets the balance of funding for SMIP funds to be used for a Community Emergency Response Team (CERT) grant program.

- Wastewater Fund:

  Consultant Services for Web-Based Reporting (rebudget): $20,000

  Rebudgets funding to create an electronic reporting system. The State requires all local government agencies to electronically report a hazardous materials business plan, inspection, and enforcement information.

  Hazardous Materials Electronic Portal (offset with $4,000 in County reimbursements): $8,200

  Provides funding for the annual maintenance and license fee for the Hazardous Materials Electronic Portal. AB 2286 requires local governments and businesses to electronically report hazardous materials business plan information to the State. The City, along with other neighboring agencies, has collaborated over the past two years with the Santa Clara County Department of Environmental Health to develop a web-based portal. The funds requested will pay for the annual maintenance and license fee, which will be offset with a reimbursement from the County.

Return to Previous

SCVURPPP and NPDES Permit Fees: $7,000

Provides increased funding for the Santa Clara Valley Urban Runoff Pollution Prevention Program (SCVURPPP) and National Pollutant Discharge Elimination System (NPDES) permit fees due to increases in trash control, green infrastructure, and Pollutant of Concern (PCB and mercury) requirements that will take effect during the first year of the reissued permit.

POLICE
DEPARTMENT SUMMARY

DEPARTMENT MANAGER—POLICE CHIEF

DEPARTMENT MISSION STATEMENT

The Police Department keeps Mountain View safe and tackles crime through quality policing that secures the trust and support of the people it serves and protects.

DEPARTMENT OVERVIEW

Through people, community collaboration, technology, and regional cooperation, the Police Department fulfills its mission through comprehensive programs that makes safety a priority, focuses on effectively working with people, and obtains fair and impartial results through education, prevention, intervention, suppression, and enforcement efforts. The department provides a visible presence, effective and timely response to calls for service, innovative community engagement activities, and comprehensive services for investigations, community-focused policing initiatives, and emergency preparedness. The department is also responsible for Police and Fire support services, emergency communications, and ensuring professional standards and accountability.

DEPARTMENT FUNCTIONS

- Promote a sense of safety and security in the community, keep the peace, provide public assistance, prevent and detect criminal activity, assist crime victims, apprehend offenders, and facilitate due process through the response to requests for police service, conducting investigations, and enforcing of the spirit of the law. (M 7, 10, 12)

- Promote safety on the roadways through comprehensive and proactive education and enforcement initiatives that prevent fatal and injury traffic collisions.

- Continue to enhance outreach and engagement programs with neighborhoods, schools, small businesses, corporations, and other stakeholders to promote community safety, prevention of crime, and secure communitywide trust and support.

- Continually develop staff and implement solutions that enhance workplace and community safety, the ability to work effectively with people, and deliver fair and impartial results.

- Prevent juvenile delinquency, underage and illegal substance abuse, and gang activity.

- Work collaboratively with the community, City, and other criminal justice agencies in order to protect life, safeguard property, and enhance policing legitimacy and community support for the Police Department. (M 6, 7, 10)

- Provide support services functions to fulfill responsibilities related to public safety systems, technologies, records, warrants, and property and evidence.

- Recruit, retain, develop, and empower a broad range of talents at all levels of the organization who represent the diversity of the Mountain View community.

- Provide communication services for Police, Fire, medical emergencies, and contract agencies. (M 12)

Return to Previous

- Prepare for, respond to, mitigate, and recover from all-hazard critical incidents and disasters.

MAJOR DEPARTMENTAL GOALS/PROJECTS/INITIATIVES FOR FISCAL YEAR 2016-17

- Implement comprehensive traffic safety and education programs.
- Utilize multiple methods and platforms to build strong community partnerships, to include online communication and hosting events that promote in-person community/police engagement, that change public trust and support.
- Implement programs that enhance Police Department employee safety and wellness.
- Complete the implementation of the records management system.
- Complete migration of the public safety radio infrastructure to the Silicon Valley Regional Interoperability Authority's regional communications system.
- Implement in-field access to dispatch and records systems with handheld technology.
- Continue implementation, training, and evaluation of officer-worn cameras while ensuring that camera use and procedures address both departmental and community interests.
- Begin to develop and implement action items related to the employee engagement survey results.

PERFORMANCE/WORKLOAD MEASURES

	2013-14 Actual	2014-15 Actual	2015-16 Target	2015-16 Actual	2016-17 Target
Field Operations:					
1. Response Time (10-97) of 4 minutes or less on all Priority E and 1 calls for service	46%(A)	47%(A)	>55%	47%(A)	Discontinue
2. Sustain Part I crimes index below the mean average for cities listed in annual report	1,814	2,069	2,605 (FY 14-15 Index)	2,207	Discontinue
3. Sustain traffic-related injuries below the average as compared to the Office of Traffic Safety comparable cities	114	130	<350	192	Discontinue

Return to Previous

	2013-14 Actual	2014-15 Actual	2015-16 Target	2015-16 Actual	2016-17 Target
4. Sustain a violent crime rate below the rate most recently reported by the California Department of Justice for Santa Clara County.				New for FY16-17	<2,292
5. Sustain a property crime rate below the rate most recently reported by the California Department of Justice for Santa Clara County.				New for FY16-17	>14.4%
6. Sustain a fatal and injury traffic collision rate that is below the rate most recently reported by the California Highway Patrol for Santa Clara County.				New for FY16-17	<354.8
7. Maintain an average response time (dispatch to on-scene) of 5 minutes or less to emergency (Priority 0) calls for service.				New for FY16-17	<5
8. Continue an opt-in growth of 20% per year across digital media platforms.				New for FY16-17	20%
Special Operations:					
9. Increase Part I crime clearance rate	27%	21%[B]	>25%	20%[C]	Discontinue
10. Sustain a violent and property crime clearance rate above the rate most recently reported by the California Department of Justice for Santa Clara County.				New for FY16-17	95%
Public Safety Support Services:					
11. Percent of incoming 9-1-1 calls that are answered within 9 seconds of receipt	97%	97%	>95%	96%	Discontinue
12. Answer 95% of incoming calls to 9-1-1 within 9 seconds.				New for FY16-17	95%
13. Dispatch 95% of emergency (Priority 0) and urgent (Priority 1) calls in less than two minutes.				New for FY16-17	95%

[A] A review shows a consistent increase in overall response times between 6:00 a.m. and 6:00 p.m., suggesting that traffic and drive time are the most likely reasons for the increase. The Police Department is continuing to evaluate response times to see if other factors might be in play.

[B] The Investigations Unit loaned Officers to Patrol which temporarily limited the capacity of the Investigations Unit to clear cases.

[C] The slight decline in clearance rates is likely due to a combination of factors to include limitations on staffing available for the clearances of cases and an increase in crime and resulting workload for Detectives.

PROGRAM MANAGER – FIELD OPERATIONS CAPTAIN

PROGRAM OVERVIEW

The Field Operations Division is responsible for providing all uniform police services to the community. Its primary function includes responding to criminal activity and calls for service in an effective and timely manner and providing crime suppression and prevention activities. Within this division resides Patrol, Traffic Safety, Canine, SWAT, Crisis Negotiations, and Bicycle Patrol. In addition, this division is responsible for coordinating the Field Training Officer Program and training all newly hired Police Officers and Reserve Officers in the field.

MAJOR PROGRAM CHANGES

- General Non-Operating Fund:

  Two Police Officer Trainee Positions (limited-period): $155,700

  Provides funding for two Police Officer Trainee positions at 50 percent funding. Police Officer Trainees provide flexibility for current and anticipated vacancies. There are multiple vacant Police Officer positions and additional vacancies anticipated in the next 12 months. Includes $10,000 for hiring background checks, training, and uniform costs.

PROGRAM MANAGER – PUBLIC SAFETY SUPPORT SERVICES MANAGER

PROGRAM OVERVIEW

The Public Safety Support Services Division is responsible for providing essential administrative and technical services to the Police and Fire Departments. Within this division resides Management and Fiscal Services which is responsible for providing appropriate, accurate, and effective fiscal analyses and administrative support for the Police and Fire Departments; Emergency Communications which answers 9-1-1 and nonemergency calls for public safety, dispatching the most appropriate response of Police, Fire, or ambulances and emergency medical dispatch services; Public Safety Systems which manages the City's various radio systems; and Records which is responsible for record-keeping activities such as filing, indexing, and collecting of records and statistical information, and processing of arrest warrants.

MAJOR PROGRAM CHANGES

- General Operating Fund:

  Wireless Data/South Bay Information Sharing System (SBISS)/CopLink: $71,800

  Provides increased funding for services related to the regional crime information system and wireless data services for Police and Fire Department users. The Santa Clara County Office of the Sheriff is passing the cost of supporting the regional "CopLink" information sharing system to the constituent agencies that use the system.

  Officer-Worn Camera Data Storage System: $19,000

  Provides funding for Officer-Worn Camera Data Storage System. All Field Operations Division uniform personnel utilize the Officer-Worn Cameras and the program will possibly expand to include Detectives and Reserve Police Officers. Funds are needed for the required increase in storage capacity.

- General Non-Operating Fund:

  Communications Training Supervisor Position (limited-period): $188,700

  Provides funding for a Communications Training Supervisor position. The position will work in conjunction with the Communications Operations Supervisor to plan, coordinate, implement, and direct all training programs for Emergency Communications staff.

  Public Safety Dispatch Overhire Position (limited-period): $169,300

  Provides funding for a Public Safety Dispatch Overhire position. The position is requested due to anticipated vacancies and the lengthy selection and training process. Includes $2,000 for hiring background checks.

Return to Previous

Public Safety Network Design: $60,000

Provides funding for third-party consulting and technical services related to public safety computer network design, implementation of all-IP 9-1-1 and radio networks, and industry expertise with respect to Federal information security policies and standards compliance.

Technology Training: $20,000

Provides funding for formal training courses for Police staff responsible for the ongoing configuration, troubleshooting, and management of the City's public safety systems.

BUD/LHP-312-05 FY2016-17

1. Section 2103 Funds: Expenditure of apportioned funds may be made for any street purpose (including debt service). Funds are apportioned to the City based on population.

2. Section 2105 Funds: Expenditure of apportioned funds may be made for any street purpose and funds are apportioned to the City on a per capita basis.

3. Section 2106 and 2107 Funds: Expenditure of apportioned funds may be made for any street purpose. This includes construction, purchase of right-of-way, or maintenance. Funds are apportioned as follows: (a) 2106: $4,800 fixed amount and a per capita distribution; (b) 2107: a per capita distribution and interest earnings.

4. Section 2107.5 Funds-Engineering: Funds are required to be used exclusively for engineering and administrative costs associated with streets and roads. The amount of $7,500 is apportioned to the City based on population.

Expenditures of this fund are restricted for specific purposes as prescribed by law; primarily road construction, maintenance and certain administrative costs. All expenditures are audited by the State Controller's Office.

Ending Balance, June 30	$	10,724,795	8,222,101	11,569,784	10,113,184

The Construction Tax and Real Property Conveyance Tax Fund revenues are derived from fees authorized by Mountain View City Code, Sections 29.56 and 29.63 respectively. When a transfer of ownership occurs the Real Property Conveyance Tax is assessed at $3.30 for each $1,000 of real property located in the City. All revenues of this fund are restricted for implementation of the City's Capital Improvements Program, including servicing bonds issued in connection with said improvements.

In accordance with precise plans, a developer may be required to make site improvements as a result of their development project. A developer may pay a fee in lieu of providing these improvements which will then be used by the City to provide improvements in the general area of the development as approved by the City Council.

* As revenues are dependent upon the level and type of development, future fee revenues are not budgeted and projected in advance.

Ending Balance, June 30	$	3,820,018	865,508	914,532	963,462

As authorized by Mountain View City Code, Chapter 36, Article XVI, Division 8, a developer may apply for a Transit (T) Overlay Zone and a Transit-Oriented Development permit to increase the development density. A condition of the permit would require the provision of certain transit related improvements. A developer may pay the City in-lieu of providing these improvements.

* As revenues are dependent upon the conditions described above, future fee revenues are not budgeted and projected in advance.

Ending Balance, June 30	$	10,038,354	8,296,910	10,623,435	7,595,328

As authorized by Mountain View City Code section 36.82 the Below Market Rate (BMR) Housing Program requires that 10.0% of all new ownership residential units or parcels within a development be affordable to low and moderate income households. Alternatively, a developer may pay a fee in-lieu of providing these units which will then be used to provide affordable housing approved by the City Council. These revenues are restricted for expenditures related to the provision of low and moderate income housing. The City contracts with the Palo Alto Housing Corporation for administrative support for this program.

In accordance with the Mountain View City Code section 36.91, the Housing Impact Program requires a fee to be imposed on all nonresidential developments. Resolution No. 17748 adopted by the City Council on December 11, 2012 allows for a fee to be imposed on all residential rental developments. Expenditures are restricted for increasing and improving the supply of very low to moderate income housing and rental housing.

* As revenues are dependent upon the type and timing of development, future fee revenues are not budgeted or projected in advance.

** Represents the balance of funds committed by Council for Notice of Funding Availability (NOFA) Projects taking into account funds expended, encumbered, and budgeted.

Ending Balance, June 30	$ 3,563,955	3,933,854	4,590,380	5,065,359

The Parking District (District) is a maintenance assessment district in the downtown Castro Street area created to provide and maintain parking lots and structures. In addition to property taxes, an annual assessment is levied on properties in the District. The Mountain View City Code requires that as a condition of approval for any development within the District, the developer or owner shall provide the required off-street parking, pay the parking in-lieu fee or a combination of both. These funds are restricted for the construction of new parking spaces and are accounted for in the Reserve for Future Parking.

The Business Improvement Districts (BID) were created for specific areas of the downtown and are an assessment to the business owners based on the type and size of the business. These funds are utilized for staffing dedicated to the promotion and support of downtown businesses.

* The Reserve for Future Parking Maintenance was recommended in a previous Parking Study for long term maintenance and improvements of the parking structures and lots not funded in the operating budget (e.g. janitorial services, elevator maintenance, etc.). The District contributes $37,500 annually and it is anticipated these funds will be utilized when major improvements are needed (e.g. steam cleaning the entire parking structure, repaving a parking lot, replacing signage inside the parking structure, etc.).

The State legislature created the Shoreline Regional Park Community (Shoreline Community). Tax increment derived on the difference between the frozen base year value and the current fiscal year assessed value and other revenues generated from the activities of the Shoreline Community are to be utilized to develop and support the Shoreline Community and surrounding North Bayshore Area. Reserves are for general purposes, a catastrophic landfill event and tracking of development impact fees.

Assessed values are as follows:

		Total Assessed Value	Frozen Base	Tax Increment Value
Actual (Revised)	2011-12	$2,674,034,129	$33,888,148	2,640,145,981

Ending Balance, June 30	$ 19,028,087	5,592,013	12,807,930	7,617,054

The Park Land Dedication Fund revenues are derived from fees authorized by Chapter 41 of the Mountain View City Code. These revenues are restricted for expenditures for park and recreation projects. Effective in Fiscal Year 1997-98 fees are approved and designated by Council after receipt.

* As this type of fee is dependent upon subdivision and single lot development, future fee revenues are not budgeted and projected in advance.

The Water Fund accounts for the cost, operation and maintenance of all facilities required to supply, distribute and meter the water used by consumers in the City's service area. A separate reserve is used to account for the capacity and development impact fees collected to fund capital projects. A general Reserve is used for emergencies, contingencies and rate stabilization.

Ending Balance, June 30	$ 5,737,869	2,184,622	2,086,536	2,222,202

This fund accounts for the operation and maintenance of all facilities, including Mountain View's share of operation costs of the Palo Alto Regional Water Quality Control Plant (Treatment Plant), required to transport and process wastewater. Chapter 35 of the Mountain View City Code authorizes the collection of a wastewater service charge. The fund has several reserves, one accounts for the capacity and development impact fees collected to fund capital projects and is projected with a negative balance for Fiscal Years 2015-16 and 2016-17 as the CIP's are scheduled prior to the timeframe the fees are projected to be collected. The Reserve for Treatment Plant is for long term capital costs. A general reserve is used for emergencies, contingencies and rate stabilization.

The Solid Waste Management Fund accounts for the collection, transportation, recycling and disposal services of the City. It also funds two of the City's landfill post closure maintenance activities. Revenues for payments to Recology are included for informational purposes only, a budget is not adopted for Recology. A general reserve is used for emergencies, contingencies, rate stabilization and required Financial Assurance Mechanisms (FAMs) if applicable.

Ending Balance, June 30	$ 1,010,597	2,208,972	2,561,918	2,664,257

The City implemented a self-insurance program for Workers' Compensation benefits on September 7, 1975 as authorized by Council Resolution No. 10581. This program provides for State mandated insurance benefits (salary and medical costs) for employees who are injured on the job.

This fund accounts for current operating expenditures, future costs of previously incurred injury claims and reserves for catastrophic losses. This fund also provides for the administration of safety and loss prevention programs throughout the City to reduce the probability of incurring future catastrophic claims against the City.

The increase in the actuarial valuation as of June 30, 2014, caused the ending balance to be less than policy. Additional transfers in Fiscal Year 2015-16 have brought the balance to above policy level.

Ending Balance, June 30	$	3,775,525	3,775,525	3,055,343	3,055,343

On August 11, 1980, Council approved a self-insurance program for liability insurance effective September 1, 1980. Existing provisions include claims approval authority to $30,000 and any claims exceeding $30,000 require City Council approval.

The City acts as its own agent and controls risk to limit liability loss exposure. There is a $1.0 million self-insurance retention for each liability incident. The minimum reserve and balance for future claims of $2.0 million is maintained in accordance with Council policy. Other insurance such as property, flood, earthquake and other coverages are not self-insured as the City purchases insurance policies.

Balance in CERBT	$	89,834,937	94,452,023	96,277,300	104,669,660

This fund was established in Fiscal Year 1985-86 as a self-insurance fund to pay the health insurance premiums of employees retired from the City. Governmental Accounting Standards Board (GASB) issued Statement No. 45, which requires an actuarial valuation be performed bi-ennially to calculate the City's other post employment benefits (OPEB) liabilities. The City implemented GASB Statement No. 45 in Fiscal Year 2007-08 and has chosen to budget the Annual Required Contribution (ARC). The most recent actuarial valuation calculated a liability of $123.8 million as if July 1, 2015. The reserve is supplemented as funds become available.

On February 26, 2008 Council approved joining the California Employers Retiree Benefit Trust (CERBT), managed by the California Public Employees Retirement System (PERS) and the City began transferring funds in Fiscal Year 2008-09 and intends to, at a minimum, annually transfer the ARC less Retirees' Health premiums.

(1) Governmental fund balances are reported based on the reporting hierarchy established by GASB Statement No. 54 (Fund Balance Reporting and Governmental Fund Type Definitions) that is based on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in a fund can be spent.
- Restricted - Constraints on expenditures are externally imposed by creditors, grantors, or laws/regulations of other governments or by enabling legislation.
- Committed - Formal action by the City Council (Council) places the constraint on how the funds can be spent and may only be altered by the same type of Council action. Contractual obligations are included in this category.
- Assigned - The City's intent to use funds for a specific purpose as expressed by Council or a delegated authority.
- Unassigned - This is the residual classification for the General Fund.

(2) Appropriations for Compensated Absences Reserve are on an as needed basis up to the amount of the balance.

(3) Comprised of a $5.0 million reserve policy balance plus $3.2 million prepaid lease for the Downtown Family Housing project.

(4) Reserves $409,892 for a property lease ($125,000 per year for Fiscal Years 2018-19 through 2020-21 including a 3.0% annual CPI adjustment).

(5) Up to $1.0 million to be used for the Mountain View Employee Homebuyer Program.

CAPITAL IMPROVEMENT PROJECTS

Return to Previous

ADOPTED FISCAL YEAR 2016-17 CAPITAL IMPROVEMENT PROGRAM

Capital Improvement Program (CIP) projects include, but are not limited to, facilities, mobility-related infrastructure, park development/rehabilitation, and utilities projects. These projects are usually multi-year and, thus, extend beyond the annual budget. The CIP is a five-year expenditure plan detailing funding sources and expenditure amounts.

The emphasis for the Fiscal Year 2016-17 Capital Improvement Program (CIP) is on the:

- Review, refinement and funding of Fiscal Year 2016-17 projects identified in the Five-Year Capital Plan adopted by the City Council last June.

- Identification and funding of additional new projects for Fiscal Year 2016-17 given anticipated financial and staffing resources, that support City Council goals and priorities, address health and safety concerns, are needed to comply with regulatory requirements, and/or generate operational savings or revenues.

The CIP is funded from a variety of sources. Some funding sources, such as the CIP Reserve and Construction/Conveyance Tax (C/C Tax) Funds, have no restrictions on their use. Other CIP funding sources must be used for specific purposes (e.g., Water Fund—water system infrastructure and maintenance; Wastewater Fund—sewer system infrastructure and maintenance; Shoreline Community Fund—projects that facilitate development in the City's North Bayshore Area and/or support Shoreline Regional Park operations; and Gas Tax Fund—design and construction of roadway improvements).

The Fiscal Year 2016-17 CIP is balanced and maintains all fund reserves as required by Council policy. There is an estimated total of $12,500 of increased annual future operating costs associated with Evandale Mini Park ($5,000), and Mora/Ortega Park ($7,500). There are also increased annual future operating costs of $2,300 associated with the Community Garden at Shoreline and Latham that will be offset by annual revenues of $7,000.

Projects included in the Fiscal Year 2016-17 Adopted CIP are listed on the following pages in three separate categories: (1) Non-Discretionary, (2) Discretionary, and (3) Amendments to Existing Projects.

Return to Previous

FISCAL YEAR 2016-17
ADOPTED **NON-DISCRETIONARY** ON-GOING CHANGES

GENERAL OPERATING FUND

CITY MANAGER'S OFFICE

Contract Services: $ 33,700
Provides increased funding for professional contract services to assist the City with environmental issues, website programming and training for staff, and the renewal and disengagement of PEG (Public, Education and Government) funding to pay for the KMVT Community Television agreement.

Preemployment Physicals: $ 5,000
Provides increased funding for preemployment medical services associated with the increase in the number of applicants.

PERS Replacement Benefits: $ 4,000
Provides increased funding for certain retiree payments due to the change in the processing of PERS replacement benefits.

City Manager's Office Total **$ 42,700**

INFORMATION TECHNOLOGY DEPARTMENT

SQL Server Software Assurance Contract: $ 6,400
Provides funding to purchase Microsoft software assurance contracts for SQL Server Licenses.

Information Technology Department Total **$ 6,400**

FINANCE AND ADMINISTRATIVE SERVICES DEPARTMENT

Project Sentinel: $ 10,000
Provides increased ongoing funding for a total of $25,000 for Project Sentinel. At the direction of the City Council this program is no longer funded through the CDBG/nonprofit agency funding process. Fiscal Year 2015-16 included $10,000 limited-period funding. This is for baseline services, not the new rental dispute process.

Audit Services: $ 5,000
Provides increased funding for external auditing services. The cost of the City's external auditors' services has increased gradually over time. The City issued a Request for Proposal for auditing services and the new fees are slightly higher than the City's previous auditors' fees.

Return to Previous

PERS Replacement Benefit: $ 3,500
Provides increased funding for certain retiree payments due to the change in the processing of PERS replacement benefits.

Finance and Administrative Services Department Total **$ 18,500**

COMMUNITY DEVELOPMENT DEPARTMENT

PG&E Cost Increase: $ 3,500
Provides increased funding for PG&E's annual rate increase (the total PG&E cost increase for all funds citywide is $152,500).

Community Development Department Total **$ 3,500**

PUBLIC WORKS DEPARTMENT

PG&E Cost Increase: $ 114,000
Provides increased funding for PG&E's annual rate increase (the total PG&E cost increase for all funds citywide is $152,500).

Janitorial Cost Increases for City Facilities: $ 15,000
Provides additional funding for contractual increases to janitorial services.

City Utility Cost Increase: $ 10,000
Provides increased funding for City utility services used by City departments based on the proposed utility rate adjustment.

PERS Replacement Benefit: $ 4,600
Provides increased funding for certain retiree payments due to the change in the processing of PERS replacement benefits.

Public Works Department Total **$ 143,600**

COMMUNITY SERVICES DEPARTMENT

Ticket Services – Fee Coverage: $ 17,100 (offset by $25,000 in fees;)
Provides funding to cover a per-ticket fee assessed on all ticket sales by the new ticket software vendor, ShoWare. Funding is also needed to cover the cost of gateway fees assessed on each transaction. In addition, $7,900 has been transferred from the Information Technology Department for costs associated with the previous system.

Return to Previous

FISCAL YEAR 2016-17
ADOPTED **NON-DISCRETIONARY** ON-GOING CHANGES

GENERAL OPERATING FUND
(Continued)

Maintenance Contract Increases: $ 4,200
Provides CPI increased funding for various maintenance contract increases.

Turf Management and Maintenance: $ 3,000
Provides increased funding to maintain mowers and turf equipment at safe and efficient levels.

Ticket, Technical, and Marketing Services: $ 2,400
Provides CPI increased funding for ticket, technical, and marketing services.

PG&E Cost Increase: $ 2,000
Provides increased funding for PG&E's annual rate increase (the total PG&E cost increase for all funds citywide is $152,500).

Materials and Supplies for Ongoing Park Maintenance: $ 1,300
Provides increased funding to purchase operating supplies for ongoing park maintenance.

Community Services Department Total	**$ 30,000**
Total Non-Discretionary On-Going	**$ 244,700**

Return to Previous

FISCAL YEAR 2016-17
ADOPTED **NON-DISCRETIONARY** ON-GOING CHANGES

OTHER FUNDS

FINANCE AND ADMINISTRATIVE SERVICES DEPARTMENT

Water Fund
Utility Online Payment Processing: $ 15,000
Provides increased funding for credit card payment processing costs associated with an increase in usage of online Utility Services payments.

Workers' Compensation Fund
Workers' Compensation Excess Insurance: $ 83,000
Provides increased funding for Workers' Compensation excess insurance. The increased cost is related to increased overtime, payroll, as well as loss experience.

Finance and Administrative Services Department Total **$ 98,000**

PUBLIC WORKS DEPARTMENT

Shoreline Community Fund
PG&E Cost Increase: $ 6,000
Provides increased funding for PG&E's annual rate increase for the Shoreline Lake (the total PG&E cost increase for all funds citywide is $152,500).

Water Fund
Bay Area Water Supply and Conservation Agency (BAWSCA) Dues: $ 9,800
Provides funding for the increase in dues to the City's membership in BAWSCA, which represents the interest of 25 agencies and 2 private water companies that purchase wholesale water from the San Francisco regional (Hetch Hetchy) water system operated by the SFPUC.

Solid Waste Fund
Commercial Composting Processing: $ 50,000
Provides increased funding for the City's Commercial Composting Processing Program. Additional funds are needed to cover the increase in cost due to a 2.6 percent CPI and the continuing expansion of the program.

Public Works Department Total **$ 65,800**

COMMUNITY SERVICES DEPARTMENT

Shoreline Community Fund
PG&E Cost Increase: $ 27,000
Provides increased funding for PG&E's annual rate increase and cost for the Shoreline Athletic Fields (the total PG&E cost increase for all funds citywide is $152,500).

Return to Previous

Maintenance Contract Increases: $ 1,600
Provides CPI increased funding for various maintenance contract increases.

Community Services Department Total **$ 28,600**

FIRE DEPARTMENT

Wastewater Fund
SCVURPPP and NPDES Permit Fees: $ 7,000
Provides increased funding for the Santa Clara Valley Urban Runoff Pollution Prevention Program (SCVURPPP) and National Pollutant Discharge Elimination System (NPDES) permit fees due to increases in trash control, green infrastructure, and Pollutant of Concern (PCB and mercury) requirements that will take effect during the first year of the reissued permit.

Fire Department Total **$ 7,000**

Total Non-Discretionary On-Going **$ 199,400**

GENERAL OPERATING FUND

NON-DEPARTMENT

Housing Trust Boomerang Funds: $ 51,000
Provides funding for the 20.0 percent of the net ongoing Boomerang Funds (former Revitalization Authority funds). These funds are appropriated for low and moderate-income housing but are not designated for a specific project or program. Funds will be transferred to the Housing Fund annually.

Non-Department Total **$ 51,000**

CITY COUNCIL

The Council Procedures Committee (CPC) met on February 23, 2016 to discuss the Council's Budget in accordance with Council Policy A-2. Costs associated with Training, Conference, and Travel (TCT) have increased. The CPC recommended the following:

Training, Conference, and Travel: $ 3,500
The CPC recommended the training, conference, and travel budgets be increased by $500 for each Councilmember.

City Council Total **$ 3,500**

CITY ATTORNEY'S OFFICE

Core Logic/MetroScan Annual License Fee: $ 1,200
Provides increased funding for the MetroScan software annual licensing fee. The software is used to obtain essential information regarding property owners.

City Attorney's Office Total **$ 1,200**

CITY MANAGER'S OFFICE

Referral Incentive and Signing Bonus Programs: $ 100,000
Updates the City's recruitment strategies. This will provide funding to support successful recruitments for positions that are especially difficult to fill and includes enhancing the existing referral bonus offered to current employees who are instrumental in attracting candidates (to include a choice of either a cash bonus or vacation hours) and also the introduction of a signing bonus to be offered when necessary to successfully hire top talent in difficult to fill positon.

Return to Previous

Communications Coordinator Position (0.50): $ 92,700
Converts a limited-term 0.50 FTE Communications Coordinator position to ongoing to support the current and projected workload for the City's Community Information Program.

Minimum Wage Contract: $ 10,000
Provides funding for contract services with the San Jose Office of Equality Assurance to enforce the City's minimum wage ordinance.

Mountain View Employees' Association (MVEA): $ 1,000
Provides increased funding to the MVEA to continue the Holiday Luncheon for employees. Costs have increased and the increase is requested to maintain the same level of quality.

CalOpps Annual Fee: $ 500
Provides increased funding for the CalOpps annual fee. CalOpps is used to advertise for the City's open recruitments.

City Manager's Office Total **$ 204,200**

INFORMATION TECHNOLOGY DEPARTMENT

IT Analyst I/II – Application Support Position: $ 169,600
Provides funding for an IT Analyst I/II position. This position will support the increase in technology initiatives, including managing of some technology systems in the Police Department and other departments.

Geographic Information System (GIS) Data Conversion Services: $ 50,000 (offset by $50,000 in fees)
Provides funding for contracting services to convert developer's plans to GIS data to maintain the City's GIS up-to-date.

Granicus Votecast System: $ 15,000
Provides funding for subscription services for the new Granicus Votecast System.

Information Technology Department Total **$ 234,600**

FINANCE AND ADMINISTRATIVE SERVICES DEPARTMENT

Senior Management Analyst Position: $ 169,500
Provides funding for a Senior Management Analyst position. This position will perform a variety of duties to support the increased demand for financial analysis of the department and city-wide.

Return to Previous

Senior Management Analyst Position: $ 169,500
Converts a limited-term Senior Management Analyst position to ongoing to assist with the monitoring of prevailing wage compliance, implementation of purchasing process improvements, and other workload demands.

Online Payment Processing: $ 99,000
Provides funding for payment processing costs to implement accepting payments online for business licenses, multi-family housing, and miscellaneous accounts receivable.

Buyer Position (0.25): $ 3,800 ($37,800 offset by $34,000 from a 0.50 FTE Vacant Copy Center Assistant Position)
Provides funding for 0.25 FTE of a Buyer position, adding to an existing 0.75 FTE position. This increase will provide additional Purchasing resources. Total cost of $37,800 is offset by the net of the elimination of the 0.50 FTE vacant Copy Center Assistant position and added Copy Center Assistant hours.

2-1-1 Santa Clara County United Way Silicon Valley: $ 2,500
Provides funding to support the 2-1-1 SCC United Way. 2-1-1 is a regional service to provide multilingual referrals for a wide range of community services.

Finance and Administrative Services Department Total **$ 444,300**

COMMUNITY DEVELOPMENT DEPARTMENT

Rental Housing Dispute Resolution Program: $ 110,000 (offset by $110,000 in fees)
Provides funding for contracting services to administer the City's Rental Housing Dispute Resolution Program adopted on April 26, 2016.

Noticing for Housing Projects and Programs: $ 3,000
Provides increased funding for noticing expenditures for affordable housing policies and the Council Neighborhoods Committee programs.

Community Development Department Total **$ 113,000**

PUBLIC WORKS DEPARTMENT

Generator Maintenance: $ 45,000
Provides increased funding for generator maintenance at multiple locations throughout the City. Generator maintenance requires a specialized skill and, due to personnel changes and an increased number of generators, the department is unable to adequately perform this crucial function with existing resources. The total cost of $91,000 is allocated between GOF, Water ($25,000) and Wastewater ($21,000) Funds.

Public Works Department Total **$ 45,000**

Return to Previous

COMMUNITY SERVICES DEPARTMENT

Park Maintenance Worker I/II Position - Roadway Crew (0.25): $ 29,200
Provides funding for a 0.25 FTE Park Maintenance Worker I/II position, adding to an existing 0.75 FTE position. The additional resources will help to maintain the 121 acres of median landscaping and irrigation throughout the City. The Roadway Crew also assists the Permanente and Steven Creek Trails, and special City events (e.g., concerts and Thursday Night Live).

Park Maintenance Worker I/II Position - South Parks (0.25): $ 29,200
Provides funding for a 0.25 FTE Park Maintenance Worker I/II position, adding to an existing 0.75 FTE position. The additional resource will help to address the increased workload from the addition of several City parks in recent years.

After-School Program Wage Increase: $ 11,900
Provides increased funding to increase the hourly wage rate for the after-school program staff. Beyond the Bell is a program in collaboration with the Mountain View Whisman School Board. The Board increased their hourly wages and, as a result, the City is losing staff.

Recreation Activity Guide: $ 10,500
Provides increased funding for the redesign and distribution of the Recreation Activity Guide. The guide has been redesigned into a magazine format and will be distributed separately. Previously the guide was distributed together with the City Manager's Office's publication. Therefore, $17,000 has been transferred from the City Manager's budget to Community Services for the Recreation Activity Guide.

Aquatics Fitness Classes: $ 10,000 (offset with $14,500 in revenue)
Provides funding for contract services with a fitness instructor. The funding will allow for various aquatic classes to be offered year-round to adults and seniors.

Aquatics Operations: $ 10,000
Provides increased funding for the maintenance of the Eagle and Rengstorff Pools. The increase in maintenance costs are primarily related to the increase in the cost of materials and chemicals.

Materials and Supplies for Pesticide Control: $ 7,000
Provides increased funding for materials and supplies for pesticide control. Staff is transitioning to organic, eco-friendly herbicides which reduce the environmental impact but are more costly than conventional herbicides.

Return to Previous

Overtime Budget for Furlough and Urban Forest Programs: $ 6,000
Provides increased funding of $3,000 to the overtime budget for the Furlough Program and $3,000 to the Urban Forest Program. Overtime is utilized when additional staff is needed for roadway lane closures or to cover absences. In addition, the recent drought has caused higher mortality rates for trees and has resulted in more after-hours and weekend calls.

Senior Center Operations: $ 6,000
Provides increased funding for janitorial supplies for the Senior Center to accommodate the increased usage of the facility.

Maintenance and Supplies for North Neighborhood Facilities and Rengstorff Park: $ 5,000
Provides increased funding of $3,000 to cover the costs of equipment and supplies needed to maintain the North Neighborhoods Parks and Facilities and $2,000 for Rengstorff Park. Additional funds are needed due to the increase in cost of topsoil, grass seed, compost, and to replace old equipment.

Materials and Supplies for Weekend Furlough Program: $ 2,500
Provides increased funding for materials and supplies needed for the Weekend Furlough Program to maintain Central Expressway along with City-owned parcels.

Aquatic Slide Inspection and Permit: $ 2,400
Provides funding to ensure the water slide at the Rengstorff Pool is in compliance with the California Department of Health and Safety Amusement Ride Division. Annual inspections are required to receive the permit to operate the slide.

Qualified Applicators Certificate (QAC) for Pesticides: $ 1,500
Provides increased funding for six employees to obtain and renew annually a Qualified Applicators Certificate (QAC) for use of pesticides. The QAC is part of the Parks Maintenance Worker's job description and it is required for all Crew Leaders.

Community Services Department Total **$ 131,200**

LIBRARY SERVICES DEPARTMENT

Librarian I/II Position (0.25): $ 40,400
Provides increased funding for 0.25 FTE of a Librarian I/II position, adding to an existing 0.75 FTE position. The increase in additional staff will support the increased demand for children's programs.

Return to Previous

Library Materials: $ 40,000
Provides increased funding for books and Library materials loaned to the public. The preliminary data indicated that Mountain View's materials budget is approximately 15.0 percent below certain benchmark libraries.

Reclassification of two Librarian I/II Positions to Librarian III: $ 20,500
Provides funding for the reclassification of two Librarian I/II positions based on a higher level of duties performed.

Wages for Sunday Hours: $ 11,800
Provides increased funding for staff to operate on Sundays during a holiday weekend (five Sundays in Fiscal Year 2016-17). About eight years ago, the City eliminated Library hours on the Sunday prior to a holiday; this funding would reestablish the hours for those Sundays.

Cartridges and Paper for Poster Printer: $ 1,600
Provides increased funding for cartridges and paper for the poster printer. Support supplies were not previously budgeted because the printer was purchased with a donation from the Friends of the Library.

Conversion of 0.50 FTE Library Assistant III Position to Hourly: No Cost
Converts a 0.50 FTE Library Assistant III position to hourly to provide additional resources of staff time.

Conversion of two 0.50 FTE Librarian I/II Positions to a Librarian I/II: No Cost
Converts two 0.50 FTE Librarian I/II positions to a Librarian I/II position.

Library Services Department Total **$ 114,300**

FIRE DEPARTMENT

Firefighter Clothing Laundering Services: $ 10,000
Provides increased funding for laundering/decontaminating Firefighter's Personal Protective Equipment. These funds will be used to hire an outside vendor to clean, decontaminate, inspect, maintain, and document the condition of the clothing.

Medical Oxygen Charges: $ 6,000
Provides increased funding for monthly medical oxygen service charges. Medical oxygen is provided on EMS calls when warranted. The budget for this item has not been increased in the last 10 years and the cost has significantly increased.

Return to Previous

Cellular Data Monthly Services: $ 5,500
Provides increased funding for monthly cellular data service charges. Additional programs requiring cellular data service have been added to the department.

Emergency Medical Supplies: $ 3,500
Provides increased funding for emergency medical supplies that are outside of the agreement with Rural Metro.

Fire Department Total **$ 25,000**

POLICE DEPARTMENT

Wireless Data/South Bay Information Sharing System (SBISSS)/CopLink: $ 71,800
Provides increased funding for services related to the regional crime information system and wireless data services for Police and Fire Department users. The Santa Clara County Office of the Sherriff is passing the cost of supporting the regional "CopLink" information sharing system to the constituent agencies that use the system.

Office Assistant III (0.50) Position: $ 58,600
Provides funding for a 0.50 FTE Office Assistant III Position. The position will provide needed support that is currently being performed by the Senior Management Analyst.

Officer-Worn Camera Data Storage System: $ 19,000
Provides funding for Officer-Worn Camera Data Storage System. All Field Operations Division uniform personnel utilize the Officer-Worn Cameras and the program will possibly expand to include Detectives and Reserve Police Officers. Funds are needed for the required increase in storage capacity.

Unmarked Vehicle Leases: $ 14,400
Provides increased funding for two additional unmarked leased vehicles. Two Officer positions will be reassigned to the Investigative Service Division, requiring two additional vehicles.

Police Department Total **$ 163,800**

Total Discretionary On-Going **$ 1,531,100**

Return to Previous

FISCAL YEAR 2016-17
ADOPTED **DISCRETIONARY** ON-GOING CHANGES

OTHER FUNDS

NON-DEPARTMENT

General Non-Operating Fund

Housing Trust Boomerang Funds: $ 210,300 (rebudget)

The Cities Association of Santa Clara County, Housing Trust Silicon Valley, and Silicon Valley Leadership Group joined together to support regional efforts to increase funding for affordable housing in our communities. As a result of the dissolution of redevelopment agencies (RDAs) and the loss of the previous 20.0 percent housing set aside for low- and moderate-income housing funds, the proposal identifies two potential streams of revenue: (1) the one-time funds that were unencumbered; and (2) the ongoing funds that are distributed to cities previously directed to RDAs. In Fiscal Year 2014-15, there were $149,800 and $51,000 of funds (to be reviewed annually) adopted as limited-period funds. These funds were committed with the intent the County would match such funds. Of the original $200,800 budgeted for Fiscal Year 2014-15, a balance of $191,800 remains. Of the $51,000 budgeted for Fiscal Year 2015-16, $10,000 was allocated to CSA and InnVision and $15,000 requested for the homeless vehicle dweller census and survey.

Solid Waste Fund

Online Payment Processing: $ 57,000

Provides funding for credit card payment processing costs to implement accepting payments online for business licenses, multi-family housing and miscellaneous accounts receivable.

Non-Department Total **$ 267,300**

COMMUNITY DEVELOPMENT DEPARTMENT

Development Services Fund

Senior Planner Position: $ 166,000

Converts a limited-term Senior Planner position to ongoing to support the high level of development activity.

Permit Technician Position: $ 132,600

Provides funding for a Permit Technician position. This position will provide additional resources needed to the permitting process as a result of the continuing high levels of permitting activity.

Office Assistant I/II Position: $ 100,800

Provides funding for an Office Assistant I/II position. This position will help to alleviate the increase in workload and provide essential clerical functions to the department.

Community Development Department Total **$ 399,400**

Return to Previous

OTHER FUNDS
(Continued)

PUBLIC WORKS DEPARTMENT

Water Fund
Generator Maintenance: $ 25,000
Provides increased funding for generator maintenance as mentioned in the General Operating Fund section above.

Wastewater Fund
Generator Maintenance: $ 21,000
Provides increased funding for generator maintenance as mentioned in the General Operating Fund section above.

Solid Waste Fund
The Resource Newsletter: $ 20,000
Provides funding for the printing, design, and mailing of *The Resource Newsletter*. The newsletter was previously packaged with *The View* and *Recreation Guide*. It is recommended all three products be produced and mailed separately.

Public Works Department Total **$ 66,000**

COMMUNITY SERVICES DEPARTMENT

Shoreline Golf Links
Personnel Costs: $ 34,300
Provides increased funding for Touchstone personnel costs.

Net Miscellaneous: $ (53,100)
Provides savings from reductions in Utilities ($29,300), Materials and Supplies ($19,200), and other net Maintenance and Operations ($4,600).

Shoreline Community
Park Rangers Contract: $ 25,000
Provides increased funding for the California Land Management's (CLM) Ranger and park janitorial services. The City will be going out to bid for Ranger services during Fiscal Year 2016-17 and cost are anticipated to increase by approximately $25,000.

Shoreline Athletic Field Maintenance: $ 12,000
Provides funding for the maintenance and operating costs of the new Shoreline Athletic Fields.

Community Services Department Total **$ 18,200**

Return to Previous

OTHER FUNDS
(Continued)

FIRE DEPARTMENT

Wastewater Fund

Hazardous Materials Electronic Portal: $ 8,200 (offset with $4,000 in County reimbursements)

Provides funding for the annual maintenance and license fee for the Hazardous Materials Electronic Portal. AB 2286 requires local governments and businesses to electronically report hazardous materials business plan information to the State. The City, along with other neighboring agencies, have collaborated over the past two years with the Santa Clara County Department of Environmental Health to develop a web-based portal. The funds requested will pay for the annual maintenance and license fee, which will be offset with a reimbursement from the County.

Fire Department Total	**$ 8,200**
Total Discretionary On-Going	**$ 759,100**

Return to Previous

FISCAL YEAR 2016-17
ADOPTED **LIMITED-PERIOD** EXPENDITURES

GENERAL FUND
(Funded From Fiscal Year 2015-16 Carryover)

CITY-WIDE

One-Time Employee Bonus: $ 261,300
Provides funding for a one-time flat dollar cash payment for all regular employees.

City-Wide Total **$ 261,300**

CITY COUNCIL

Newly Elected Council Per-Term Allowance: $ 15,200
Provides funding per Council Policy A-2, whereby each Councilmember is to receive an allowance of $3,800 per term for specialized office equipment necessary to allow Councilmembers to perform their official duties and communicate with the public and staff.

Council Team Building: $ 5,000
Provides funding for Council team building. With the 2016 election and new members joining the Council, the CPC recommended additional funding for a Council team building for 2017, as was done in early 2015.

Furniture for Mayor's Office (rebudget): *$ 3,000*
Rebudgets funding for furniture for the Mayor's office.

City Council Total **$ 23,200**

CITY CLERK'S OFFICE

November 2016 Election: $ 110,000
Provides funding for the November 8, 2016 General Municipal Election, including four Council seats, the nomination process, candidate statements and ballot title reviews. This does not include the cost of a possible charter amendment initiative.

Microfilm Digitizing Service (rebudget)*: $ 13,300*
Rebudgets funding to convert existing microfilm to digital format. Digitizing microfilm will allow easier access for the public and increase efficiency in responding to public records requests.

Records Retention Schedule: $ 3,000
Provides funding to update the Records Retention Schedule, including the review and update of the Government Code Citations related to document retention levels and preparation of a revised document for Council approval.

City Clerk's Office Total **$ 126,300**

Return to Previous

CITY ATTORNEY'S OFFICE

Legal Services: $ 75,000
Provides funding for additional legal services. This funding will provide additional legal resources to address fluctuations in workload by assisting with pending high priority projects (e.g., litigation support, public records requests, research projects, drafting of ordinances and specialized agreements) requiring legal review and subject matter expertise.

City Attorney's Office Total **$ 75,000**

CITY MANAGER'S OFFICE

Human Resources Analyst I/II Position: $ 147,000
Provides continuation funding for a limited-term Human Resources Analyst I/II position. This position will assist with the high volume of recruitments; provide support in administering the benefits program, and special event planning.

ICMA Fellow: $ 135,700
Provides funding for a Management Fellow position. The objective of this position is to provide an increased level of analytical rigor and effectiveness for important City issues. The position will develop tools and training that promote high quality analysis and will provide direct analytical support in the development of critical department and citywide projects.

Employee Transportation Program: $ 80,000
Provides funding for a pilot program to provide incentives to reduce drive-alone rates to aid congestion management and reduce employee commute costs and stress.

Labor Negotiations: $ 60,000
Provides funding for a Labor Negotiations Attorney and other costs to assist with contract negotiations and strategies. All four represented employee groups' current agreements will expire June 30, 2017 and, therefore, will be bargaining in Fiscal Year 2016-17.

Employee Engagement Initiatives: $ 50,000
Provides funding for employee engagement initiatives. The City has undertaken an initiative to identify improvements to our workplace that will maximize employee engagement, retention, and effectiveness. Based on employee input from a survey and series of focus groups, staff is developing a variety of programs to foster greater connections and communication between all levels and departments of the organization, offer more ways for employees to provide input and feedback and enhance opportunities for learning and development.

Return to Previous

***Innovation Lab Grant (rebudget)**: $ 20,000*
Rebudgets "start-up" funding for the "Innovation Lab" program. The City Manager launched the program, at the suggestion of employees, to encourage managers to "pitch" ideas to improve operations or services. The intent is to foster a proactive culture of innovation in the organization. This program is being redesigned.

Workplace Investigations: $ 15,000
Provides funding for the assistance of external investigators. Workplace investigations are unpredictable, and Human Resources seeks assistance from an external investigator when the workload prevents them from conducting the investigation internally.

***Paid Internship (rebudget)**: $ 15,000*
Rebudgets funding to participate in the regional internship program created by the City Manager Associations of Santa Clara and San Mateo Counties and have a year-round intern.

Multilingual Outreach Program: $ 6,000
Provides increased funding for staff time and supplies to accommodate the increase in demand for translation, interpretation, outreach, and referral assistance.

Telecommunications Legal Services: $ 5,000
Provides funding for outside legal counsel to assist with the Statewide cable franchise agreements.

Citizen Leadership Academy: $ 4,000
Provides funding for staff time and supplies to develop and implement a Spanish-language Citizen Leadership Academy. The intent of the Academy is to improve residents' understanding of government and City services, increase civic engagement, leadership, and volunteerism in the City.

***Assorted Digital Communications Technical Needs (rebudget)**: $ 2,000*
Rebudgets funding for social advertisement through various outlets.

***The View Newsletter & Print Products (rebudget)**: $ 1,500*
Rebudgets funding for increased bulk postage costs and redesign of citywide products.

City Manager's Office Total **$ 541,200**

INFORMATION TECHNOLOGY DEPARTMENT

Secretary Position (0.50): $ 66,800
Provides funding for a half-time, limited-term Secretary position to provide administrative support to the IT Department. Currently, IT and the Purchasing

Return to Previous

Division in the Finance and Administrative Services Department share a Secretary position. This position will assume administrative functions from other IT Analyst staff that currently is not accommodated by the shared Secretary position.

SQL Server Licensing: $ 22,400
Provides funding for additional SQL Server Licensing. The City has purchased six licenses but has 40 licenses in production to support various applications.

Information Technology Department Total **$ 89,200**

FINANCE AND ADMINISTRATIVE SERVICES DEPARTMENT

Safety Training Study: $ 40,000
Provides funding to perform a Citywide Safety Training Study. The study would provide for information on Best Practices, review resources available, and recommend a safety program appropriate for the City.

Transient Occupancy Tax Compliance Audit: $ 35,000
Provides funding for an audit of the City's hotels and motels to ensure compliance with the City's Transient Occupancy Tax ordinance.

Customer Service Representative (Hourly): $ 30,000
Provides funding for an hourly position to assist with the coverage at the front counter. The hourly help will provide coverage for the regular Customer Service Representative position during the morning break and lunch hour in order to minimize disruption to other staff and the public.

Nonprofit Agency Funding: $ 21,100
Provides continued (Year 2 of funding cycle) funding to nonprofit agencies as identified by Council at the CDBG hearing April 19, 2016.

Purchase Card Transaction Review: $ 20,000
Provides funding for an outside consultant to review departments' compliance with purchasing card policies.

Nonprofit Funding - Housing Trust Boomerang Funds: $ 10,000
Provides continued (Year 2 of funding cycle) funding to the Community Services Agency (CSA) and LifeMoves to increase services to the homeless population in the City.

Finance and Administrative Services Department Total **$ 156,100**

Return to Previous

COMMUNITY DEVELOPMENT DEPARTMENT

***Soft-Story Building Study (rebudget)**: $ 175,000*
Rebudgets funding for a study on soft-story buildings that could be at risk of collapse from an earthquake in the City and propose potential programs and incentives that could be adopted to retrofit these structures. The total funding of $350,000 is allocated between the General Non-Operating, Development Services, and Below-Market-Rate Housing Funds.

***Housing Element Update (rebudget balance)**: $ 110,300*
Rebudgets the balance available to implement action items required by the mandated new Housing Element adopted October 2014.

***Silicon Valley Clean Energy Authority (SVCEA) (rebudget balance):** $ 100,000*
Rebudgets the balance of funding approved by Council on January 12, 2016 for the Community Choice Energy Program.

Environmental Sustainability Analyst (Hourly): $ 40,000
Provides funding for assistance with the implementation of the City's Climate Protection Roadmap (CPR), the Municipal Operations Climate Action Plan (MOCAP), Environmental Sustainability Action Plan, as well as assistance with on-going projects and grant opportunities.

El Camino Real Light Pole Banners: $ 40,000
Provides funding to create and install new City banners on El Camino Real. The banners will create a consistent look that will identify the City's boundaries and promote the City.

2015 Greenhouse Gas (GHG) Inventory: $ 35,000
Provides funding of $20,000 for consultant services to conduct the 2015 municipal operations and $15,000 for communitywide GHG inventory in order to report on the GHG reduction targets.

***Rent Relief Strategies (rebudget balance)**: $ 22,600*
Rebudgets the balance of funding approved by Council on February 9, 2016 for noticing and outreach of rent relief strategies.

***Parking Coordinator Consultant (rebudget):** $ 20,000*
Rebudgets funding for a Parking Coordinator Consultant to help manage a number of Citywide parking initiatives. The total funding of $70,000 is allocated between the General Non-Operating and Downtown Benefit Assessment Districts Funds.

***Employee Homebuyers Program Administration (rebudget)**: $ 5,000*
Rebudgets funding for materials and services related to the Employee Homebuyers Program.

Community Development Department Total **$ 547,900**

Return to Previous

PUBLIC WORKS DEPARTMENT

Bay Area Bike Share Program (rebudget balance): *$ 93,500*
Rebudgets the balance of funding approved by Council on May 24, 2016 for the Bay Area Bike Share Program.

Associate Civil Engineer-Traffic Position (0.45): $ 78,300
Provides funding for a limited-term Associate Civil Engineer position (the other 0.55 FTE is funded from the Development Services and the Shoreline Community Funds). The position will support the increased workload in the Traffic Engineering Section due to high levels of development activity, inquiries from the *Ask Mountain View* system, and an increased emphasis on improving the pedestrian and bicycle environment in the City.

Pilot Program for Sidewalk Ramping and Grinding: $ 46,000
Provides funding for a pilot program to hire two hourly seasonal workers to perform sidewalk ramping and grinding operations. These additional resources will allow the Streets Division to complete an additional 1,000 locations and dedicate more resources to maintain the City's Pavement Condition Index.

Program Assistant – Engineering Position (0.25): $ 30,500
Provides funding for a limited-term 0.50 FTE Program Assistant position (the other 0.25 FTE is funded from the Development Services Fund). The position will support the Engineering Division with organization of paper and electronic files, plans and specifications, AutoCAD files, reports, and other work products from capital improvements projects and land development projects, and report on various program activities.

Hourly Staff to Support the Capital Projects Section: $ 30,000
Provides funding for hourly staff to support the Capital Projects Section. The increase in workload is mainly attributable to the high level of development activity and the existing approved Capital Improvement Program.

Hourly Staff to Support the Traffic Section: $ 30,000
Provides funding for hourly staff to support the Traffic Section. The increase in workload is mainly attributable to the high level of development activity.

Associate Civil Engineer-Capital Projects Position (1.00): $ 18,300 ($156,600 offset by charges to CIPs)
Provides funding for a limited-term Associate Civil Engineer position and $900 for office equipment. The position will provide project management and design services for small and large capital projects.

Return to Previous

Assistant Civil Engineer-Capital Projects Position (1.00): $ 16,900 ($152,600 offset by charges to CIPs)
Provides continuation funding for a limited-term Assistant Civil Engineer position. The position will support the increased workload in development and the existing approved Capital Improvement Program.

Assistant Civil Engineer-Land Development Position (0.05): $ 8,500
Provides continuation funding for a limited-term Assistant Civil Engineer position (the other 0.95 FTE is funded from the Development Services, Shoreline Community, Water, Wastewater, and Solid Waste Funds). The position will support the increase in workload mainly attributable to the high level of development activity.

Public Works Department Total **$ 352,000**

COMMUNITY SERVICES DEPARTMENT

Performing Arts Supervisor Position (0.50): $ 71,000
Provides increased funding for 0.50 FTE of a Performing Arts Supervisor position to add to an existing half-time positon. The additional resources will help to maximize ticket sales and revenue at the Center for the Performing Arts.

Homeless Encampment Cleanups: $ 20,000
Provides funding to establish a contract with an organization to manage cleanups of homeless encampments within the City. Homeless encampments have increased significantly and the City work crews and work furlough participants are not trained to manage the potentially dangerous situations these cleanups require. In addition, the cleanup of encampments has resulted in time taken away from performing their regular assignments.

Milk Room/Goat Barn Remodel: $ 18,400
Provides funding for the materials to remodel Deer Hollow Farm's Milk Room and attached Goat Barn. The demolition and installation will be completed by the Midpeninsula Regional Open Space District maintenance staff.

Maintenance and Supplies for Roadway Landscaping: $ 10,000
Provides increased funding for the maintenance and supplies for Roadway Landscaping, specifically in the downtown area. Approximately 1,000 light strands are now kept up year-round and they require ongoing replacement due to vandalisms and wear and tear.

Tennis Equipment and Maintenance: $ 5,000
Provides increased funding to maintain the equipment at the City's 35 tennis courts. Additional funding is needed to keep the equipment at the courts in proper working condition.

Return to Previous

Senior Center 10-Year Anniversary: $ 3,000 (offset by $1,500 in sponsorship revenue)
Provides funding for the 10-year anniversary celebration of the Senior Center's inauguration.

***Center for the Performing Arts (CPA) 25th Anniversary (rebudget balance)**: $ 2,700*
Rebudgets the balance of funding to commemorate the CPA's 25th Anniversary. The event will feature multiple performances on various stages. Sponsorship revenues will be solicited to offset additional costs.

Community Services Department Total **$ 130,100**

LIBRARY SERVICES DEPARTMENT

eBooks: $ 10,000
Provides funding to expand the Library's eBook collection. eBooks typically cost two to five times more than print format.

Library Services Department Total **$ 10,000**

FIRE DEPARTMENT

***Firefighter Recruits (rebudget)**: $ 375,000*
Rebudgets funding for six Firefighter recruits to attend the Firefighter Academy for three months and for an approximately one-month transition-to-shift period.

Overtime Training: $ 100,000
Provides increased funding for overtime related to attending training or completing required certified courses.

***HazMat Program Training (rebudget)**: $ 45,000*
Rebudgets funding for the HazMat Training program. The MOU with Local 1965, specifies up to nine employees per shift that are Hazmat Technicians by July 2016.

Training and Education: $ 30,000
Provides increased funding for Training and Education. Additional funds are needed to meet the changes in State and national training standards. There are also a significant number of expected retirements and promotions over the next couple of years that will increase the demand for education and other specialized training.

***Firefighter Recruitments (rebudget balance)**: $ 22,100*
Rebudgets the balance of funding for the testing, training and equipment costs for Firefighter recruitments.

Return to Previous

Consolidated Dispatch Consultant (rebudget)*: $ 20,000*
Rebudgets funding for a regional consolidation of dispatch services feasibility study. Several fire departments within Santa Clara County have identified regional fire dispatch as an area of opportunity for regional collaboration to increase efficiencies.

Promotional Exams (rebudget)*: $ 9,900*
Rebudgets funding to conduct promotional assessment centers to fill anticipated vacancies for a Fire Battalion Chief position. The most recent eligibility list expired in July 2014

Multi-Purpose Devices (MPD): $ 8,700
Provides funding for the purchase of 11 MPDs - one for each engine and two each for the truck and rescue. The MPD is a NFPA-compliant pulley, descent control device, and belay device built in to one. These devices will simplify the rigging of the main line and also increase the safety of the belay line.

Hard Suction Hose and Strainer Replacement (rebudget)*: $ 5,000*
Rebudgets funding to replace a hard suction hose. The replacement is needed due to the poor conditions of the existing inventory.

Fire Department Total **$ 615,700**

POLICE DEPARTMENT

Communications Training Supervisor Position: $ 188,700
Provides funding for a Communications Training Supervisor position. The position will work in conjunction with the Communications Operations Supervisor to plan, coordinate, implement, and direct all training programs for Emergency Communications staff.

Public Safety Dispatch Overhire Position: $ 169,300
Provides funding for a Public Safety Dispatch Overhire position. The position is requested due to anticipated vacancies and the lengthy selection and training process. Includes $2,000 for hiring background checks.

Two Police Officer Trainee Positions: $ 155,700
Provides funding for two Police Officer Trainee positions at 50 percent funding. Police Officer Trainees provide flexibility for current and anticipated vacancies. There are multiple vacant Police Officer positions and additional vacancies anticipated in the next 12 months. Includes $10,000 for hiring background checks, training, and uniform costs.

Public Safety Network Design: $ 60,000
Provides funding for third-party consulting and technical services related to public safety computer network design, implementation of all-IP 9-1-1 and radio networks,

Return to Previous

and industry expertise with respect to federal information security policies and standards compliance.

Technology Training: $ 20,000
Provides funding for formal training courses for Police staff responsible for the ongoing configuration, troubleshooting and management of the City's public safety systems.

Police Department Total	**$ 593,700**

Total General Fund Limited-Period Expenditures	**$ 3,521,700**

(New $2,460,800; Rebudget $1,060,900)

Rebudgets are Fiscal Year 2015-16 non-operating appropriations that are unspent and approved to be carried over to Fiscal Year 2016-17.

Return to Previous

OTHER FUNDS

CITY MANAGER'S OFFICE

Cable Television Fund

Cable TV Broadcasting Equipment: $ 42,500
Provides funding to purchase an HD Live TV unit for mobile broadcasts (including data services), update radio equipment, and two portable HD Digital Switchers. The total cost is $85,000; half of the cost will be negotiated with KMVT as part of the contract renewal during Fiscal Year 2016-17.

City Manager's Office Total **$ 42,500**

COMMUNITY DEVELOPMENT DEPARTMENT

Development Services Fund

Associate Planner Position: $ 153,000
Provides continuation funding for a limited-term Associate Planner position. This position improves customer service at the counter, increases the number of over-the-counter "One Stop" permits that can be issued, and potentially increases the counter hours.

Web Enable Mountain View Permitting System (MVPS): $ 110,000
Provides funding for the web enabling of the current building database. This will allow inspectors to log inspections on a smart phone or other mobile device while in the field and update the database as their day progresses. Other departments and divisions will also have access to information on existing building and fire permits, and plan checks.

***Soft-Story Building Study (rebudget)**: $ 87,500*
Rebudgets funding for the allocation to the Development Services Fund as mentioned in the General Fund section above.

***One-Stop Permit Center Architectural Study (rebudget)**: $ 75,000*
Rebudgets funding for an architectural study of the feasibility of a one-stop permit center.

SB 743 – Transit-Oriented Infill Projects: $ 50,000
Provides funding for consultant services to assist the City with developing thresholds of significance related to the implementation of CEQA's new vehicle miles travelled (VMT) standards. SB 743 requires CEQA analysis of transportation impacts to move from LOS (level of service) to VMT standards.

***Document Processing Support (rebudget)**: $ 42,300*
Rebudgets funding for an hourly position to assist Document Processing with additional workload related to the North Bayshore studies and other development activity.

Return to Previous

New Code Adoption Materials: $ 17,000
Provides funding to purchase new sets of code books for staff and a set for the City Library. On a triannual basis, the State of California adopts a new series of codes that the Building Division is required to learn and apply during plan check and inspections. Additional funds are needed to purchase both the hard copy and electronic versions of the new code books. Electronic versions are needed to enable access via smart phones or other mobile devices.

***Legal Retainer (rebudget balance)**: $ 15,000*
Rebudgets the balance for legal consultation on land use law and California Environmental Quality Act (CEQA) issues associated with State Density Bonus Law; implementation of the Precise Plan, and regional efforts such as the Valley Habitat. The total funding of $20,000 is allocated between the Development Services and Shoreline Community Funds.

***Precise Plan Noticings (rebudget)**: $ 12,000*
Rebudgets funding for noticing the East Whisman Precise Plan. The notices are mailed to the Precise Plan areas to notify residents of Study Sessions, Public Hearings, and neighborhood meetings.

<u>Below Market Rate (BMR) Housing Fund</u>
***1701 West El Camino Real Affordable Housing Project (rebudget):** $ 2,000,000*
Rebudgets the funding approved by Council on June 21, 2016 for the affordable housing development at 1701-1707 West El Camino Real.

***Employee Homebuyers Program Loans (rebudget)**: $ 1,000,000*
Rebudgets funding for the Employee Homebuyers Program approved by Council during Fiscal Year 2008-09. This funding will only be available to employees that meet the median household income requirement.

***779 East Evelyn Avenue Affordable Housing Project (rebudget balance):** $ 550,000*
Rebudgets the balance of funding approved by Council on March 1, 2016 for the 779 East Evelyn Avenue Affordable Housing Project.

Rent Assistance Program: $ 200,000
Provides funding for a rent increase gap assistance program to be administered by the Community Services Agency (CSA). On December 1, 2015, Council approved an appropriation of $150,000 to fund this program for Fiscal Year 2015-16. The City currently funds $70,000 annually for a volunteer mediation program. The additional funding will allow CSA to provide a higher level of service and assistance to Mountain View renters who are having difficulties due to high rent increases over the past few years.

Return to Previous

***Soft-Story Building Study (rebudget)**: $ 87,500*
Rebudgets funding for the allocation to the BMR Fund as mentioned in the General Fund section above.

***Monitoring of Federal-Funded Subsidized Housing Developments (rebudget)**:$ 50,000*
Rebudgets funding for consultant services to perform required monitoring of Federal-funded subsidized housing developments over a three-year period.

***Employee Homebuyers Program Administration (rebudget)**: $ 20,000*
Rebudgets funding for materials and services related to the Employee Homebuyers Program.

Homeless Census Count: $ 6,000
Provides funding for a Countywide homeless census count. Every other year, the City contributes funds towards the homeless census count performed by the County.

Housing Impact Fund
***1701 West El Camino Real Affordable Housing Project (rebudget):** $ 3,978,400*
Rebudgets the funding approved by Council on June 21, 2016 for the affordable housing development at 1701-1707 West El Camino Real.

***1701 West El Camino Real NOFA Predevelopment (rebudget balance):** $ 117,800*
Rebudgets the balance of funding approved by Council on October 20, 2015 for the Palo Alto Housing NOFA Proposal–1701 West El Camino Real.

***779 East Evelyn Avenue NOFA Predevelopment (rebudget balance)**: $ 102,700*
Rebudgets the balance of funding for predevelopment costs related to the 779 East Evelyn Avenue NOFA project.

Notice of Funding Availability (NOFA) Administration: $ 40,000
Provides funding for a variety of tasks associated with affordable housing projects, including facilitators at neighborhood meetings, financial consultants for a budget analysis of NOFA proposals, and studies on unique site issues.

Rental Housing Impact Fund
***1701 West El Camino Real Affordable Housing Project (rebudget):** $ 1,000,000*
Rebudgets the funding approved by Council on June 21, 2016 for the affordable housing development at 1701-1707 West El Camino Real.

Downtown Benefit Assessments Districts Fund
Parking Technology Enhancements: $ 75,000
Provides funding for the third phase of the Downtown Parking Technology Study. The funding will be used to expand the real-time wayfinding signs to parking lots and parking enforcement technology to assist with the Police Department's parking enforcement efforts.

Return to Previous

***Third Parking Structure Feasibility Study (rebudget)**: $ 75,000*
Rebudgets funding to begin a study to identify a potential location for a third parking structure or evaluate other alternatives to increase available parking in the downtown area. This is on hold pending the outcome of the Request for Proposal for the Hope Street lots.

Parking Coordinator Consultant: $ 50,000
Provides funding for consultation services on parking programs and policies associated with the Parking District. The consultant will assist with designing and implementing programs that increase parking availability and convenience by managing the different parking user groups more efficiently. In addition, consultant support is needed for the possible expansion of the Parking District and changes to the Parking in-lieu Fee.

Shoreline Community Fund
***Precise Plan Implementation - District Utilities Feasibility Study (rebudget)**: $50,000*
Rebudgets funding to conduct a study involving cost/benefit analysis for a district-scale utility system. This item is part of the North Bayshore Precise Plan Implementation.

***Precise Plan Implementation - Consulting Arborist (rebudget)**: $ 30,000*
Rebudgets funding to assist with the analysis required for the replacement of the larger trees in the Precise Plan area. This item is part of the North Bayshore Precise Plan Implementation.

***Legal Retainer (rebudget balance)**: $ 5,000*
Rebudgets the balance for legal consultation on land use law and California Environmental Quality Act (CEQA) issues associated with State Density Bonus Law; implementation of the Precise Plan, and regional efforts such as the Valley Habitat. The total funding of $20,000 is allocated between the Development Services and Shoreline Community Funds.

Community Development Department Total **$ 9,999,200**

PUBLIC WORKS DEPARTMENT

Development Services Fund
Consultants to Support Land Development Section: $ 250,000
Provides funding for consultants to support the Land Development Section. Additional resources are needed to process the additional workload created by the high level of development activity.

Associate Civil Engineer-Construction Position: $ 174,900
Provides funding for a limited-term Associate Civil Engineer position and $900 for office equipment. The position will support the increased workload in the Construction Section due to the high level of private development and related excavation permits activity.

Return to Previous

Assistant Civil Engineer-Construction Position: $ 169,500
Provides continuation funding for a limited-term Assistant Civil Engineer position. The position will support the increased workload in the Construction Section due to the high level of private development activity.

Assistant Civil Engineer-Land Development Position (0.50): $ 84,700
Provides continuation funding for the allocation to the Development Services Fund for this position as mentioned in the General Fund section above.

Associate Civil Engineer-Traffic Position (0.30): $ 52,200
Provides funding for the allocation to the Development Services Fund for this position as mentioned in the General Fund section above.

Consultants to Support Traffic Engineering Section: $ 50,000
Provides continuation funding for consultants and hourly staff to support the Traffic Engineer Section. The increase in activity is mainly attributable to the approval of the three Precise Plans. The total cost of $100,000 is shared between the Development Services and Shoreline Community Funds.

Program Assistant – Engineering Position (0.25): $ 30,500
Provides funding for the allocation to the Development Services Fund for this 0.50 FTE position as mentioned in the General Fund section above.

Hourly Staff to Support the Land Development Section: $ 30,000
Provides funding for hourly staff to support the Land Development Section. The increase in workload is mainly attributable to the high level of development activity.

Hourly Staff to Support the Construction Section: $ 30,000
Provides funding for hourly staff to support the Construction Section. The increase in workload is mainly attributable to the high level of development activity.

<u>Shoreline Community Fund</u>
Consultants to Support Traffic Engineering Section: $ 50,000
Provides funding for the allocation to the Shoreline Community Fund for this item as mentioned in the Development Services Fund section above.

Associate Civil Engineer-Traffic Position (0.25): $ 43,500
Provides funding for the allocation to the Shoreline Community Fund for this position as mentioned in the General Fund section above.

Assistant Civil Engineer-Land Development Position (0.20): $ 33,900
Provides continuation funding for the allocation to the Shoreline Community Fund for this position as mentioned in the General Fund section above.

Return to Previous

Water Fund

Assistant Civil Engineer-Utilities Position: $ 169,500
Provides continuation funding for a limited-term Assistant Civil Engineer position. Additional staff resources are needed to comply with recycled water regulations and the increase in recycled water usage.

Assistant Civil Engineer-Land Development Position (0.10): $ 17,000
Provides continuation funding for the allocation to the Water Fund for this position as mentioned in the General Fund section above.

Wastewater Fund

Assistant Civil Engineer-Land Development Position (0.10): $ 17,000
Provides continuation funding for the allocation to the Wastewater Fund for this position as mentioned in the General Fund section above.

Solid Waste Fund

Assistant Civil Engineer-Land Development Position (0.05): $ 8,500
Provides continuation funding for the allocation to the Solid Waste Fund for this position as mentioned in the General Fund section above.

Public Works Department Total **$ 1,211,200**

FIRE DEPARTMENT:

Development Services Fund

Strong Motion Instrumentation Program (SMIP) (rebudget balance)*: $ 15,300*
Rebudgets the balance of funding based on the amount collected April 1, 2014 to March 31, 2015 and rebudgets the balance of funding for SMIP funds to be used for a Community Emergency Response Team (CERT) grant program.

Wastewater Fund

Consultant Services for Web-Based Reporting (rebudget)*: $ 20,000*
Rebudgets funding to create an electronic reporting system. The State requires all local government agencies to electronically report a hazardous materials business plan, inspection, and enforcement information.

Fire Department Total **$ 35,300**

Total Other Funds Limited-Period Expenditures **$ 11,288,200**

CITY OF MOUNTAIN VIEW

MEMORANDUM

Finance and Administrative
Services Department

DATE: July 1, 2016

TO: City Council

FROM: Helen Ansted, Principal Financial Analyst
Patty J. Kong, Finance and Administrative Services Director

VIA: Daniel H. Rich, City Manager

SUBJECT: Fiscal Year 2016-17 Adopted Fee Modifications

INTRODUCTION

As part of the annual budget process, departments review their fees and prepare recommendations to modify current fees, add new required fees, and eliminate any fees that are no longer necessary. If there are services provided that specifically benefit a particular individual/household or segment of the population versus more global services that generally benefit the entire community, a fee may be calculated and recommended to Council to recover all or a portion of the cost of providing the service. The Master Fee Schedule, the complete listing of all City fees, will be updated to reflect Council actions on June 21, 2016, pertaining to fees, and then published for Fiscal Year 2016-17.

BACKGROUND AND ANALYSIS

Each fee being modified, added, or eliminated is listed on the attached Exhibits A through H detailing the fees in effect for Fiscal Year 2015-16 and the Fiscal Year 2016-17 adopted amounts, fee basis, and effective date. The fee modifications are summarized below and if the fee is not a General Operating Fund revenue source, the applicable fund is identified. This is not a complete listing of all City fees, only those that are adopted as new or modified in some manner for Fiscal Year 2016-17.

A complete listing of all City fees can be found in the Master Fee Schedule located at http://www.mountainview.gov/civicax/filebank/blobdload.aspx?BlobID=20527.

Return to Previous

City Attorney's Office (Exhibit A)

General Operating Fund

These Code Enforcement and development-related fees are adopted with an increase, reflecting the cost of the staff providing the services.

Community Development Department (Exhibit B)

Development Services Fund

Land Use Documents—This fee was initially adopted for Fiscal Year 2015-16 in order to collect reimbursement from development projects for updating of various land use documents (e.g., General Plan, Precise Plans, Zoning Ordinance, etc.). The cost of the North Bayshore Precise Plan (NBPP) was not included in the calculations for the adopted Fiscal Year 2015-16 fee. However, because the NBPP will need to be updated in the future, staff recommended this component be added to the fee calculation for Fiscal Year 2016-17. The fee was assessed at 0.21 percent of building valuation for Fiscal Year 2015-16 and, with the addition of the NBPP, is adopted to increase to 0.26 percent of building valuation for Fiscal Year 2016-17.

The Cellular Antennae Fee is adopted with both a name change to Wireless Telecommunications Facilities and the addition of a fee to recover costs. The cost is for work resulting from minor modifications to certain existing wireless telecommunication facilities which is required, by a change in Federal regulations, to be processed more quickly with less review.

Housing and Rental Housing Impact Funds

These housing fees are adopted with the annual consumer price index (CPI) increase, as set forth in City Code Section 36.40.55.b.2 and Resolution 17937.

Parking District Fund

The Downtown Parking District Parking In-Lieu Fee is adopted to increase from $26,000 to $48,000 for new construction and from $13,000 to $24,000 for new restaurants and office uses in existing retail buildings. The City Council also approved future adjustments on an annual basis according to the rate of inflation for construction costs (Engineering News Record—ENR). The fee has not been increased since 2000. The adopted fee is based on the estimated cost of constructing new public parking structures and the construction cost for the California Street at Bryant Street parking structure. This fee is important to accrue funds for the creation of new public parking

Return to Previous

spaces to meet the demand for parking created by businesses which increase the demand but are unable to accommodate the parking on-site (see Attachment 1 to Exhibit B for additional information). There is one development project currently in the pipeline that will be impacted by this fee increase.

The Parking Permit Program is managed on a calendar year basis and the permit fees are adopted with a CPI increase as set forth in Resolution 17820, cumulative for 2016 and 2017.

Community Services Department (Exhibit C)

General Operating Fund

Center for the Performing Arts (CPA):

The service charge on consignment tickets is adopted to increase from $1.00 to $1.50. Consignment tickets offer a way for CPA clients to sell directly to their patrons, resulting in a loss in service charge revenue to the CPA. This fee increase offsets some of the loss to the City while still allowing the client to handle a portion of their ticket inventory at an affordable level.

The service charge on tickets purchased via fax, mail, and telephone is adopted to increase from $2.50 to $3.00 in order to move the per-ticket fee level closer to industry norms for service charges. This increase will also offset a portion of the new per-ticket fees assessed by the new ticket software vendor.

The adoption of a new type of subscription fee will allow for the recovery of charges from the new ticket software vendor and maintain current revenue levels.

Ticket Purchases and Transactions are both adopted with a slight name change. Ticket Purchases are adopted to change from a flat $0.50 per ticket to a flat fee on a laddered price structure and no fee is to be charged for tickets at or below $10.00.

Recreation:

The Adult Sports League fees are adopted to change from fixed pricing for five specific sports to a pricing range that can be applied to many different sports. Allowing flexibility in both activity and fee enables the division to adjust offerings based on the most current trends.

Return to Previous

The Open Gym fees currently assessed for drop-in basketball and volleyball programs are adopted to be expanded to a Drop-In Sports category that would include sports that could utilize either a gym or athletic field on a drop-in basis.

Tennis lesson and youth camp fees are adopted to increase 15 percent in order to help fund rising personnel costs resulting from the increased minimum wage. This does not require a revision in the Cuesta Tennis Agreement; however, the Agreement requires any fee increases be adopted by City Council.

Shoreline Golf Links Fund

Frequent Player—The Frequent Player rates are the most affordable in the area and are adopted with an increase of 2.0 percent which is anticipated to generate $4,000 to $5,000 and offset increasing expenses. City Council also approved rounding this increase and any future increase to the nearest $5.00 and adjusting the schedule from Monday through Friday to Monday through Thursday.

The top of the range for Green Fees is adopted to increase $2.00 which could generate up to $70,000 and will offset cost increases in wages, water, and other utilities, and general maintenance.

The rate increases were presented to and approved by the Advisory Greens Committee on January 20, 2016.

Finance and Administrative Services Department (Exhibit D)

General Operating Fund

The current fee of $25.00 for a hard copy business license report has been reviewed and is adopted with a reduction to $16.50 for an electronic version and $16.50 plus $0.25 per page for a hard copy. The reduced price reflects the ability to create and e-mail an electronic version of the report. Beginning Fiscal Year 2016-17, the department will create a business license report and upload it to the City website on a quarterly basis. If a member of the public requires and requests a more up-to-date version, the fee will be assessed.

Fire Department (Exhibit E)

Environmental Safety:

Wastewater Fund

Hazardous Materials Facility Closure Review/Inspection is adopted with a basis change to one hour at no charge, reflecting the amount of time a routine inspection should take.

The remaining Environmental Safety fees are adopted with either the annual CPI or cost-of-living adjustment (COLA), as applicable, rounded to the nearest dollar.

Fire and Building Safety:

General Operating Fund

When the Multi-Housing Valid Service Request fee was initially adopted in 1996, it was tied to the Multi-Housing Reinspection Fee. The Valid Service Request fee is adopted with a cumulative CPI to bring this fee back in line with the Multi-Housing Reinspection Fee.

The remaining fees are adopted to increase by either the annual CPI or applicable COLA, rounded to the nearest dollar.

Environmental Safety/Fire and Building Safety:

General Operating and Wastewater Funds

The Fire Protection System Maintenance fees are adopted with the annual CPI increase and a name change to include Public Safety.

Information Technology (IT) Department

General Operating Fund

The City requires digitized development plan sets in a format usable by the City Enterprise Geographic Information System (EGIS) for all public and private development projects in order to maintain the EGIS with accurate and current data. The EGIS is used for City maintenance and to assist public safety staff. The digitization of plans is a new activity that will include IT staff collecting and cataloging the project plan set, reviewing the digitized plans created by an outside vendor, reviewing and

Return to Previous

processing invoices, and incorporating updated data into the EGIS. The Data Digitization Fee is intended to be set at a level that will recover the cost of both an external bonded service to digitize all development plans in a format usable by the City EGIS and administration of the program. The fee will be collected with permit fees before the plans are sent to be digitized and prior to the issuance of the Building Permit, Excavation Permit, or Final Map.

Staff is continuing to review the methodology for this fee and will return to City Council during Fiscal Year 2016-17 with a fee recommendation.

Library Services Department (Exhibit F)

General Operating Fund

Internet Computer Station Use—As more customers are coming to the Library with their own devices to use WiFi, use of the Library's desktop computers is declining. As a result of the increased capacity, the time limit was increased from 90 minutes to 120 minutes for Fiscal Year 2015-16. Many of the customers who use this service are the least able to pay and rely on the Library for their only access to the Internet and City Council approved elimination of this fee.

Replacement Library Card—City Council also approved elimination of this fee, as staff would like to remove every possible barrier to service. The loss of revenue is minimal.

Public Works Department (Exhibits G and H)

General Operating Fund

The Street Improvement Reimbursements are adopted to increase by the December 2015 ENR construction index of 1.57 percent.

Development Services Fund

The Sidewalk Permits are adopted to increase by the annual ENR index and the remaining fees are adopted with the annual COLA as applicable.

Storm Drain Construction Fund

Storm Drainage Connection fees are adopted to increase by the annual ENR index.

Return to Previous

Utility Services (Exhibit H):

Water, Wastewater, and Solid Waste Management Funds

Chapters 28 and 35 were amended effective April 22, 2014, eliminating the Code sections authorizing the Existing Facilities Connection fees.

Labor Rates are adopted with the appropriate COLA.

Utility rates are detailed in Exhibit H and include the following adopted adjustments:

Water—10.0 percent and Recycled Water—3.0 percent.

The outside City limits meter rates were eliminated effective February 2016.

Wastewater—19.0 percent.

Solid Waste Management—10.0 percent for carts only; no change for all other trash and recycling services. Also, City Council approved an additional 10.0 percent maximum increase (totaling 20.0 percent) for carts and 2.0 percent for bins and compactors to be determined in fall 2016, for Fiscal Year 2016-17.

Future utility rate adjustments were adopted and are detailed in Exhibit I.

CONCLUSION

Departments reviewed their fees and proposed the new, modified, or eliminated fees discussed in this memo and detailed in Exhibits A through I. As part of the budget noticing process, the City complied with all noticing requirements which apply to fees.

CITY OF MOUNTAIN VIEW

MEMORANDUM

Community Development Department

DATE: April 26, 2016

TO: City Council

FROM: Eric Anderson, Associate Planner
Tiffany Chew, Business Development Specialist
Randy Tsuda, Community Development Director

VIA: Daniel H. Rich, City Manager

SUBJECT: Downtown Parking In-Lieu Fees Proposed Increase

BACKGROUND

The Downtown Parking Maintenance Assessment District (Parking District) provides public parking for downtown businesses and funds the maintenance and operations of the public parking facilities (Exhibit a – Parking District Map). Most properties in the historic Castro Street commercial area are not physically able to provide parking on-site due to their small size and shape, so they are allowed to pay fees in lieu of providing parking to expand buildings or build new ones. These one-time fees are paid to the Parking District which uses the funds to create new public parking facilities. Shared parking increases parking efficiency, reduces parking cost and makes effective use of the parking facilities within the Parking District.

The Downtown Precise Plan contains the parking in-lieu fee requirements. They apply to the following developments in the Parking District: 1. new buildings, floor area or residential units, and 2. new restaurants and offices in existing retail buildings. Existing businesses, buildings and housing units do not pay the parking in-lieu fee (unless they are proposing to expand). Buildings outside the Parking District are required to provide parking on-site and do not pay the fee.

PROPOSED INCREASE

In 2000, the City adopted a fee of $26,000 per required parking space for new construction and $13,000 for new restaurants and offices in existing retail buildings. The fee was based upon land costs and estimated cost to construct a new parking structure on a net new parking spaces basis. Net new parking spaces is determined by taking the total number of parking spaces in the parking structure and subtracting it

Return to Previous

from the number of spaces that existed on the property before the structure was built. This fee has not increased with the cost of construction since then.

For the new proposed fee, staff analyzed the cost of constructing parking structures from several different cost perspectives:

- The cost of several comparable parking structures in the Bay Area was estimated. The average cost per net new space was determined by assuming the existing land was used as parking.
- The cost of constructing the 850 California Street Parking Structure was estimated, adjusting by the current rate of inflation for construction costs, and subtracting the costs of constructing the retail space and solar panels. The average cost per net new space was determined.

Staff is proposing the fee increase from $26,000 to $48,000 for new construction and from $13,000 to $24,000 for new restaurants and offices in existing retail buildings. The $48,000 is based on an average of the two analyses above. For comparison purposes, Palo Alto's fee is $63,848 per parking space and Sunnyvale does not have a parking in-lieu fee. There is one small development project currently in the pipeline that would be impacted by this fee increase.

OUTREACH

Staff held two public meetings about the proposed fee increase. The Downtown Committee reviewed the fee increase at their regularly scheduled meeting of April 5, 2016. The Committee supported the fee increase to help address the demand for more public parking.

Staff also held an information session about the fee increase on April 8, 2016. The following were notified about the information session: property owners within the Parking District, developers and commercial brokers who have worked in the Parking District, the Central Business Association, and the Chamber of Commerce. One property owner (of the development project above) and a developer attended the information session.

Pursuant to Government Code Section 53756, the percent increases are in addition to (1) any inflation adjustment to reflect the annual change in the February CPI for All Urban Consumers in the San Francisco Metropolitan Area as published by the U.S. Department of Labor, Bureau of Labor Statistics, or any successor to that index, of each year, provided that no such increase may establish rates which exceed the City's actual cost to provide service ; and (2) third-party (supplier) pass-through costs for each fiscal year including any increase in the wholesale cost of water, treatment of wastewater, or processing or collection of trash and recycling provided to the City of Mountain View including costs established by the third-party supplier may be passed through to customers of Mountain View's utilities as follows: the third-party cost as a percentage of the City's total operating costs multiplied by the rate increase received from the third-party supplier.

1 Trash/recycling rates are rounded to the next nickel.
2 Wastewater residential flat rate is rounded to the next nickel and per unit rates are rounded to the next penny.
3 Water meter rates are rounded to the next nickel and the per unit rates are rounded to the next penny.
4 The uniform and Tier 2 rates reflect the average cost of water. Tier 1 is set at 75.0 percent and Tier 3 is set at 160.0 percent of the average cost of water (Tier 2).
5 Meter rates are tied to capacity ratios published by the American Water Works Association (AWWA).

CALCULATION OF APPROPRIATIONS LIMIT

The City is required by the State Constitution, Article XIIIB, to annually calculate the maximum amount of appropriations subject to limitation. This calculation is intended to limit the annual growth in tax revenues used to fund governmental expenditures in California. Article XIIIB was changed with the passage of Proposition 111 on the June 1990 ballot. These changes permit greater flexibility with regard to annually calculating increases in the appropriations limit by allowing additional growth factors to be used. The factors permitting the maximum allowable increase in the appropriations limit are chosen for the calculation each fiscal year.

As can be seen below, the City is substantially under its appropriations limit. The difference between the appropriations limit and the appropriations subject to limitation has grown over time as the limit has been substantially increased by the annual adjustment factors. This, combined with the comparatively slower pace of growth in proceeds of taxes over the same time period, has contributed to the amount under the appropriations limit.

Fiscal Year 2015-16 Limit	$226,337,693
2016 Change in City of Mountain View Population	1.0158
2016-17 Change in Per Capita Personal Income	1.0537
Fiscal Year 2016-17 Limit	242,260,201
Fiscal Year 2016-17 Budget Amount Subject to Limitation	81,914,959
Amount Under Appropriation Limit	$160,345,242

Return to Previous

DEBT ADMINISTRATION

Legal Debt Margin:

The legal debt margin for the City of Mountain View, California, is calculated using a debt limit of 15 percent of the assessed value of property (excluding tax increment) within the City limits. Computation of the City's legal debt margin as of June 30, 2016 is as follows (dollars in thousands):

Assessed value (net)—June 30, 2016[1]	$22,425,807,479
Debt limit: 15 percent of assessed value	3,363,871,122
Less total bonded debt, general obligation	-0-
Legal debt margin	$ 3,363,871,122

In 2001 the City was awarded a AAA issuer credit rating by Standard and Poor's (S & P), one of the nation's top-ranked independent credit rating agencies. S & P upgraded the City from AA to AAA, the highest credit rating possible, because of a solid and diversified local tax base, the City's low debt burden, high property values and personal income levels, and the expectation of continued strong financial operations by the City. At that time, Mountain View was one of only three California cities to receive the AAA rating from S & P. The AAA issuer credit rating was last reaffirmed by S & P in 2015 and has resulted in lower debt costs and savings to the City.

Debt Obligations Outstanding:

As of June 30, 2016, the City is anticipated to have various debt obligations outstanding. These obligations are comprised of the following (dollars in thousands):

City of Mountain View:

Water Revenue Bonds were issued in 2004 to fund the construction of infrastructure to expand the City's water storage capacity.

Type of Indebtedness	Maturity	Interest Rates	Authorized and Issued	Outstanding as of June 30, 2016
2004 Water Revenue Bonds	2029	3.0%-4.5%	$9,700	$6,105

[1] Source: California Municipal Statistics Inc., excluding tax increment (TI).

Return to Previous

Shoreline Regional Park Community:

The 2011 Revenue Bonds were issued to refund the 1996 Tax Allocation Bonds (TABs) (which were originally issued to fund the acquisition of certain land from the City and to fund road, water, sewer, and other public improvements) and to fund the construction of Fire Station No. 5, Permanente Creek Trail improvements, and the Athletic Field projects.

The 2014 Bank Loan was issued to refund the 2001 and 2004 TABs. The 2001 TABs were issued to refinance and retire a portion of the 1992 TABs. The 2004 TA Refunding Bonds were issued to refund the 1993 Series A Bonds (which were originally issued to finance certain landfill closure projects and other public improvements within the Shoreline Community).

Type of Indebtedness	Maturity	Interest Rates	Authorized and Issued	Outstanding as of June 30, 2016
2011 Revenue Refunding Bonds	2040	2.0%-5.75%	$39,030	$32,955
2014 Bank Loan	2018	1.65%	$12,135	$6,265

Special Assessment:

Special assessment debt consists of various issues to finance property owner improvements within the City. Special assessment revenues are recorded in the Special Assessment Debt Service Fund.

Type of Indebtedness	Maturity	Interest Rates	Authorized and Issued	Outstanding as of June 30, 2016
Special Assessment Debt with Governmental Commitment	Up to 2022	4.1%-7.0%	$756	$175

Total long-term debt outstanding is $45.5 million.

Annual debt service payments by entity for Fiscal Years 2014-15 audited, 2015-16 Adopted and 2016-17 Adopted can be found on the following pages.

FISCAL YEAR 2016-17
BUDGET PREPARATION AND REVIEW PROCESS

The budget process typically begins in November of each fiscal year when all City departments begin preparation of their budget proposals for the upcoming fiscal year. Budget requests are reviewed by the City Manager and the Budget Review Team (consisting of the Assistant City Manager and the Finance and Administrative Services Director).

Below is a condensed time line for the entire Fiscal Year 2016-17 budget process:

November 2015 – January 2016	Departments prepare and submit the following for the upcoming fiscal year: (1) transmittal letter, non-discretionary increases, discretionary increases, and limited-period requests to the Budget Review Team; (2) reclassification requests to Human Resources and then to the Budget Review Team; (3) capital outlay and equipment replacement requests to the Capital Outlay Review Committee
November – December 2015	The Capital Outlay Review Committee meets with each department and reviews their capital requests.
December 2015	Develop list of potential fees to be modified and other revenue enhancements and submit for review.
December 2015 – February 2016	Initial forecast for upcoming fiscal year prepared and presented to City Council.
January 2016	Departments develop and submit preliminary departmental goals.
February 2016	City Manager and Budget Review Team meet with each department to review budget submittals, including capital outlay, preliminary goals and fees.
February – May 2016	Departments review and modify goals/initiatives/projects to support City Council Major Goals.
March – April 2016	Five-Year Financial Forecast updated for upcoming fiscal year.
April 19, 2016	Public Hearing for CDBG/HOME funding cycle and General Fund non-profit agency funding. The public is provided an opportunity to comment during the public hearing.

Return to Previous

FISCAL YEAR 2016-17
BUDGET PREPARATION AND REVIEW PROCESS
(Continued)

April 26, 2016	City Council reviews current fiscal year goals and project status, confirms overarching City Council goals for upcoming fiscal year, and potential projects to achieve major goals are brought forward by departments.
April 26, 2016	City Council study session for presentation and discussion of Fiscal Year 2016-17 General Operating Fund, Other General, Special and Utility Enterprise Funds, Reserves, and 5-Year Financial Forecast. The public has the opportunity to comment during the study session.
June 14, 2016	City Council Public Hearing for presentation and discussion of the Fiscal Year 2016-17 Proposed Budget. The public has the opportunity to comment on the Proposed Budget during the public hearing.
June 21, 2016	Proposition 218 public hearing. Public hearing and adoption of Fiscal Year 2016-17 Council goals, budgets, appropriations limit, fee modification (including rates), and approval of Fiscal Year 2016-17 through 2020-21 Capital Improvement Program. The public has the opportunity to comment during each public hearing.

This process complies with the procedures required in the City Charter for adoption of the annual budget specifying the annual City budget must be adopted prior to July 1, the beginning of each fiscal year.

BUDGET AWARDS

For the 23rd time, the Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the City of Mountain View for the Fiscal Year 2015-16 annual budget. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, an operations guide, as a financial plan and as a communications device.

In addition, for the Fiscal Year 2015-16 budget documents the California Society of Municipal Finance Officers (CSMFO) has presented the City with the award for Excellence in Operational Budgeting for the 30th year.

The awards are valid for a period of one year only. The Fiscal Year 2016-17 budget documents continue to conform to program requirements and will be submitted to GFOA and CSMFO to determine eligibility for Fiscal Year 2016-17.

SUMMARY OF
FINANCIAL AND BUDGETARY POLICIES

The City Council has established financial and budgetary policies which are reviewed and updated as necessary by approval of the City Council. A comprehensive and consistent set of financial and budgetary policies provides a basis for sound financial planning, identifies appropriate directions for service-level development, aids budgetary decision-making and serves as an overall framework to guide financial management and operations of the City.

A city's adoption of financial policies also promotes public confidence and increases the city's credibility in the eyes of bond rating agencies and potential investors. Such policies also provide the resources to react to potential financial emergencies in a prudent manner. The adopted Financial and Budgetary Policy can be found at the link below and a summary of this policy is included in this document.
http://laserfiche.mountainview.gov/WebLink/0/doc/66661/Page1.aspx

Budget Policies:
All governmental fund-type annual budgets are presented on a modified accrual basis consistent with the general purpose financial statements prepared in accordance with generally accepted accounting principles. Pursuant to Council-adopted financial and budgetary policies, budgets are approved at the fund and department level (legal level of control) and may not be exceeded without City Council approval. Transfers and adjustments between funds, departments and capital projects must be submitted to the City Council for approval. The City Charter requires approval by five votes of the seven-member City Council to amend the budget.

Budget Adjustments:
Budget adjustments are also required for grants and reimbursed services that were not anticipated or budgeted. Council Policy A-10 "Authorization to Execute City Contracts and Agreements and Increase Certain Limited Appropriations" authorizes the Finance and Administrative Services Director and the City Manager to increase appropriations up to $20,000 and $100,000 (indexed to 2011 dollars), respectively, when outside grants or reimbursement revenues have been received to offset expenditures that were not anticipated or budgeted. If the grant or reimbursement is not within the City Manager's level of authorization, a request for an appropriation increase must be submitted to the City Council for approval (five votes required).

Department heads are responsible for managing expenditures within their budget and assuring funds are only expended for properly authorized City expenses. Department heads are also responsible for expending funds consistent with the goals and objectives approved by the City Council.

- The adopted budget shall serve as the annual financial plan for the City. This financial plan shall include the goals, projects and initiatives set by the City Council and the level of services determined by the City Council.

Return to Previous

SUMMARY OF
FINANCIAL AND BUDGETARY POLICIES
(Continued)

- A balanced General Operating Fund budget will be adopted annually, whereby operating expenditures shall not exceed operating revenues.

- The City Council shall adopt an annual operating budget by the first of July of each year.

- The City Manager or designee shall have discretion for budget adjustments within a fund and within a department's operating budget.

- All budget adjustments between funds and departments shall be submitted to the City Council for approval.

- Performance and workload measures which reflect the effectiveness, efficiency or workload of departmental operations will be included in the annual budget. The budget should include comparisons of actual performance to a target goal.

Revenue Policies:
- The development and maintenance of diversified and reliable revenue streams will be the primary revenue policy of the City. The City will focus its efforts to optimize existing revenue sources while periodically reviewing potential new revenue sources.

- Revenues will be forecast for the upcoming budget year and the four subsequent fiscal years.

- Revenues will be estimated conservatively using information provided by State and other governmental agencies, trending of historical information and other relevant information.

- Fees and charges for services will be evaluated and, if necessary, adjusted annually. The City's objective in setting fees and charges for services is to achieve a reasonable level of cost recovery for services that are not provided to, or do not benefit the community as a whole.

- Periodic reviews or audits of significant revenue sources will be conducted to determine the accuracy of amounts paid and to monitor developments in the City's revenue base.

Expenditure Policies:
- City services and operations will be provided in an efficient manner with the objective of delivering the highest level of service possible at the lowest level of expenditure.

- Expenditures will be forecast for the upcoming budget year and the four subsequent fiscal years.

Return to Previous

SUMMARY OF
FINANCIAL AND BUDGETARY POLICIES
(Continued)

- Expenditures will be estimated conservatively using information provided by State and other governmental agencies, trending of historical information and other relevant information.

- A good internal control structure assuring that only properly authorized expenditures are made will be maintained.

- Expenditures will be controlled at the fund and department level and will not exceed appropriations without City Council authorization. Appropriations lapse at the end of the fiscal year to the extent that they have not been expended or encumbered.

- Obligations of the City will be recognized when incurred. Encumbrances will be used for outstanding commitments. Encumbrances outstanding at fiscal year-end will be carried over to the next fiscal year and are automatically reappropriated for inclusion in the next fiscal year's budget.

Reserve Policies:
- The General Fund Reserve, with a level goal to be equal to approximately 25 percent of the General Operating Fund budgeted expenditures, shall be used: (1) for City Council approved expenditures not appropriated during the annual budget process; (2) to cover unanticipated revenue shortfalls; (3) in situations of extreme physical or financial emergency (with the approval of the City Council); and (4) as a funding source for interfund loans and other loans or advances from the General Fund as approved by Council. Such loans and advances should accrue interest earnings for the General Operating Fund and include principal repayment to the extent possible.

- The Budget Contingency Reserve (sometimes referred to as the "rainy day fund") is a reserve that exists to provide funding during uncertain economic conditions. It is not currently designated in the policy as a permanent City reserve.

- The Capital Improvement Projects Reserve, with a level goal of a minimum of $5.0 million, shall be used for the funding of capital improvement projects authorized by the City Council. To the extent possible, General Operating Fund carryovers remaining from the end of the fiscal year, not designated for other reserve purposes, may be applied to this reserve.

- The Open Space Acquisition Reserve shall be used for the purpose of acquiring open space authorized by the City Council. Proceeds from excess City-owned properties shall fund this reserve as directed by City Council.

- The Strategic Property Acquisition Reserve shall be used for the purpose of setting aside specific funds for the City to use for the acquisition of strategic property(ies).

Return to Previous

SUMMARY OF
FINANCIAL AND BUDGETARY POLICIES
(Continued)

- The Property Management Reserve shall be used to provide a source of funds for obligations which could arise from the City's leasing of property in the North Bayshore Area, including legal, environmental testing or other costs normally incurred by a lessor.

- The Graham School Maintenance Reserve shall be used to fund the maintenance obligations, per the agreement with the school district, of the playing field at Graham Middle School beneath which the City has a reservoir.

- The Childcare Commitment Reserve shall be used to fund the future obligation payment of the City-owned building built for and leased to an operator for the purposes of childcare.

- The Compensated Absences Reserve shall fund the disbursements of separated or retired employees for accrued vacation and sick-leave. This reserve shall be funded in an amount sufficient to fund the accrued liabilities of the City for compensated absences such as vacation and vested sick leave.

- The Earned Lease Revenue Reserve was established in June 2011 to accumulate the rent as it is earned, as well as the interest earnings from the $30.0 million of prepaid rent for the initial lease term (52 years) of the ground lease of the City's Charleston East property by Google Inc. This reserve was endorsed by the City Council but the policy has not yet been amended to include this reserve.

- The Equipment Replacement Reserve shall be maintained to fund the replacement of capital equipment. The financial objective of this fund is to permit the budgeting of level annual amounts for capital equipment replacement while utilizing this fund's reserves to absorb the cash flow variations caused by the timing of asset replacements. Appropriations for this fund will be requested in the annual budget. It is policy direction that capital assets not be replaced before the end of their useful life unless justified by operating necessity.

- The Workers' Compensation Reserve shall be maintained at a level deemed adequate to meet projected liabilities as determined by an actuarial valuation to be conducted at least once every three years. In addition to projected liabilities, the reserve balance shall include at a minimum the provision for two catastrophic losses at the City's current level of self-insured retention.

- The Liability Self-Insurance Reserve shall be maintained at a minimum level of $2 million plus an amount deemed appropriate to cover expected claim settlements for the current fiscal year.

Return to Previous

SUMMARY OF
FINANCIAL AND BUDGETARY POLICIES
(Continued)

- The Unemployment Self-Insurance Reserve will be reviewed annually and maintained at a level adequate to meet estimated unemployment liabilities.

- The Employee Benefits Plan (Prescription/Vision) Reserve will be reviewed annually and maintained at a level adequate to meet estimated benefit liabilities.

- The Retirees' Health Insurance Program Reserve will be accounted for in accordance with Generally Accepted Accounting Principles (GAAP) which includes a biennial actuarial valuation of the City's liability and for each fund to contribute, to the extent possible, its Annual Required Contribution (ARC). In addition, to the extent possible, payments toward the Unfunded Actuarial Accrued Liability (UAAL) shall be made. All Annual Required Contributions and UAAL funds received net of actual retiree premiums paid are transferred to the California Employers Retiree Benefit Trust.

- The Water Fund Reserve shall be maintained as follows:
  1) Minimum 10 percent of operating budget for emergency
  2) Minimum 5 percent of operating budget for contingency
  3) Goal of 10 percent of operating budget for rate stabilization *
  4) Goal for capital improvements which averages the amount budgeted for annual maintenance capital improvement projects over the prior three to five fiscal years

- The Wastewater Fund Reserve shall be maintained as follows:
  1) Minimum 10 percent of operating budget for emergency
  2) Minimum 5 percent of operating budget for contingency
  3) Goals of 10 percent of operating budget for rate stabilization *
  4) Goal for capital improvements which averages the amount budgeted for annual maintenance capital improvement projects over the prior three to five fiscal years

- The Solid Waste Fund Reserve shall be maintained as follows:
  1) Minimum 10 percent of operating budget for emergency
  2) Minimum 5 percent of operating budget for contingency
  3) Goals of 10 percent of operating budget for rate stabilization *
  4) Required Financial Assurance Mechanisms (FAMs) if applicable

* The purpose of the rate stabilization funds is to buffer any significant changes in revenues or expenses. Use of the rate stabilization funds is allowed to gradually or incrementally change rates in any fiscal year to lessen the impact of an otherwise significant rate change. The funds are to be adjusted in the following fiscal years to meet the 10 percent guideline

Return to Previous

SUMMARY OF
FINANCIAL AND BUDGETARY POLICIES
(Continued)

- The Shoreline Regional Park Community General Reserve is based on 25 percent of the Operating Budget.

- The Shoreline Regional Park Community Landfill Reserve is to rebuild the landfill system in case of a catastrophic event. The landfill reserve is recommended to be increased by $1.0 million annually until it reaches $6.0 million and then be adjusted for inflation.

Capital Improvement Policies:
- A five-year comprehensive Capital Improvement Plan (CIP), identifying proposed major construction projects, capital equipment outlays, land acquisition and other capital improvement expenditures, and providing an analysis of the estimated funding available and necessary to fund these projects, shall be prepared and presented to the City Council for approval.

- The plan shall identify all proposed projects to be initiated during the five-year period.

- The first year of the five-year plan shall be appropriated annually. The appropriations for each project are ongoing until project completion, project cancellation or amendment.

- The adopted capital improvement budget shall only include those projects which can reasonably be accomplished or substantially started within the fiscal year.

- Recurring annual projects shall be closed out at the end of the fiscal year or as soon as all related expenditures have been paid.

- Capital projects will be reviewed on an annual basis for amendments or potential closure/cancellation.

- A list of unscheduled projects (projects not included in the plan period) will be identified in the five-year plan as an indication of potential future projects.

- Future potential ongoing operating costs associated with a project will be identified with the project in the five-year plan.

Cash Management and Investment Policies:
- The City will follow modern cash management practices that require active revenue oversight, prompt collection, deposit and investment of all funds and cash flow management which maximizes the amount of invested cash balanced with the timely payment of obligations.

Return to Previous

SUMMARY OF
FINANCIAL AND BUDGETARY POLICIES
(Continued)

- The City will invest all funds in accordance with the Investment policy based on the following criteria:
    1) Safety of investment
    2) Maintenance of sufficient liquidity to meet cash flow needs
    3) Attainment of a total rate of return consistent with the requirements of the City's Investment Policy

- The City shall conduct all of its investment activities in accordance with the California Government Code Section 53600 and the City's investment policy.

- The City's investment policy shall be updated as necessary and approved by the City Council.

- A complete report on the City's investment portfolio shall be presented to the City Council on a regular basis.

- A cash flow analysis shall be prepared on a monthly basis in order to estimate the amount of funds available for investment.

Accounting Policies:
The City's Comprehensive Annual Financial Report (CAFR) is prepared in accordance with the requirements of Governmental Accounting Standards Board (GASB) Statement No. 34 and provides the government-wide financial statements in addition to the fund financial statements. The accounting and financial reporting treatment applied to the fund financial statements is determined by the measurement focus of the individual fund.

- A financial accounting system adequate to provide management information and meet reporting requirements shall be maintained.

- A system of effective internal controls will be maintained that assures only properly authorized expenditures, recordings of financial transactions and accounting entries are executed.

- The City's financial records will be audited annually by an independent accounting firm as required by the City Charter.

- A Comprehensive Annual Financial Report (CAFR) shall be prepared each year within six months of the close of the previous fiscal year. The CAFR will be presented to the City Council in a Study Session in accordance with Council Policy B-6.

- The CAFR shall be prepared in accordance with generally accepted accounting principles applicable to local governments.

Return to Previous

SUMMARY OF
FINANCIAL AND BUDGETARY POLICIES
(Continued)

- The "Management Letter" presented by the City's independent accounting firm will be presented, with City staff's comments if applicable, to the City Council.

Basis of Accounting:
Governmental fund types are accounted for using the modified accrual basis of accounting. Revenues are recorded as received or accrued if they are both measurable and available to finance expenditures of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recorded when paid.

Proprietary fund types are accounted for using the accrual basis of accounting wherein revenues, unbilled or billed, are recognized in the accounting period in which they are earned, and expenses are recognized in the period liabilities are incurred. For budgetary purposes, capital projects are appropriated for the estimated cost of the total project. These financial uses of funds are not reflected as expenses in the City's financial statements but are capitalized and depreciated in accordance with generally accepted accounting principles.

Cost Allocation Plan:
The City prepares a cost allocation plan, to identify the costs associated with providing certain services. These indirect charges, noted as General Fund Administration on the fund schedules, reimburses the General Operating Fund for services such as those provided by the City Manager, Human Resources, City Attorney, Payroll, Purchasing, Accounts Payable and Information Technology. The full cost allocation plan delineates the basis of allocation by department which may include the total operating budget, the number of full-time equivalent positions per department, the number of work requests, square footage occupied, number of items processed, number of applicable devices, etc. The City also prepares a cost allocation plan for the Water Fund similar to the General Fund plan.

Internal Service Funds:
The City also has six internal service funds that provide service to all major funds within the City and, in turn, charge these funds for the cost of providing services. Revenues received for providing services are noted as interfund service charges in the fund schedules.

Debt Management Policies:
- Long-term borrowing will be restricted to the funding of capital improvement projects and equipment. The use of long-term borrowing for ongoing operations shall be avoided.

- The term of the debt shall not exceed the expected useful life of the capital improvement project or equipment.

Return to Previous

SUMMARY OF
FINANCIAL AND BUDGETARY POLICIES
(Continued)

- Debt obligations will be met in a timely and efficient manner.

- The City will comply with all debt covenants.

- Good communications with bond rating agencies about its financial condition will be maintained.

- The City will not exceed its legal debt margin limit of 15 percent of assessed value of property within the City limits.

- Refunding techniques will be used where appropriate to allow for the restructuring of its current outstanding debt, to remove or change restrictive covenants, and/or to reduce annual debt service in an amount sufficient to justify the costs of the refunding/reissuance.

Risk Management Policies:
- The City will maintain an appropriate level of funding or insurance coverage for exposure to risks of financial loss through self-insurance, partial self-insurance, commercial insurance, or pooled insurance with other agencies, whichever form is the most cost effective in the long term. If self-insuring, stop loss insurance or pooled insurance should be acquired in order to minimize the amount of self-insured retention, or financial responsibility, at the lowest level that is cost effective. The form of insurance employed for different risks shall be periodically evaluated.

- City property shall be appropriately insured or self-insured to cover the City's losses through theft, destruction, fire and other insurable perils.

- All liability-type losses and claims that occur with predictable frequency and which will not have a significant adverse impact on the City's financial position shall be self-insured to an appropriate level.

- An annual survey shall be made of all insurance and self-insurance to monitor and compare costs.

- The City shall be appropriately insured or self-insured for unemployment insurance.

- Workers' Compensation shall be insured or self-insured to an appropriate level and the program carried out according to State laws with the intent to care for the injured and preclude abuse to the extent allowable by law.

- A safe work environment shall be provided for employees.

GLOSSARY

Accounting System—The total structure of records and procedures which identify, record, classify, summarize and report information on the financial position and results of operations of a government.

Accrual Basis of Accounting—A method of accounting that recognizes the financial effect of transactions, events and interfund activities when they occur, regardless of the timing of related cash flows.

Actual/Audited Actual—The amount of expenditures, positions or revenues for the fiscal year as verified by the auditors.

Actuarial Accrued Liability (AAL)—The amount calculated by an actuary related to an incurred liability.

ADA—Americans with Disabilities Act.

Adjusted—Adopted plus/minus any midyear Council action.

Adopted—Formal action is taken by the City Council to set the financial plan (expenditures, revenues, positions) for the fiscal year.

Adoption—Formal action by the City Council to accept a plan, action or strategy, etc.

Annual Budget—The total budget for a given fiscal year as approved by City Council.

Annual Required Contribution (ARC)—Equal to the sum of the Normal Cost (NC) and Amortization of the Unfunded Actuarial Accrued Liability (UAAL). Used when discussing the Public Employees Retirement System (PERS) and Retirees' Health Insurance Program.

Appropriation—A legislative act authorizing the expenditure of a designated amount of public funds for a specific purpose.

Assessed Value (AV)—A value established by the County Assessor which approximates fair-market value of real or personal property or fair-market value at the time of sale, change in ownership or completion of construction adjusted by the annual California Consumer Price Index not to exceed 2.0% annually. By State law, 100 percent of the property value is used for determining the basis for levying property taxes.

Bonds—A legal promise to pay a sum of money on a specific date at a specified interest rate.

Return to Previous

GLOSSARY
(Continued)

Budget—A financial plan identifying projected revenues, planned expenditures and levels of service.

Budget Adjustment—Any lawful change after the formal adoption of the budget.

Capital Improvement Program or Project (CIP)—Capital projects such as City buildings, General Plan update, park renovations, etc. These projects are usually multi-year and, thus, extend beyond the annual budget. The CIPs are supported by a five-year expenditure plan detailing funding sources and expenditure amounts.

Capital Outlay (also referred to as Capital Equipment)—Expenditures that result in the acquisition of assets with an estimated useful life of two or more years and a unit cost of $3,000 or more (account classification 56100s).

Capital Projects Fund—Used to account for financial resources for the construction or acquisition of major capital facilities (other than those financed by Enterprise Funds). For the annual budget, only the Capital Project Funds that have annual budgets are included.

Carryover Balance—The difference between actual General Operating Fund (GOF) revenues received and actual GOF expenditures (operating balance), plus any other GOF one-time revenues or expenditures in a given fiscal year.

CCPI—California Consumer Price Index

Certificates of Participation (COPs)—Provides long-term financing through a lease, installment of sale agreement or loan agreement.

COLA—Cost-of-living adjustment.

Community Development Block Grant (CDBG)—A grant received by the Department of Housing and Urban Development.

Component Units—Legally separate organizations for which the elected officials of the primary government are financially accountable.

Consumer Price Index (CPI)—A statistical measure of price levels provided by the U.S. Department of Labor signifying the cost-of-living and economic inflation.

Contingency—An amount set aside for emergency or unanticipated expenditure and revenue shortfall.

Return to Previous

GLOSSARY
(Continued)

Cost Recovery Program—Service provided to a specific group or population where the fee is established to partially or fully offset the expenditures incurred for the program or service.

Debt Retirement Costs—Costs associated with the retirement of debt.

Debt Service—The payment of principal and interest on borrowed funds such as bonds.

Debt Service Fund—Government fund type used to account for the accumulation of resources for and the payment of interest and principal on a debt issue.

Department—The highest organizational unit with the City which is responsible for managing divisions or activities within a functional area.

Depreciation— The cost of an asset divided by its expected useful life in years.

Discretionary Expenditure—An expenditure that is avoidable.

Division—An organizational unit within a department that provides a specific service.

Educational Revenue Augmentation Fund (ERAF)—The mechanism used by the State to shift local taxes for the State's education funding commitments. This mechanism has been used three different times, thus the terms ERAF I, ERAF II and ERAF III.

EIR—Environmental Impact Report.

Encumbrances—Expenditure obligations of the City established when an agreement for services or goods is entered into. An encumbrance crosses fiscal years until the obligation is fully paid.

Ending Balance—A fund's accumulation of revenues over its expenditures available for appropriation.

Enterprise Funds—Used to account for an activity for which a fee or fees is charged to external users for goods or services. The City has three Enterprise (or Utility) Funds, Water, Wastewater and Solid Waste Management, that account for the water services, wastewater or sewer services, and refuse or trash services provided to residents and businesses in the City.

Estimated Expenditures—The amount of expenditures expected in the current fiscal year.

Return to Previous

GLOSSARY
(Continued)

Estimated Revenue—The amount of revenue expected to be received in the current fiscal year.

Expenditures—The use of financial resources typically spent for goods or services.

Fiscal Year—A 12-month period specified for recording financial transactions. The City of Mountain View's fiscal year starts on July 1 and ends on the following June 30.

Full-Time Equivalent (FTE)—Part-time and hourly positions expressed as a fraction of full-time positions (2,080 hours per year). Example: 3 positions working 1/2 time equal 1-1/2 FTEs.

Functions—long-term goals of a department which are tied to performance measures.

Fund—A fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

Fund Balance—The difference between assets and liabilities reported in a government fund.

General Fund—Accounts for the operations of the City which are not recorded in other funds.

General Fund Budget Contingency Reserve—A reserve set aside when uncertain economic conditions are anticipated to provide for financial flexibility.

General Fund Reserve—The reserve that provides a source of funding for necessary, but unanticipated, expenditures during the fiscal year, unanticipated revenue shortfalls, sources for interfund loans, emergencies and to generate ongoing interest earnings for the General Operating Fund.

General Fund Reserves—The combination of all General Fund Reserves.

General Government—A grouping of departments that support those which give direct service to the public.

General Non-Operating Fund—A "sub" fund of the General Fund which accounts for the limited-period revenues and expenditures of the General Fund.

Return to Previous

GLOSSARY
(Continued)

General Obligation Debt—Debt issued by a government for the acquisition or improvement of real property. This debt must be approved by the voting community with a two-thirds vote in favor and is to be repaid from general taxes collected.

General Operating Fund—A "sub" fund of the General Fund which accounts for the ongoing annual operations of the City which are not recorded in other funds.

Goals/Projects/Initiatives—A set of criteria to be achieved within a certain time period.

Governmental Funds—Funds generally used to account for tax-supported activities. There are five different types of governmental funds: the General Fund, special revenue funds, debt service funds, capital projects funds and permanent funds.

Grant Funds—Moneys received from another government, such as the State or Federal government, usually restricted to a specific purpose.

Gross—Amount prior to any deductions.

IFAS—The accounting and budgetary system used by the City of Mountain View until March 2016.

Infrastructure—A substructure or underlying foundation on which the continuance or growth of a community depends: roads, schools, transportation systems, etc.

Initiative Process—A system designed to put lawmaking power in the hands of people. Allows voters to collect signatures to put a new law or change on the ballot.

Interdepartmental Charges—Charges from one department or fund to another department or fund within the governmental entity.

Interfund Expenditure—An expenditure reported in one department or fund that is generated by another department or fund within the governmental entity.

Interfund Transfers—Movement of money from one fund to another within the City of Mountain View or component units of the City of Mountain View.

Intergovernmental Revenue—Grants, entitlements and cost reimbursements from another Federal, State or local governmental unit.

Internal Service Fund—Used to account for any activity that provides goods or services to other funds or departments on a cost reimbursement basis. The City uses Internal

Return to Previous

Service Funds for fleet maintenance, equipment replacement, Workers' Compensation, unemployment, liability risk exposure, retirees' health and employee benefits, etc.

Investment Portfolio—The accumulation of all cash and investments regardless of source or ownership, placed in securities or vehicles for purposes of generating interest income.

Labor Chargeback—An account used to credit salaries and benefits when time is charged to a capital improvement project or another fund or department for services provided.

Limited-Period Expenditure—An expenditure that is of one-time or limited duration and not considered ongoing in nature.

Maintenance and Operations—Cost of upkeep and running of property or equipment (account classification 55200s).

Major Fund— Comprised of several individual governmental funds organized according to their type (governmental and proprietary funds).

Materials and Supplies—Expenditures for goods used to support operations (account classification 55100s).

Measurement Focus—Types of balances (and related changes) reported in a given set of financial statements (e.g., economic resources, current financial resources, assets and liabilities resulting from cash transactions).

Mission Statement—A broad direction based on the needs of the community. A mission is general and timeless; it is not concerned with a specific achievement in a given time period.

Modified Accrual Basis of Accounting—Basis of accounting according to which (a) revenues are recognized in the accounting period in which they become available and measurable; and (b) expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt and certain similar accrued obligations which should be recognized when due. (NCGA Statement 1)

Net—Amount after consideration of any adjustments.

Non-Discretionary Expenditure—Unavoidable expenditure

Return to Previous

GLOSSARY
(Continued)

Normal Cost (NC)—Represents the annual cost estimated for retirees' health benefits in the future for current employees.

Objective—Something aimed at or strived for.

OneSolution—The accounting and budgetary system implemented by the City of Mountain View in March 2016.

Operating Balance—The balance of ongoing revenues and expenditures before one-time revenues or expenditures such as capital projects.

Operating Budget—Plans of current expenditures and the proposed means of financing them. The annual operating budget is the primary means by which most of the financing acquisition, spending and service delivery activities of a government are controlled.

Operations—Includes salaries, benefits, supplies and services, and capital outlay expenditures.

Other Expenses—All expenditures not recorded in other major account classifications (account classification 55500s).

Other Funds—The reference used for funds other than the General Fund (i.e., Special Revenue, Debt Service, Capital Projects, etc.).

Overhire Position—A position created for temporary use above the approved budgeted number of positions. This is used as an overlap when someone is retiring, out on disability, etc.

Oversight Board—Approves and directs certain actions of the Successor Agency to the Mountain View Revitalization Authority (SARA)

Performance/Workload Measures—Number or percentage of work category completed or performed. The performance/workload measures provide an indicator of the amount of work performed or measures the quality of effectiveness of work performed by a department or program from year to year.

PERS—Public Employees Retirement System.

Personnel Services—Salaries and benefits paid to City employees (account classification 54100-54300s).

Return to Previous

GLOSSARY
(Continued)

Position Classification—Includes job titles, job grades and job families for an overall job level.

Primary Government —Any state government or general purpose local government (municipality or county).

Professional/Technical Services—Expertise purchased from external sources (account classification 55400s).

Projected Revenue—The amount of revenue projected for the future fiscal year's budget.

Property Tax Apportionment—The allotment of direct taxes on the basis of population.

Proposed Budget—The initial plan for the fiscal year presented to the City Council before adoption.

Proposition 4/GANN Initiative Limit—The City is required, under Article XIIIB of the State Constitution, to limit appropriations from proceeds of taxes. The annual appropriation limit is based on data received from the State, including various growth measures such as population, CPI and nonresidential construction changes.

Proprietary Funds—Funds that focus on the determination of operating income, changes in net assets (or cost recovery), financial position and cash flows. There are two different types of proprietary funds: enterprise funds and internal service funds.

Rebudget—Funding for limited-period (one-time), capital outlay or equipment replacement items carried over from the current fiscal year to the next fiscal year with Council approval.

Recognized Obligation Payment Schedule (ROPS)—Schedule of financial obligations of the former redevelopment agency for each six month period.

Recommended Budget—The preliminary spending plan for the fiscal year presented to the City Council in the Narrative Budget Report.

Reserves—Used to indicate that resources are not available for appropriation and subsequent spending, but is either for a specific purpose or to fund a liability.

Revenue Enhancements—Any action that increases current revenue sources or creates new ones.

Return to Previous

Salaries and Benefits—The set of all City-related operating costs for personnel (e.g., salaries, wages, retirement, health, dental, etc.).

Section 1103 of City Charter—Mandates that the City Manager will send a careful estimate, in writing, detailing the amount of expenditures required to ensure the proper conduct of business at all levels the City Manager has control of and an estimate of incomes expected.

Secured Debt—Debt guaranteed by the pledge of assets or other collateral.

Services and Supplies—The set of all nonpersonnel-related operating costs (e.g., supplies, maintenance, utilities, services, etc.).

Services to Other Departments—Includes interdepartmental charges and credits received for work performed for another department or fund (account classification 54100).

Shoreline Community—The Shoreline Regional Park Community.

Significant Changes—Any increase above the base budget that is discretionary.

SMaRT® Station—The copyright protected acronym used for the Sunnyvale Materials and Recovery Transfer Station.

Special Assessment—Compulsory levy made against certain properties to defray all or part of the cost of a specific capital improvement or service deemed to benefit primarily those properties.

Special Revenue Funds—Governmental fund type used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted for specified purposes.

Structural Deficit—The deficit that occurs when there is an imbalance between ongoing revenues and ongoing expenditures.

Structurally Balanced Budget—Ongoing revenues are greater than or equal to ongoing expenditures.

Successor Agency to the Mountain View Revitalization Authority (SARA) –The agency responsible for making all enforceable obligation payments.

Return to Previous

Supplemental Educational Revenue Augmentation Fund (SERAF)—A one-time (two year) State mandated shift of local taxes from redevelopment agencies for the State's education funding commitments.

TABs—Tax Allocation Bonds. Bonds issued by a government agency secured by the agency's pledge of tax revenues.

Taxes—Compulsory charges levied by a government for the purpose of financing services performed for the common benefit.

Unfunded Actuarial Accrued Liability (UAAL)—The portion of the AAL that does not have funds set aside toward this liability. Used in reference to the PERS system and Retirees' Health Insurance Program.

Unsecured Debt—Obligation not backed by the pledge of specific collateral.

Utilities—A public service such as gas, electricity or water. Also used to account for expenditures for services such as gas, electricity, water, refuse collection, etc. (account classification 55300s).

Utility Funds—See Enterprise Funds.

Utility Rolls—Utility property assessed by the State Board of Equalization.

Vehicle License Fee (VLF)—Established in 1953 as a uniform statewide tax, the VLF is a tax on the ownership of a registered vehicle in place of taxing vehicles as personal property. By law, all revenues from the VLF fund city and county services, but the state legislature controls the tax rate and the allocation among local governments. In 2004, the Legislature permanently reduced the VLF tax rate and eliminated state general fund backfill to cities and counties. Instead, cities and counties now receive additional transfers of property tax revenues in lieu of VLF. In 2011 the legislature eliminated all VLF allocations to local agencies in order to fund COP's grant, booking fee subvention and other safety related grants.

VTA—Valley Transportation Authority.

SHORELINE REGIONAL PARK COMMUNITY

Return to Previous

Shoreline Regional Park Community

The Shoreline Regional Park Community (Shoreline Community) was created in 1969 by the Shoreline Regional Park Community Act (Act) for the development and support of the Shoreline Regional Park (Regional Park) and to economically and environmentally enhance the surrounding North Bayshore Area. The Act prescribes the powers of the Shoreline Community, including the construction and replacement of the infrastructure needed to serve the Shoreline Community such as streets, curbs, gutters, parking lots, sidewalks, water and sewer services, lighting, waste disposal, and levees, as well as operations and maintenance of the Regional Park.

The primary source of revenues for the Shoreline Community is property taxes, which include the revenue generated from the Shoreline Community's 1.0 percent levy assessed on the incremental taxable value of real and personal property located within the Shoreline Community. The assessed value of secured real property that does not experience a change in ownership or is not subject to new construction is adjusted annually at a rate not to exceed the California Consumer Price Index (CCPI) or 2.0 percent increase, whichever is lower. However, if a property changes ownership, it is reassessed at the current market value and new construction is initially valued at the cost of the construction. Unsecured tax on personal property, such as computers and other equipment, is assessed on the value of the property as reported annually to the County by the owning business.

Operating revenues for the 2016-17 fiscal year are adopted at $38.0 million, $4.0 million higher than the 2015-16 fiscal year adopted. This is primarily resulting from the projected growth in secured assessed value. Operating expenditures are adopted at $27.9 million, lower than Fiscal Year 2015-16 Adopted, as the General Fund loan has been completely repaid. In addition, there are capital projects of $2.8 million, contribution to PERS of $112,000, proportionate to the General Fund contributions, funding for the Compensated Absences Fund of $52,000, and funding for the Retirees' Health unfunded liability of $924,000 resulting from the updated actuarial valuation. The General Reserve, based on 25.0 percent of expenditures (similar to other reserves), is decreasing to $4.9 million and the Landfill Reserve is increasing from $4.0 million to $5.0 million (as part of the plan to increase to $6.0 million over several years in order to have funding for a catastrophic event). Future major capital projects related to transportation are proposed to be funded through the new development impact fee recently approved by Council and the future issuance of debt. The remaining balance available is projected to be $41.5 million.

Return to Previous

As of June 30, 2016, the Shoreline Community is anticipated to have the following debt obligations outstanding (dollars in thousands):

The 2011 Revenue Bonds were issued to refund the 1996 Tax Allocation Bonds (TABs) (which were originally issued to fund the acquisition of certain land from the City and to fund road, water, sewer, and other public improvements) and to fund the construction of Fire Station No. 5, Permanente Creek Trail improvements, and the Athletic Field projects.

The 2014 Bank Loan was issued to refund the 2001 and 2004 TABs. The 2001 TABs were issued to refinance and retire a portion of the 1992 TABs. The 2004 TA Refunding Bonds were issued to refund the 1993 Series A Bonds (which were originally issued to finance certain landfill closure projects and other public improvements within the Shoreline Community).

Type of Indebtedness	Maturity	Interest Rates	Authorized and Issued	Outstanding as of June 30, 2016
2011 Revenue Refunding Bonds	2040	2.0%-5.75%	$39,030	$32,955
2014 Bank Loan	2018	1.65%	$12,135	$6,265

The State legislature created the Shoreline Regional Park Community (Shoreline Community). Tax increment derived on the difference between the frozen base year value and the current fiscal year assessed value and other revenues generated from the activities of the Shoreline Community are to be utilized to develop and support the Shoreline Community and surrounding North Bayshore Area. Reserves are for general purposes, a catastrophic landfill event and tracking of development impact fees.

Assessed values are as follows:

		Total Assessed Value	Frozen Base	Tax Increment Value
Actual (Revised)	2011-12	$2,674,034,129	$33,888,148	2,640,145,981
